L. R. HOLMS, ESQ., M.A.

The course leading to the degree of C.M., M.D. extends over four years, and consists of four winter sessions of nine months each, beginning in October.

The Faculty of Medicine of Bishop's College aims at imparting a thoroughly practical medical education, and its facilities for doing so are in many respects unequalled in Canada. In addition to the regular course of didactic lectures, students have the advantage of extensive and varied hospital privileges.

The General Hospital, Royal Victoria, Western Hospital, Hotel Dieu Hospital and Dispensaries afford every opportunity to students of this College to receive clinical instruction in Medicine and Surgery. At the Women's Hospital special advantages are afforded for the practical study of Obstetrics.

The annual College fees average \$82.00, but a special discount is allowed when the four years' course is paid for on entrance.
