PROVAN'S PATENT REVERSIBLE Carriers, Fork and Slings

FOR ROUND IRON, WOOD OR ANGLE STEEL TRACKS.
Have now become a standard of excellence with the farmers of Canada and the United States. At the World's Fair, Chicago, 1893, the only medal and diplomas given on hay carriers, forks and slings was awarded to us on these implements. Following is a copy of the judges' award: AWARD.—"For open trip hook to receive the sling; automatic clutch, adjustable for size of load desired; ingenious design of stop-block, which enables perfect control of carriage; no springs required for locking car, which has motion in all directions; compact form of fork, which can be tripped in any position; the car is reversible and of double action; for novelty, ingenuity and usefulness, excellence of material and construction." Correspondence solicited.

TRADE NOTES.

TWENTIETH CENTURY HARVESTING.—We have received from the McCormick Division, International Harvester Co., Chicago, Ill., a copy of their 1903 booklet, in which appears a beautifully illustrated description of the modern "Header" for use in the world's big harvest fields. It is an artistic as well as a useful production, describing up-to-date machinery of the highest class. If interested in the advances being made in this respect—and who is not?—drop a post card for a copy of the booklet to above address.

THE ONTARIO WIND ENGINE AND PUMP CO. are favored with another order from South America for one of their Airmotors, embracing a complete outfit, including tanks, etc. This is for Guzeo, Peru, and is anticipated to be the beginning of the trade in that quarter of the world. There is no better way of advertising Canada all over the earth than the export of her goods.

THE DANDY WINDMILL.—Intending purchasers of windmills would do well to study the advantageous features of the "Dandy," manufactured by the Woodstock Wind Motor Company. It has graphite bearings, and operates with commendable ease and safety under all conditions. Even in storms, it may be depended upon to thoroughly control itself. The firm also makes grinders, pumps, water tanks, drinking basins and saw benches, all of which will be found reliable in design and construction.

THE KIND OF SEEDS THAT YIELD.—For nearly half a century Ferry's seeds have been known, until farmer and gardener alike have learned to depend upon their wonderfully reliable, growing and yielding qualities. It is better to pay a little more for the seed and be assured of a great deal more at the harvest by sowing Ferry's seeds. The Seed Annual, which is sent free, post-paid, will be found unusually interesting and instructive. Write for it to-day. Address D. M. Ferry & Co., Windsor, Ont.

Finds Caustic Balsam to be Reliable.
Antigonish, N.S., April 30, 1902.
The Lawrence-Williams Co., Cleveland, O.:
I can say that I have for the past three years been a user of GOMBAULT'S CAUSTIC BALSAM, and have found it to be all that is claimed for it, and have in a great many instances recommended its use to others.—R. D. KIRK.

Expectations Realized.
Little, Pa., March 22, 1898.
Mr. W. F. Young, Springfield, Mass.:
Dear Sir,—I am very well satisfied with your Absorbine, which did exactly what you said it would.
Yours respectfully,
JACOB BIEDINGER.

GOSSIP.

In this issue, we call attention to the advertisement of J. Crouch & Son, proprietors La Fayette Stock Farm, La Fayette, Indiana. This is one of the oldest importing firms in the country. They import all breeds of draft as well as the German Coach stallions. This firm have imported 359 head of stallions in the last 15 months, and have 105 head now bought in Europe, which will be in their barns by April 1st. The German horse is a producer of high-class horses, and the horses of Crouch & Son won first prizes at all the leading fairs and horse shows in 1902. There are few farms in America that can show as many high-class stallions, both Coach and draft, and prices are as low as any reliable firm can make them. Messrs. Crouch & Son give guarantees with all their stock, and make terms satisfactory to buyers. La Fayette, Ind., is 249 miles south-west of Detroit, on main line of Wabash Ry.
