

MEAL TIME MISERIES

Ingestion Can be Cured by the Tonic Treatment of Dr. Williams' Pink Pills.

There is only one way to cure indigestion and that is to give your system so much good, red blood that the stomach will have strength enough to do its natural work in a healthy, vigorous way. Many dyspeptics dose the stomach with tablets, syrups and other things, alleged to assist in digesting food, but these things merely give temporary relief—they never cure indigestion—and the trouble grows worse and worse, until the poor dyspeptic is gradually starving. In a case of indigestion a half dozen boxes of Dr. Williams' Pink Pills are worth all the mixtures and so-called pre-digested foods in the country. These pills cure indigestion because they strengthen and tone the stomach, thus enabling it to do the work nature intends it should do.

Mr. Paul Charbonneau, St. Jerome, Que., says: "For months I suffered tortures from indigestion. After every meal the misery was intense, so that I finally ate most sparingly. I tried several so-called indigestion cures, but they did me no good. My general health began to run down. I suffered from headaches and dizziness and pains about the heart. Often after the lightest meal I would be afflicted with a smothering sensation. Finally my mother induced me to try Dr. Williams' Pink Pills. Under the use of this medicine the trouble began to disappear, and in less than a couple of months I had completely recovered my health and can now enjoy a hearty meal as well as any one."

IF OIL WERE THE FUEL.

Twenty-Seven Men Could Stoke the Lusitania.

A striking testimony to the value of all fuel is given by Mr. J. J. Kernode, M. I. Mech. E., London, England, who recently conducted some experiments on behalf of the Admiralty.

He states that if the Lusitania were fitted for burning oil fuel she would require only twenty-seven men in the stokeholds, as compared with the 312 necessary with coal. She would be able to carry 4,000 tons more cargo and at least 250 additional passengers, while the time for the transatlantic voyage would be reduced by eight hours.

With the advent of petroleum as a fuel for warships there has come into existence a type of ship specially built for carrying the oil not only from the place of its origin to the naval depots but also for accompanying fleets to sea. As the coal-carrying ships are called colliers, so the new vessels will be called oilers.

The Admiralty already possesses two of these vessels, the *Kharke* and *Pelreum*, and another is fitting out for the purpose in Sheerness dockyard. Under the name of *Thistle*, she was purchased from a private company, and she has been rechristened *Isla*.

A great deal of work has been necessary, both in the way of fitting up the interior with tanks and also in repairing the boilers, which were found to be defective. When completed she will be attached to the submarine flotilla.

BABY'S OWN TABLETS. A SMILE IN EVERY DOSE.

The mother who, in her gratitude for what Baby's Own Tablets have done for her child, said that "There's a smile in every dose," coined a very happy and very true phrase. The tablets cure all the minor ailments of babies and young children, and make bright, smiling, happy little ones. Mrs. John Young, Auburn, Ont., says: "I have used Baby's Own Tablets for more than a year and I think they are the best medicine that can be given a baby. They are splendid at teething time, and for stomach and bowel troubles. You don't need a doctor if you keep Baby's Own Tablets in the house." That's about the highest praise a mother can give and it's true, every word of it. You can get the Tablets from any medicine dealer or by mail at 15 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GREAT BIRD STUNT.

Vultures Came Down Head First With a Roar Like a War Rocket.

The rush of scavenger birds when big game is killed is vividly described by R. C. F. Maughan in a book on Portuguese East Africa.

"Having shot an elephant," he says, "I sat by while the great slabs of skin were removed from the gigantic sides and the carcases, hastily summoned from the camp and reinforced by people from a neighboring village, proceeded to cut up the vast mountain of flesh."

"Almost immediately a shadow flitted across the carcass, and looking upward one became aware that the deep blue above was rapidly filling with countless black wheeling specks."

"The buzzards, kites and scapulated crows boldly alighted on the grass and on a few neighboring bushes and awaited calmly the moment when we should take our leave, while overhead at a great height the shyer varieties, including the marauding, long-necked vultures, and screaming fishing eagles continued to hover."

"At length all the meat was carefully apportioned, the tusks chopped off and we started for camp, but before we had marched twenty yards every one of those waiting birds was settled upon the remains, while with a rush like the roar of a war rocket the greater vultures fell, with wings tightly folded, from a height of 300 or 400 yards to take part in the feast."

"The startling noise made by these heavy birds falling head foremost through the air, to check their plunge with outspread wings so close to the ground as to make destruction appear inevitable, was most singular and impressive."

AT CROSS PURPOSES.

"Poor Mrs. Mixen has good intentions, but she certainly does make some bad breaks when she undertakes to give good advice."

"What has she been saying now?"

"She told one young fellow in her class who is as cross-eyed as he can be, to look straight ahead in life, and another, who has lost both his legs, to be careful and always put his best foot forward."

RINGWORM.

Stubborn Case Healed by Zam-Buk.

