Instead of taking chances in the pro-hockey activities with the Quebec club, of the National Hockey League, Goldie Prodger has decided to stay at home this winter and give what attention to the winter pastime that he will have time for to coaching the intermediate O.H.A. team in London.

H. H. Ferguson, who managed the London O.H.A. team last season, was nominated by London to the executive of the O.H.A. Mr. Ferguson is well known in Eastern Ontario, having played hockey with the Kingston Frontenacs, and has well-defined attitudes towards the welfare of the Canadian winter pastime.

Three Teams for Tigers
"Three is so much material available that the Tigers have decided to place three teams in the O.H.A., a senior intermediate and junior," a Hamilton report says. "The intermediates reached the semi-finals last winter, and should be able to go even farther the coming season, as the team will be much strong er. Several good youngsters were developed in the City League last winter, and it is figured that a strong junior team ean be mustered. Hamilton has not had a junior team for some years now and the Tigers are making a wise step in giving the younger players an opportunity to figure in the championship race."

Owing to the war and so many wounded players and other absentees the Preston Hookey Club, which held its annual meeting, with 100 in attendance, decided to enter only, one team in the junior O.H.A. series this winter. WASHINGTON, Nov. 28.—An abrupt to all attempts to settle the nation-wide coal

Miners and operators spent a bleak 1 wage increase, rejected it and every other coming, and then dissolved, sine die.

It was behind closed doors that the coal situation reached its climax, after involving the full attention of the Fedhard Scarled Government for two days previously. There was much heated oratory. The operators, by a pre-arranged plan, notified the miners' committee for the central competitive field of their acceptance of Dr. Garfield's plan of the 14 per cent. Increase.

This the mine workers promptly voted down. In turn, the miners put forward a counter-proposal: that Secretary Wilson's suggestion for a 31.65 per cent. wage increase be granted, and this the operators faitly refused, and this the miners voted down.

"The operators are pretending to accept Dr. Garfield's proposal." Mr. Lewis sald, "but as they do it they state they are unable to operate many of their mines under it. It would be foolish for us to attempt to make an agreement unless miners are to be given work." It was behind closed doors that the that the C
