

GUARD AGAINST WRONGFUL PLACING OF A PERSON IN PROVINCIAL HOSPITAL

New Regulations, Recently Framed, Given to the Public—Superintendent to Know All Particulars Before a Patient Will Be Taken Into Institution in Lancaster—Provision of Penalties to Secure Proper Carrying Out of the Rules.

The new regulations framed by the commissioners for the Provincial Hospital for Nervous Diseases have just been made public. The regulations provide that no patient shall be admitted unless his insanity is established to the satisfaction of the superintendent...

Diagnoses and imbeciles can be admitted only on satisfactory proof that they are idiots and imbeciles can be admitted only on conformity with these regulations. Insane persons when either they or those obliged by law to provide and care for them, are able to pay the entire expense of their maintenance and treatment, can be admitted or detained only on the certificate of two physicians in accordance with the regulations.

CZAR WILLING TO DISCUSS PEACE

(Continued from page 1) speed. One division going in a westerly direction and another in an easterly direction. The Russian cruisers and battleships prepared to repel the attack. The cruisers manned their port batteries and the battleships their starboard batteries. No attempt was made to prepare the batteries on the other side of the ships, and it was here the Russians blundered.

Rojevsky's Losses About 15,000. Gushu Pass, June 8.—(108 miles north of Tie Pass, Manchuria)—According to reports received by General Linovitch from naval officers who have arrived at Vladivostok, the losses of Admiral Rojevsky's fleet run from nine to ten thousand officers and men killed or drowned and about 5,000 prisoners.

DR. HAY TELLS OF IMPRESSIONS ON HIS WESTERN TRIP

Entertains Natural History Society in Reporting on Royal Society's Members. Twenty-fifth Anniversary of the Letter, and it is Planned to Ask Founder to Visit Canada—Features of the West from Viewpoint of the Botanist.

The June meeting of the Natural History Society—the last of the season before vacation—was held Tuesday, June 7. Dr. G. U. Hay presented the report of the Royal Society of Canada, in 1882. At the invitation of the superintendent, the members of the society were invited to meet in the evening at the home of Dr. G. U. Hay.

25th Anniversary. The coming year will witness the 25th anniversary of the Royal Society, which was founded by the Marquis de Laflamme, then governor-general of Canada, in 1882. An invitation came from the Marquis de Laflamme to the Natural History Society to meet in the evening at the home of Dr. G. U. Hay.

Dr. Hay's Western Trip. Dr. Hay gave an account of his trip to the Pacific coast and some of the scenes which were of interest to a natural history collector. He described the mountains, plains, rivers and lakes. The grandeur of the scenery through the Fraser River canyon could probably not be surpassed in any country.

uncertain tone the immediate convocation of a national assembly to pass upon the question of peace or war, and the internal strife and the political parties of the empire. The document bids fair to become historic. The customary phrases of respect at the opening and closing are omitted and it is otherwise unceremonious, employing the direct personal pronoun. The address arraigns the bureaucracy and reminds the emperor that his pledge to convolve the national assembly is slow of fulfillment. It says the country is on the verge of civil war and even ventures to criticize a royal measure, contrasting the increase of the police power by the ukaz issued last Sunday with a weakening of the administrative process which the country has been led to expect.

Nine Months of Summer. It is a matter of wonder to a citizen of St. John, he said, to go Agassiz or Vancouver, four degrees of latitude north of us, and find summer extending from March to December, with a winter of only a few days. At that time Eastern Canada and the Middle West could scarcely boast of an unfolded leaf or flower. But at Agassiz, there are three hours' journey by rail from the coast, and there are great masses of bloom—rhododendrons, azaleas, different kinds of fruit trees and a great variety of Japanese plants and others belonging to climates less rigorous than ours of Eastern Canada.

and the aid given to farmers and fruit growers everywhere throughout Canada amply justify its existence. There is no part of the farmer's work, seemingly, that escapes its fostering care. Just now a series of experiments are being carried on by Dr. Chas. Saunders, son of the director, with a view of securing the best results in bread making by experimenting with the different grades of wheat flour. The experiments in fruit raising from crossing different varieties are also giving a great impetus to this industry in all parts of the dominion.

Other Features of the Meeting. A cordial vote of thanks was given to Dr. Hay for his report, after which Dr. G. F. Matthews read a paper, by title, from Joseph W. Bailey, of Boston on "The Hydrography of New Brunswick." This was referred to the publication committee. Dr. Matthews then read his paper on "Geology of Rockwood Park," a very instructive and interesting paper on the rock formations to be found there, which he explained very fully. The paper, which was discussed by several members, was also referred to the publication committee with recommendations for its publication in the bulletin of the society, where such a valuable paper would be widely read and studied. A cordial vote of thanks was tendered the lecturer, moved by A. Gordon Leavitt, seconded by Dr. Addy.

Can Eat Anything Now. How many Dyspeptics can say that? Or perhaps you are dyspeptic and don't know it. Have you any of these symptoms? Variable appetite, faint gnawing feeling at the pit of the stomach, insatiable hunger, a loathing of food, gas and souring of food, a painful lod at the pit of the stomach, constipation, or are you a gloom and miserable? Then you are a dyspeptic. The cure is simple: avoid stimulants and narcotics, do not drink at meals, keep regular habits, and regulate the stomach and bowels with BURDOCK BLOOD BITTERS.

Natural Specific for Dyspepsia. Miss Laura Chichester, Belle Anne, Que., says of its wonderful curative powers:—"Last winter was very thin, and was fast losing flesh owing to the run-down state of my system. I suffered from indigestion, loss of appetite and bad blood. I tried everything I could get, but to no purpose; then finally started to use Burdock Blood Bitters. From the first day I felt the good effect of the medicine, and am now feeling strong and well again. I can eat anything now without any ill after-effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."

Yarmouth Weddings. Yarmouth, N. S., June 8.—The wedding of Miss Eleanor Hunter Gardner, only daughter of Mrs. Freeman C. Gardner, and Harry H. Munro, barrister, took place at the home of the bride's mother at 8 o'clock this morning. Rev. Dr. Miller, pastor of the Presbyterian church, officiated. The bride was attended by Miss Lydia Killam, Charles E. Munro, brother of the groom, was best man. A breakfast was served after the ceremony, and the newly-wedded couple took this morning's express for Halifax and Sydney on their honeymoon trip. Both are very popular, and were the recipients of many beautiful gifts.

Students Can Enter At Any Time. As we have no summer vacation, do not divide into terms, and the instruction given is mostly individual. We do not find it convenient to give a summer vacation, as many of our students are far from home, and would be seriously inconvenienced by an interruption of their work. Besides, St. John's summer weather is cool, and a vacation is not necessary. Catalogues free to any address. S. KERR & SON.

Blissville Entertainment. Blissville, Corner, June 3.—An entertaining and social were held last evening in the Blissville Agricultural Hall. The proceeds, amounting to \$26.46, to be used for the purchasing of a flag and staff for the school building. The teacher wishes to express her appreciation of the interest taken by parents, children and young people, and to thank them for assistance in making it a success.