The most troublesome and obstinate of all scalp trouble is Ringworm. Mrs. H. Girdlestone of 106 Davidson St., Brantford, Ont., says: "My daughter had ringworm very bad, so bad that I was compelled to have her hair cut off. I obtained a preparation from the drug-gist to paint the sores, but instead of curing, the Ringworm developed into nasty sores matting and smelling badly. I saw Zam-Buk advertised in the newspaper and immediately sent for a box. After several applications it cured me in a week. Improvement, and daily the disease was soon checked. The nasty sores were thoroughly cleaned and healed and all trace of Ringworm banished from the child's scalp in a few weeks after commencing with Zam-Buk. I cannot recommend Zam-Buk too highly."

Zam-Buk cures cuts, burns, chapped hands, cold sores, itch, ulcers, eczema, running sores, catarrh, piles, bad legs, rheumatism, neuralgia, scalds, abscesses and all diseases of the skin. Of all drug stores and stores, 50c. or post paid upon receipt of price, from Zam-Buk Co., Toronto. 6 boxes \$2.50.

The average man would rather pay half a dozen grudges than one debt.

Great Medicine—Toni, one of the pioneers of French Canada, lost a hand and wore an iron hook as a substitute. He was in the habit of boxing the ears of refractory Indians with this iron hand, and they have remarked that it was "great medicine." Dr. Thomas' Electric Oil is great medicine; it takes hold of pain with an iron hand and knocks it out of the system.

Mild in Their Action.—Painful Vegetable Pills are very mild in their action. They do not cause griping in the stomach or cause disturbances there as so many pills do. Therefore, the most delicate can take them without fear of unpleasant results. They can, too, be administered to children without imposing the penalties which follow the use of pills not so carefully prepared.

VIRGIN OIL OF PINE

This preparation possesses all the medicinal properties of pine, being a compound of the active principles of forest trees. Every precaution is taken, in its composition, to insure purity and freshness. Its action on the kidneys is highly beneficial, and usually relieves a case of ordinary lame back in a day or two.

Be sure to get the genuine Virgin Oil of Pine compound pure, prepared only by Leach Chemical Co., Cincinnati, O., and put up for dispensing through druggists only in 1/2 oz. vials, each vial sealed in a round wooden case. Properties, uses and directions with every vial.

A bottle of Bickel's Anti-Consumptive Syrup, taken according to directions, will subdue a cough in a short time. This assertion can be verified by hundreds who have tried it and are pleased to bear testimony to its merits, so that all may know what a splendid medicine it is. It costs you only 25 cents to join the ranks of the many who have been benefited by its use.

They are a Powerful Nerve-Dyspepsia causes derangement of the nervous system, and nervous debility once engendered is difficult to deal with. There are many testimonials as to the efficacy of Parmentier's Vegetable Pills in treating this disorder, showing that they never fail to produce good results. By giving proper tone to the digestive organs, they restore equilibrium to the nerve centres.

Mrs. Buxom—"That hateful Mrs. Knox causes a very mean comment upon my age to-day." Mr. Buxom—"Did she say you were getting old?" Mrs. Buxom—"No, indeed! She said I still looked quite young."

HOW CAPTAIN COOK DIED.

Ancient Manuscript Recently Presented to British Museum.

Two hundred years ago a seaman, John Law, who accompanied Captain Cook on his ill-fated voyage to the Sandwich Islands, kept a diary of the incidents of the expedition.

Little did he think that his quaintly written notes would one day have a place in the British Museum. Recently, however, Mr. C. G. Lawrence Law—one of his descendants—presented the diary to the museum, and it has now been carefully bound and placed in the manuscript room. Much of it is almost illegible, but it contains a spirited and graphic account of the death of Captain Cook.

The origin of the trouble was the theft of a pair of tongs and a chisel. The thief went off in a canoe, which was pursued and fired at.

Captain Cook then determined to secure the King as a hostage. The aged Monarch at first refused to go on board the Resolution—Captain Cook's vessel—but his people persuaded him to return to his house.

One of the natives grew insolent, and Captain Cook shot him dead. Upon this "the enraged Indians" prepared to avenge the death of their comrade. Against the counsel of those with him, Captain Cook went on to the beach, when a native, supping behind him, knocked him down with a club. He immediately rose and went alone into the crowd. When he rushed back he was stabbed and thrown into the water. There he was dragged to the beach again and beaten and stabbed to death.

The diarist tells gruesome stories of the vengeance that was exacted by the survivors of the expedition, and makes it clear that Captain Cook's death was in a large measure due to his own rashness and lack of tact.

JUST WHAT THEY WANTED.

"Well, brothers," said the sombre-visaged man, rising in their midst, "this is my first attendance, but I am a Socialist almost by nature, and I think I can understand, from the previous speakers, what you want. In the first place, you want a realm where everyone has to be good by law."

"We do we do!" cried half-a-dozen long-haired young men in turn-down collars.

The speaker continued: "Where food and clothing give no trouble, and money does not exist."

