NEGLECT

If the tooth aches the owner goes to a dentist; if the stomach, he goes to the doctor; if his corn hurts he goes to a chiropodist, but if his eye aches he blames it to overwork or perhaps to a cold in the head. A man in New York who once had good eyesight but turned blind offered \$100,000 to have his sight restored. We do not know what the diagnosis of the case is, but as the offer has been pending for a long time, and the man is still sightless, we presume he is permanently blind. Perhaps his eyesight could not have been saved, but it is an undeniable fact that many are blind and many others are practically so whose sight could have been preserved by the early attention of a reliable optician. He was like hundreds of other people of the present day and who are troubled with a dull headache, which they blame to overwork, study, or perhaps to being up late the night before. There are others who complain of objects being dull, and again there are people who see specks floating in the air like dust, which is not dust, but eye trouble. These troubles can all be relieved by consulting E. J. MacIntyre, Chatham's reliable Optician, who uses all the latest methods for treating these troubles.
