SCHLEY COURT.

Admiral Reviews His Evidence--Argument by Counsel Begun.

Washington, Nov. 4--The Schley court of inquiry resumed the argument stage at the beginning of the afternoon session today. The morning sitting was devoted to listening to Admiral Schley and Captain Sigbee while they made corrections to their testimony and to the questions previously given, and the introduction by Judge Advocate Lemay of numerous documents bearing upon different phases of the inquiry. James A. Schley did not make any material additions to his previous statements, but devoted himself largely to the clearing up of ambiguous points in his evidence. An effort was made to introduce two new witnesses, who were expected to give testimony on Admiral Schley's behalf, as to what information Captain Sigbee communicated to Admiral Schley when he arrived off Santiago in May, 1898. One of these witnesses was Frank B. Richards, and the other George Lynch. Both of New York, and both newspaper correspondents who were on duty in Cuba and in Cuban waters during the war with Spain. Mr. Lynch was on the press boat Somers N. Smith, and Mr. Richards on the Premier. They were to have testified concerning the meeting of these vessels with the St. Paul, of which Captain Sigbee was in command. The court, however, decided not to hear them.

THE DOMINION CAPITAL.

Result of Suits Against Two Newspapers--Bank Gets Judgment for Large Sum.

Ottawa, Nov. 3--(Special)--Hon. D. C. Fraser left for home tonight. Mr. Johnson, M. P., Cape Breton, arrived in the city today and joined his colleague, Dr. Kendall. Several important judgments were rendered in the Hull court this morning by Judge Rocheleau. In the case of William Gibson, of Aylmer, who sued the newspapers Le Tenis, Ottawa, and Le Presse of Montreal, for libel, judgment for \$100 in each case was given in favor of Gibson with costs against the newspapers. The costs in each case amounted to about \$100. Gibson claims that the newspapers had stated that on the day of his daughter's first communion he had hit the child, and that said newspapers had called him an Orangeman. The evidence showed these statements were not correct. In the suit of the Bank of Ottawa vs. R. & W. Conroy of Deshveles, and others for \$179,866 on promissory notes with interest, since June 1901, judgment was given for \$118,204 in favor of the bank.

QUARANTINE AT YARMOUTH RAISED.

After Six Weeks, Boarding House People Are Given Liberty from Smallpox Restrictions.

Yarmouth, N. S., Nov. 3--(Special)--The smallpox scare, as far as Yarmouth is concerned, may now be considered as a thing of the past. On September 27th, the daughter of Theophilus Maise, proprietor of the Central house, boarding house, on Brown street, was found to be suffering with the disease, and the case was reported to the town board of health, which took immediate action in the matter. Miss Maise was removed to the pest house at Arctavia and about 20 men and women who had been boarding at the house were put under strict quarantine in a boarding house and have been confined there under constant surveillance for nearly six weeks. A little over three weeks ago the proprietor was removed to the pest house, since then no symptoms have appeared amongst the other inmates of the boarding house, and last evening, after careful inspection by the town medical officer, Dr. Fuller, they were allowed their liberty. The two cases at the pest house are both convalescent.

The prisoner feels his position keenly.

MAY BE MORE TAXES ON BRITAIN'S PEOPLE.

Sir Michael Hicks-Beach Makes Announcement of Importance.

London, Oct. 4--What is regarded as an important announcement preparing the people of Great Britain for new taxes and fresh loans was made tonight by the chancellor of the exchequer, Sir Michael Hicks-Beach, in a speech at Bristol. After alluding to the "enormous increased ordinary expenditures" of the government and reviewing the war taxes and saying that the ever increasing demand of the national exchequer gives reasons for careful thought and even anxiety for the future, he proceeded: "The cost of the war in South Africa is enormous." "It still drags on. It may be when next year comes that I may have to ask the people of this country to bear even greater burdens and to make even greater sacrifices."

"The Porte claims under this convention that Great Britain should protect Asiatic Turkey against attack by France and suggests that Great Britain should send a squadron to the Levant for that purpose." AN INTENSELY DRAMATIC SCENE IN CATHOLIC CHURCH.

Ex-Communicated Priest, In Congregation, Is Ordered to Depart.

FIRMLY DECLINES.

The Choir Is Hushed, Priests Lay Aside Vestments and Leave the Sanctuary, Altar Lights Are Extinguished and Solemn High Mass Is Changed To Low.

