## **"Clarke's" Moccasins**

The stamp "A. R. Clarke & Co., Limited," on a moccasin means that that particular moccasin is guaranteed to be worth every cent that you pay for it—that it will do all that is claimed for it.

We tan our own leather from the raw hide—do not buy it like other moccasin makers—and by doing so we save the tanner's big profit and give you the advantage in extra value.

"Clarke's" Bullhide moccasin is made from real bullhide—is thick and heavy, heat and wet proof, wears like iron, and will stand scalding, scorching, etc., without hardening.

Sold by enterprising dealers everywhere.

Our catalogue tells all about our different kinds of moccasins, and is free for the asking. Write for it.

**A. R. Clarke & Co., Limited** Toronto Canada

Tanners and makers of all kinds of leather gloves, mitts, moccasins, etc., for outdoor hard wear.

### Bonuses to Cheese Factories in Quebec

In the article on Quebec, published in our exhibition number, it was stated that the Provincial Government grants a premium to assist in the construction of cheese factories and creameries to the extent of from one to two hundred dollars, according to the dimensions of the building. We have learned since then that this is not wholly correct. A premium is granted in certain cases as when the first factory is built in a newly settled locality, where the quantity of milk is not large to start with.