"That's all! That's what we want." "Where everyone goes to worship on Sunday, and regular hours are kept, week in, week out."

"Yes, that's it!" "Well, I myself have just come from such a place."

"Where? What's it called?" "It's a place called prison," he said, and resumed his seat.

SURPRISED THEM.

Of all places, the most difficult in which to preserve one's gravity, when an absurd incident happens, is church. The worshippers in a certain chapel had some trouble to keep their faces straight a short time ago.

During the service some commotion was caused by a gentleman who accidentally ignited a box of wax matches in his pocket, and was trying to put them out, while his alarmed neighbors struggled equally hard to help him.

The minister, being short-sighted, could not make out the reason of the disturbance, and thinking to diplomatically cover the incident he innocently said:

"Brethren, there is a little noise going on. Until it is over, let us sing, 'Sometimes a Light Surprises.'"

Some of the congregation were unable to sing.

PE-RU NA CHEERFULLY RECOMMENDED FOR COLDS AND CATARRH

A Prominent Canadian Gives His Experience With the World-Famous Remedy for Catarrh.

THE first effect of a cold is a thickening of the mucous membranes of the nose and throat. This gives rise to a discharge, or at least a stuffiness of the nasal passages. Sometimes fever accompanies the first attack, also a feeling of languor, dullness and aching of the bones.

If no attention is paid to it, the mucous congestion is liable to spread down into the larynx, producing hoarseness and into the bronchial tubes, producing a cough.

Even when this occurs, many people pay no attention to it. Under such circumstances, the congestion is liable to become chronic, producing a condition of the mucous membranes known as catarrh. Catarrh lasts an indefinite time. Catarrh is essentially a chronic condition and does not leave except something is done to relieve it.

What should be done when a person catches cold is to take a few doses of Peruna.

Taken at the onset, Peruna would break up the cold and prevent all the train of symptoms which usually follow.

But, even in cases where the cold has been neglected and hoarseness or a cough has developed, Peruna can be relied upon to give prompt and permanent relief.

The frequency of coughs and colds in the winter makes Peruna a popular remedy for these ailments.

A number of the best people of various countries have given testimonials as to the value of Peruna in such cases.

Followed Dr. Hartman's Advice—Restored to Health.

Mrs. Samuelle Vigneau, Avre au Berd, Isle de la Madeleine, Canada, writes: "I write to tell you that I am perfectly well. I took only three bottles of your Peruna according to your advice and the directions in your book and it restored me to health."

Mr. Matthew O'Hara, 145 William St., Fall River, Mass., writes: "About four years ago I consulted a physician to get relief from a cold which stopped up my head and settled on my lungs. He gave me medicine, but four weeks' use of it did me no good."

"I decided to try Peruna and after taking two bottles my lungs began to heal. In six months the cough, catarrh and throat difficulties were all cured."

A FAR-FETCHED ARGUMENT.

"The earth," remarked the professor, "pursues its mighty pathway through space without interruption and on what you might call schedule time."

"Which," remarked Mr. Dustin Stax, with confident emphasis, "goes to show that a good thing is a perpetual franchise."

There isn't much hope for the man who is unable to convince himself that he isn't just a little better than his neighbor.

We Will Send You a Genuine Oriental Rug for Two Dollars

Every home in Canada should have one or more genuine Oriental Rugs. They are beautiful in the softness and harmony of their fadeless colors, and in point of economy are cheaper than any of the low-priced domestic products. These Oriental Rugs are imported by us direct from the great rug-producing centers of Turkey, Asia Minor and Persia. The ties used to prevail that Oriental Rugs were costly, and that ordinary people could not afford them. That is only one of the large errors of the past. While we are the largest importers of large rugs and oriental goods in this country, we do an enormous business in the small sized rugs, which we can sell at heretofore unheard-of prices. Especially in the Anatolian many rare bits of antique coloring are found, though on account of their size we can sell them for as little as 25c. each.

Here Is Our Special Cash Offer

We make a special bargain of two of our popular small-sized rugs. They are suitable for door mats, bath rooms, to lay in front of fireplaces, or placed in bedrooms for foot rugs. One kind is 2 to 3 feet long and 1 to 1 1/2 feet wide called Anatolian rugs made by the natives of Anatolia, in Asia Minor; very pretty on account of the soft tones and harmony of the colors; many of them are antiques. We will send them, charges prepaid, on receipt of the special price, each—\$2

Another kind, the Hamadan rug, is 3 to 4 feet long and 2 1/2 to 3 feet wide made in Persia, while larger than the Anatolian, they are useful in the same way and for the same purposes. They are in attractive patterns and colors; heavily tufted. Send on receipt of price, each—\$5

We have the largest stock of Genuine Oriental Rugs, Art Goods and Brassware in Canada. Whenever you want quotations on anything in our line we will be glad to answer your inquiry. We send rugs of any size and value on approval to responsible parties order from a distance.
