HULL, CANADA

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY PERSON who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency of the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 50 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price, \$3.00 per acre. **Duties**—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. OORY,

Deputy of the Minister of the Interior.

ACETYLENE

Is Daylight On Tap

An analysis of Acetylene shows it to be almost identically the same as daylight—a pure white light.

Oil lamps, ordinary gas jets and electric lamps give light that has too many red and yellow rays. Gas mantles give light that is too blue.

For this reason an Acetylene light of 24 candle power is easier to read or work by than is an equally brilliant light of any other kind. Colors and shades seen by Acetylene light look the same as they do by daylight, everything is more distinct, and the eyes do not feel the same strain that is caused by other artificial lights.

When you add to this the greater convenience and lower cost of Acetylene, there seems little reason for sticking to the old oil lamps. Write us for full information about Acetylene lighting. We'll gladly give it, without any obligation on your part. 10

HOW do YOU clean your stable? Do you get the manure a good distance from the barn? Do you keep the stable yard clean? Do you spend **HOURS** at the job every day, trying to get the manure across the yard? Or do you have to hire a man to do the stable work for you?

If YOU are using the **PLANK AND WHEELBARROW** method of carrying the manure from the stable to the pile—the photo above shows you how you **MIGHT** do it. Isn't it easy? Your boy can do the work and never turn a hair. He'll make a quicker, cleaner job of it too.

It's Play with a BT MANURE CARRIER

FOUR BIG WHEELBARROW LOADS at a time—**ONE** big load cleans your stable. The work's done better too, because there is a big wide-mouthed bucket lowered right down to the gutter, into which you throw the manure. With a wheelbarrow some of the manure falls off while you're loading, and some on the way to the pile—**YOU CAN'T HELP IT.** You ought to have our Litter Carrier Book, and see how a BT Manure Carrier saves all the tedious, disagreeable work of stable cleaning.

GET FREE BOOK

It will pay you to get our big new Carrier Book. It shows you how a BT Manure Carrier will cut your Barn Work squarely in two, and gives you complete instructions for erecting your outfit.

THIS BOOK IS FREE.

THE COUPON BRINGS IT BY RETURN MAIL.

"BAKER" WINDMILLS

"BAKER" Back Geared Engines are so constructed that the gears cannot wear out of mesh, must necessarily work in mesh, as our wheels are built on a hub which revolves on a long independent steel spindle. The wheel cannot sag or become out of line. The hub revolving on the cold rolled steel spindle maintains the gears absolutely in position. In the construction of the "BAKER" back geared mills the small gear or pinion on the hub is below the large gear carrying the pitman. This position of the gears further prevents same from wearing out of mesh, and gives them the fullest wearing surface, and greatly increases the life of the machine.

H.A. Pumps of various designs, Pine, Cypress, and all sizes of GALVANIZED STEEL Tanks. Write for catalogue No. 25. We invite correspondence from dealers in territory where we are not represented.