Chicago, Nov. 3--There was an intensely dramatic scene in Holy Name Cathedral today when, in the presence of fully 1,000 parishioners, Jeremiah Crowley, the excommunicated Roman Catholic priest, was publicly humiliated by order of the archbishop of the church. Father Crowley had entered the church unobserved, passing up the centre aisle, and had taken a seat almost under the pulpit. Solemn high mass was being celebrated at the time. When the presence of Father Crowley became known Rev. Francis J. Barry, chancellor of the archdiocese of Chicago was hurriedly sent for. Upon entering the cathedral he went straight to the seat where the excommunicated clergyman was kneeling and ordered him to leave the church. Father Crowley refused to go, saying: "Put me out if you dare."

BOERS GOT AWAY WITH BENSON'S GUNS.

Succeeded in Taking Two--War Talked of in French Chamber of Deputies.

Pretoria, Nov. 4--It is known that the Boers got away with two guns captured today by the British in the recent engagement near Brakenburg, Eastern Transvaal. Paris, Nov. 4--In the chamber of deputies today M. Berry asked leave to interpellate the government regarding the measures it proposed to take, in accord with other governments, to call upon the British government to release the women and children in the South African concentration camps to hospital districts. M. Deschanel, president of the chamber, remarked that it would be difficult to interpellate the French government for the acts of the British government. After a brief discussion during which M. Millevoye was called to order for depriving the chamber of its dignity, the British colonial secretary as a coward and an assassin, the chamber decided to debate M. Berry's interpellation at a later date.

MURDER ATTEMPTED BY TELEPHONE.

Frenchman Tries an Entirely New Method in Crime.

Paris, Nov. 4--The French criminal authorities are investigating an extraordinary attempt to murder the director of a factory at Massera. He went to a telephone and picked up the receiver, when he was knocked senseless to the floor. Some one had cut the wire and switched on 100-volts current from an electric lighting plant. Fortunately, the current partly destroyed the telephone apparatus so that only a portion of the force was received, otherwise the director would have been instantly killed.

LOYDS GLAD TO BE FREE FROM THEIR BARGAIN.

Arbitration in Matter With Sturgeon Falls Pulp Company Ends in Private Settlement.

Ottawa, Nov. 4--(Special)--The arbitration case between the Sturgeon Falls Pulp Company and the Lloyds of England, whom has been sitting at Quebec, and during the past few days, in Ottawa, was settled privately between both parties today, and the agreement will be confirmed and given out officially by the arbitrator, Solicitor General Fitzpatrick, at 2 o'clock on Wednesday. The agreement is rather involved, but it is the effect that the Lloyds will drop a large amount of money in the transaction, which they entered into. The reason for the arbitration was that the Lloyds held that the lands which they agreed to purchase did not contain the quantity of spruce and other timber which was represented to them as being upon them. It is understood that the Lloyds will drop a large amount of money in the transaction, which they entered into. PRINCE OF TECK GOES TO SOUTH AFRICA.

Returns With Duke and Duchess of Cornwall to Find Himself Ordered to the War.

London, Nov. 3--It does not often happen that two princes are ordered to the front with their regiments at the same time, but this has just happened in the case of Prince Arthur of Connaught and Prince Alexander of Teck, who are both officers in the Seventh Hussars. Prince Arthur got a commission only last May, but Prince Alexander has already been out to South Africa and obtained a D. S. O. there. He has only just arrived home with the Duke and Duchess of Cornwall, to find that he has to go back to war. The Seventh Hussars are now considered quite as fashionable a regiment as the Fourth regiment, to which the Duke of Clarence was attached. Prince Arthur is very popular at Aldershot, where there is great excitement among the ladies that he is going at so young an age to fight for his country. He is very handsome, and presents a striking appearance in his uniform. He has the pleasantest possible manners, and likes to be cordial all around Ladies, especially, have quite misunderstood this trait, with the result that the young prince has been run after and lionized to a great extent as if he were a great general covered with glory. The Duke of Connaught, who is thoroughly sensible, has been greatly annoyed about this. With his brother officers, among whom, besides Colonel Lawley, who commands, are Major Toose, brother-in-law of the Duke of Hamilton; Major Carey, brother of Lady Camoys and Lady Sladen, and Major Nicholson, a brother of Lady Bradford, Prince Arthur is glad the Seventh Hussars has been ordered out. The men are proud to have their young prince with them, judging from their enthusiastic cheering for his royal highness when the news was announced to them.

PUBLIC STILL TAKEN UP WITH BULLER'S CASE.

Publication of Despatches by War Offices is Unlikely.

