## FREEMAN'S THREE-PLY READY ROOFING

EASILY APPLIED

Great Reduction in Prices. Send for Price List, etc.

Parliament Buildings, Toronto, October 20th, 1898.

The W. A. FREEMAN Co., 57 Ferguson Ave., South, Hamilton, Ontario:

Gentlemen,—Nine years ago I purchased from you a large quantity of material known as Freeman's Ready Roofing, with which I roofed the north half of my barn and two sheds, 66x20 each. This year we re-painted this roof and found it in excellent condition. A shingle roof put on part of the barn two years before was badly in need of repair. I shall hereafter use your ready roofing on all my out-buildings.

Yours truly,  
(Signed) F. W. HOBSON.

## SALT

"A WORD TO THE WISE."

"Salt may be described as a powerful chemical agent for providing and preparing soluble food for plants from the materials present in the soil. This is a most important consideration when we remember that in all soils there are about two-thirds lying dormant and only one-third in active condition."

We sell all kinds of salt in all kinds of packages, barrels, bags or bulk. Unequalled shipping facilities. Higher grades of salt for dairy uses a specialty.
