Photo taken in Our Nursery

Note the vigorous growth, the berries in all sizes (some ripe) and flowers still showing for more fruit. This plot was planted first week in Mar. We picked ripe strawberries from it 24th of June, and continued picking ripe strawberries every day until the hard frosts came in the middle of September.

Make a Bigger and Better Garden This Year

Pressure Seeds of known quality. We test our seeds in our greenhouse before planting. Our thirty-five years' testing and growing seeds here in the West has given us an unusual experience that is behind everything we sell.

To Get Good Crops you must have Good Seed

Our Garden Seeds are all tested in our greenhouse during the winter season, so that they may be depended upon as being of good germination and vitality. We grow many of the seeds we offer, which enables us to make our prices as moderate compared to many other dealers.

IT IS NOT ECONOMY—IT IS NOT WISE to allow one year to slip by. Plant a 50-cent tree now. In three years you will have it with yield, saving it is worth \$25.00.