London, Oct. 4--The exact terms in which General Buller, who continues to monopolize conversation in England, advised General White to surrender Ladysmith, are not yet published, nor are they likely to be published in the near future. The National Review's version of the message, which was correct in substance, is an incorrect text. The war office is blamed for allowing a libel to be circulated on the man it has already so severely punished; but as a matter of fact, the question of the publication of the despatches relating to General Buller's attempt to rescue Ladysmith has now passed out of war secretary's hands, and will surely be dealt with by the cabinet. Lord Kagan, the under secretary for war, pointed out that it would be entirely unfair to publish the one despatch, which has so much stirred up General Buller, his critics and the country, without publishing others, the contents of which are vital to understanding the situation in which the national controversy hinges. For the foreign office to publish the hundreds of messages now on file at the war office directly bearing on the subject means revealing to the public secrets never intended for their eyes, and the imputation of persons who have so far escaped any odium. It is probable that the war office will take absolutely no action in the matter until parliament resumes, when they will be ready to answer the question of the publication of the despatches. The war office is sure to be made to have these despatches placed before the House of Commons. General Buller, so far, has not asked that the despatches be published, and it is that General Buller is not likely to take any such step. The agitation in favor of General Buller does not disturb the officials of the War Office, and with the exception of a few parliamentary passages at arms, they expect it will blow over as a matter of fact. London, Nov. 5--The Daily Express, on the authority of Dr. Miller Maguire, a famous military coach, gives what it alleges to be the authentic version of the telegram sent by General Buller to General White during the siege of Ladysmith. It is as follows: "I have failed. Unable to try again without siege operations taking a month. Can you hold out so long? If not I suggest your firing away as much ammunition as possible and finally making the best terms. If you have any other alternative to suggest I can remain where I am as long as you like." "Further despatches were exchanged," adds the Daily Express, "and learning that Sir George White was able to hold out, General Buller settled down to prepare to force the Tugela." Dr. Maguire, through whose hands half the officers of the British army have passed for duty purposes to have acquired the information without seeking for it, some months ago.

HALF OF GREAT BRITAIN LOST IN DENSE FOG.

Shipping Blockaded, Railways Deranged, Business Prevented.

Dangerous to Walk Out.

Suburbanites in London Groped.

Their Way to Trains Only to Find Them Stalled--Inextricable Mass of Cabs--Conditions Not Experienced in Years.

London, Nov. 4--A fog such as Great Britain had not experienced for years enveloped London and half of the United Kingdom today, blocking shipping, deranging railways and throwing business in London, Birmingham and other provincial cities into confusion. So dense was it that a walk in the streets was an adventure. The fog descended upon the metropolis and suburbs so thickly that between 4 and 5 o'clock in the afternoon the principal avenues of traffic resembled the steam train of a Turkish bath. Hundreds of thousands of London's suburban population vainly endeavored to grope their way to the railroad stations. Two express trains were obliged to stop. The few who succeeded found the trains almost unrecognizable. Around Trafalgar Square and the houses of parliament were unrecognizable for years were witnessed. Hundreds of omnibuses, cabs, carts and wagons formed an inextricable and immovable mass. The mounted police, in trying to clear away the jam, got lost themselves. Many vehicles were in collision. The drivers, not knowing where they were, stood at the roadside awaiting the lifting of the premature darkness. Lanterns were at a premium. Newsboys transformed themselves into temporary torches. Highwaymen pursued their vocations. Casualties were frequent and even hardened Londoners freely expressed a dread of the continuation of such fogs, which today reached the climax.

ANOTHER VICTIM.

Maine Man Dies as Result of a Hunter's Mistake.

Maine, Me., Nov. 4--Leslie Bowker, who was mistaken for a hunter, was shot today, the victim of a hunter's mistake. Bowker was in the vicinity of Great Falls, on the Machias river, when he was mistaken for a hunter and shot by a gunner in the nearby woods. The rifle ball cut a furrow across the left leg and passed entirely through the right thigh, close to the bone. He bled with pain and the hunter in the woods made off as quickly as possible. Bowker took his belt and buckled it across his chest, and raised himself up, attempting to walk. He fell after about 30 yards, completely exhausted. On reaching he attracted the attention of a party of hunters, who carried him in a canoe five miles, after which he was driven two miles to his home. Bowker was so weak from loss of blood and the journey, together with exposure, that he died today.

Out of this amount four quarterly dividends of 2 1/2 per cent. each have been declared, amounting in all to \$351,700, leaving a surplus of \$297,551. During the year 46,741,000 passengers were carried.

ATTEMPT AT ASSASSINATION.

Russian Prefect of Police the Intended Victim--Escaped Injury.

London, Nov. 4--A dispatch to a news agency from St. Petersburg says an unknown man gained an interview today with Lieutenant Kleigol, the prefect of police, and shot at him twice with a revolver before he was overpowered. The general was not wounded.
