Look Out For Pneumonia.

Your system is in a run down condition. You catch cold. You think it will soon pass off. It doesn't. You neglect taking any special care of yourself. Pneumonia develops and then comes pneumonia and a fight for life. A fight which is too often unaccomplished. Every day colds, coughs and sore throats are being cured by using Dr. Chase's Syrup of Licorice and Turpentine.

'Well,' he replied, 'she had the idea in other words. It was, "Fear not, for I have sent you a Comforter."

This is a related anecdote told recently by Will Irwin: The fire, not the earthquake, destroyed San Francisco. Few buildings really went down, and those were old brick structures of flimsy workmanship, or wooden houses half rotted by age. In the great story of such a building about a middle aged couple. The house settled gently forward, and out went the bed, all standing out on the sidewalk. The wife sprang out of bed on one side and regarded her husband on the other. 'Well,' she said, 'this will teach you to rest a blanket in between.'

A Butterfly's 'Umbrella.'

He was only a butterfly, one of those beautiful, large bluish-black ones that we so often see about the garden, but he knew enough to get in out of the wet.

It was during one of the heavy showers that so frequently, in the hot days of midsummer, come suddenly upon us, driving every one to the nearest cover. To escape the downpour, which meant great injury, if not destruction, to so delicate a creature, he quickly flew to a nearby Balm of Gilead tree, where, alighting on the underside of a large leaf, he clung with wings closely drawn together and hanging straight downward, using the big leaf as an umbrella to shield him from the great drops falling all round. High and dry, here he remained until the shower had passed, and the blue sky and warm sun called him once again to his favorite haunts.—St. Nicholas.

Increased Cost of Living.

The Labor Gazette for January contains the first results of the special enquiry which is being carried on by the department in reference to the cost of living in the Dominion.

A statement is given as to wholesale prices of animals and meats from 1890 to 1909. It shows that during 1909 wholesale prices were approximately 45 per cent. higher than during the ten year period from 1890 to 1900, and that compared with 1906 they were fully 77 per cent. higher.

Fully nine of every ten cases of rheumatism is simply rheumatism of the muscles due to cold or damp, or chronic rheumatism, neither of which requires any internal treatment. All that is needed to afford relief is the free application of Chamberlain's Liniment. Give it a trial. You are certain to be pleased with the quick relief which it affords. Sold by A. V. Rand.

The employment of women as public officials has lately advanced a new step in New York, where the newly elected district attorney, or public prosecutor, has appointed a lady lawyer to be one of the members of his staff. This innovation is being generally approved on the ground that particularly valuable services could often be rendered by a woman in the investigation and prosecution of criminal cases in which women and children are concerned. In America, however, the strangeness of such an appointment is minimized by the fact that for years past most of the states have placed no obstacle in the way of the exercise of the legal profession by women.—Ex.

Are you frequently hoarse? Do you have that annoying tickling in your throat? Does your cough annoy you at night, and do you wake up in the morning? Do you want relief? If so, take Chamberlain's Cough Remedy and you will be pleased. Sold by A. V. Rand.

When Senator Vance was running for Congress, he called on an old negro who had in early life served the Vance family. Asked after his health, the negro replied, 'Mighty polly in this world,' but it's all right over yandered. 'Do you believe in the doctrine of election?' asked Vance, with great solemnity. 'It's the doctrine of the bible,' answered the old man. 'Uddle Ephraim, do you think I've been elected?' asked Vance again. 'Massa Zeb, I'd a tittle ruther you wouldn't draw that question, I'm too near the grab to tell a lie, but de fac am, I neder yet knowed nor hear tell of no man bein' elected what wasn't a candidate.'

Rural New Yorker reports the case of a Maine township where 60 automobiles were sold during the past season. This looks like prosperity until the rest of the story is told, which is that no less than 95 mortgages were put on farms and homes to pay for these cars. That, as Rural New Yorker truly says, is laying up trouble for the future.

What Would She Do.

A friend of the late Father Tabb said in Ellidcott City:

'This fine poet and good man thought that class hatred was due to ignorance—that the rich knew too little of the poor, and vice versa. He once illustrated this ignorance with the story of a Methodist bishop's wife who addressed a meeting of slum house-wives on their domestic duties. The address made the home life seem all very fine and ideal, but one house-wife voiced the opinion of the rest, perhaps, when she said to her neighbors with a sniff:

'She's all right as far as she goes; but what I'd like to ask her is this—what does she do when her old bishop comes home on pay night with his envelope empty and a fightin' jag on?'

Chamberlain's Stomach and Liver Tablets invariably bring relief to women suffering from chronic constipation, headache, biliousness, dizziness, salowness of the skin and dyspepsia. Sold by A. V. Rand.

An old negro named Ephraim, having been sworn on the jury in a murder trial, for some time related a verdict of guilty for no other apparent reason than his strong aversion to capital punishment in general. Finally the foreman explained to him that it was a question either of hanging the prisoner or hanging the jury, and that it all depended on him. 'Fo' gosh, 'n' am I a sinner,' replied Uncle Ephraim, 'on dem reasonsments de pris'n'er am also, guilty.'
