

VI.

JUNE hath XXX Days.

1795.

Whilst vegetation thus her pow'rs confests, And sport their beauties in her infant beam; See the wild tenants of the woods exprest Her praise, and grow enrap- tur'd with the theme. And, whilst their notes in con- cert wild aspire, And speak the feelings of each little heart,	Shall man not catch a portion of their fire, And in the gen'ral chorus bear a part? Shall he behold the renovating year In every varying tint of beau- ty dress'd; Shall sounds of gladness die upon his ear, Yet wake no sympathy within his breast?
