The managers of Dr. Barnardo's Homes invite applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training in Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 50-52 Peter St., Toronto.

**Amatite ROOFING**

**No more paint for me!**  
I've now covered every roof on my place with Amatite.

To buy a roofing that requires painting is inviting trouble. Painted roofings are as out of date as the harvester machinery of thirty years ago. The roofing of to-day needs no painting. That's one of its great features.

If you are still using the "old rubber kind," the kind that requires painting every year or two to keep it tight, we want to tell you about Amatite; why it needs no painting; why it wears longer than the "smooth surfaced" roofings, and why it costs less.

*First*—Its chief ingredient is Coal Tar Pitch—not a "secret compound," but a well-known, long-tested material, recognized by engineers as the greatest waterproofing material known. Two layers of this material are used in every sheet of Amatite.

*Second*—We use two layers of the best grade of wool felt to hold the pitch in place. This wool felt gives

tensile strength to the roofing, and is the best material known for that purpose.

*Third*—On top of these four layers is a real mineral surface. This surface requires absolutely no painting, and adds materially to the life of the roofing. It is fire retardant. It is permanent.

**FREE SAMPLE**

We want to send you a sample so that you can see what a solid, substantial waterproof roofing Amatite really is. Write to-day. Address nearest office.

**"EASTLAKE" Steel Shingles.**

That's the kind of a roof you want on your house and barns. They are the cheapest, being easiest and quickest to lay, and last the longest.

Send us measurements of the roof you intend covering, and we will give you complete estimates of cost.

"A paper guarantee vs. a 25-year actual test. I will leave it to you which is the 'safest.' I think actual proof is the best surety."
