Escana Farm Shorthorns

FOR SALE: Two imported bulls, proven valuable sires; 12 bulls, 10 to 20 months old, all by imp. sires and from high-class dams; also for sale 20 heifers and young cows, several with calves at foot, all of very choicest breeding and especially suitable for foundation purposes.

Mail orders a specialty. Satisfaction guaranteed.
MITCHELL BROS., BURLINGTON P.O., ONT.
Jos. McCrudden, Manager. Farm ¼ mile from Burlington Jct.

Robert Miller Still Pays the Freight—And he is offering in Shorthorns some of the best young bulls and heifers that can be produced. Young bulls fit for service, some younger still; heifers ready to breed and younger, and some in calf. They are of the best Scotch families and some of them from great milking families. They are in good condition and made right, just what you want to make a proper foundation for a good herd, and suitable to improve any herd in the land. They will be priced so that you can afford to buy, if you will tell me what you want. Our business has been established 79 years, and still it grows. There is a reason.
ROBERT MILLER, Stouffville, Ont.

Woodholme Shorthorns

For Sale—a number of yearling and two-year-old heifers, the two-year-olds are bred a short time, and a number of good farmer's bulls of the right kind and breeding. Write your wants.
G. M. FORSYTH, Claremont, Ontario

Miscellaneous.

Blacksmithing.

Has a blacksmith got to stop his work of shoeing a team and shoe a mail driver's horse?

Ans.—No.

Four horse Evener—Oyster shell Bark Louse.

1. Kindly advise me through the columns of your paper how to construct a four-horse evener for a plow, so the off horse will not travel on the plowed land.

2. I have some two-year-old apple trees which are gradually going back or becoming stunted. The leaves all through the summer were a yellowish-green, and many of them were half brown. The limbs, especially at the forks of the branches, are covered with a sort of gray mass which looks like eggs. I have been told this is oyster-shell bark louse. Kindly prescribe a remedy.
J. K. C.

Ans.—1. The accompanying illustration represents an evener to be used on a plow. The two lines indicate the furrow where the off horse travels. We cannot vouch for the effectiveness of this construction as we have never used it. It was sent us by a correspondent who claimed that it was all right. C, is a strong doubletree, 5 feet 4 inches long. From the right end to the centre of the first pulley it is 7 inches; from centre of first pulley

to where plow-head clevis fastens, it is 15½ inches; from centre of first pulley to centre of second pulley it is 24 inches. At the left end of the doubletree, C, bore three holes; first one 2½ inches from the end; second hole, 2 inches from the first one, and the third hole, 2 inches farther on. Fasten the left-hand team into whichever hole is found to be best. The chain passing through the pulleys will work more satisfactorily if the links are not too large. One end of the chain is attached to B, and the other one can be wrapped around the beam of the plow at any convenient place. It is usually attached at the coulter, and must be drawn up fairly tight so there will not be too much slack when turning to the left. It is claimed that this evener works without any side draft, but, actually, it is very difficult to get any four-horse evener that will permit the fourth horse to walk in the furrow and yet give a straight draft.

2. Possibly this gray mass on the branches of the trees is the coverings of the oyster-shell bark louse. The lime-sulphur wash, properly applied, will readily control this scale. Two sprayings should be given for the best results, the first at the strength of 1.030 specific gravity, hydrometer reading, or about one gallon of the commercial lime-sulphur diluted to ten gallons with water and applied shortly before or as the buds are bursting; the second at the strength 1.009 specific gravity, or the commercial diluted, one gallon to thirty or thirty-five with water, and applied just after the blossoms have fallen. Cultivate around the trees and fertilize them well, for it is frequently the unthrifty tree that succumbs to this pest.

Good For Man And Beast

Kendall's Spavin Cure has now been refined for human use. Its penetrating power quickly relieves swellings, sprains, bruises, and all forms of lameness. It is just what you need around the house. Write for many letters from users to prove its effectiveness.

T. J. Smith, Spencedale, Ont., says: "Have used Kendall's for many years in my stable and house and it never has failed us yet."
