**BILLION DOLLAR GRAIN CROP.**

According to Dr. A. McGill, chairman of the Dominion Grain Commission, Canada will have this year, a "billion dollar grain crop." This is not said idly. It is a generous estimate, but it is made after careful investigation. The C.P.R. does not venture to put the crop down in dollars, but, in a fresh publication it points out how well the crop at all points is doing; what favorable comments are made respecting it by those on the spot; how enthusiastic the farmers are themselves in referring to it, while, at the same time, the company points out, in detail, the amount of acreage which has been laid under contribution this year, namely:

	Acre
Wheat	11,517,000
Oats	10,164,000
Barley	1,397,900
Rye	159,685
Peas	101,420
Mixed grains	410,770
Hay and clover	7,974,000
Alfalfa	89,900
Buckwheat	355,500
Flax	723,000
Corn for Husking	183,700
Corn for fodder	297,070
Beans	34,490
Potatoes	448,800
Turnips, etc	156,200
Sugar beets	15,000

**Famous Camp Meeting Grove Threatened By Fire**

Berwick, August 16—A bonfire, kindled for the delectation of campers at the Nova Scotia Summer School of Methods, caused great excitement last night bringing out willing fire-fighters not only townfolk but scores from surrounding villages. A huge brush heap on the edge of the great hemlock grove in which Rt. Hon. Sir Robert Borden spoke last week furnished material for the fire. The sky reddened by the blaze and from a distance it seemed as if the famous grove was doomed. There was much indignation when the nature and origin of the fire was discovered. No permit had been granted for the fire and it is expected that the forest ranger for the County will look into the matter.

**ONE THOUSAND PRISONERS TAKEN BY BRITISH IN LAST BATTLE**

LONDON, August 20—A despatch from the Reuter correspondent on the British front in France says:

"The week end fighting developed into one of the most important and successful battles of the western offensive. Not only is our progress toward the complete mastery of the ridge highly satisfactory, but we have captured about a thousand officers and men, many machine guns and a good deal of material. Several strong points have been destroyed, and the way has been prepared for further progress."

"In the neighborhood of the Leipsic redoubt, the Honquet farm and Martinpuich we met with much success. The enemy organized several strong counter attacks, which, with one exception, were dispersed with heavy losses."

**Portugal Will Soon Enter The Big War**

London, August 19—"Portugal is today a vast field of manoeuvres," said Major Norton Matto, the Portuguese minister of war, in a recent interview with the correspondent of the Journal, publication of which has been delayed until today, for military and diplomatic reasons.

"Portugal being in a state of war with Germany and Austria," continued Major Matto, "wants to take part in the war in the most direct form and in a fraternity of arms. We are preparing with all our forces to take this direct part in the fight. The mobilization of the army was received with enthusiasm and has not developed one deserter and we are continuing to raise men. Our first concern was the organization of the staffs."

"We have now about 1,500 officers and this number will be increased by the convocation which has just taken place of all the men, from 18 to 30 years old, who are on a condition to bear arms. This will form a corps of militia officers."

**German Guns Near London.**

Watson Rutherford, M.P., has asked the Home Secretary whether he was taking any steps to allay public anxiety caused by the disclosure that on a residential estate, about 12 miles south of London a Japanese garden had been found constructed in concrete and masonry, giving emplacements for five heavy guns, and that such an estate commands the main line of railway into London, and which property, until last week was in the occupation of a so-called American citizen of German nationality with the rank of captain; whether he was aware that at the same place there was an 80 horse power car, fitted with a 500 candle power search light; whether he was aware at a sale July 18th, such a car was purchased by a firm with a German name whether he was aware that last week there was a similar state on another residential estate to the west of London, with another similar Japanese garden, with gun emplacements also occupied by a person of German nationality.
