Because, 1st—People like it better than Whisky when they once try it. It is more agreeable. It is vastly more wholesome. It cannot be anything but pure WATER, pure HOPS and pure MALT, put together by a good BREWER as BACKSTROM claims that he himself really is. It is impossible to POISON it. o DOCTOR IT. You can do nothing watever to Lindberg & Backstrom's BAVARIAN BEER,

After it leaves them, except to keep it to waste it, or to drink it! J. Lindberg & Backstrom's BAVARIAN BEER CANNOT BE DRUGGED And 2nd—Independent of the many bad effects of Spirituous Liquors Lindberg & Backstrom's Pure, Wholesome Bavarian BEER, Can be sold much cheaper in consequence of the late tax on the former. This climate, by its Providential arrangement the very climate for BAVARIAN BEER.

The climate is natural and uncommonly DRY. It is so dry, in comparison with that of Europe, that it makes a serious difference in various trades and occupations. For instance, in most parts of Europe the climate is so moist that housewives cannot dry their washed clothes except in fine weather, and often in the open fields. It takes them nearly a week to dry their clothes. Here, the clothes washed and hung out in the morning, are dry before night. So, a plastered house in Europe is not fit to live in for six months, because even with the help of fires, it takes so long to dry. Here one room is dry while they are plastering the next one. This perpetual drinking up of every fluid by the air about us acts on the blood of the people and would dry them up in a little while if they did not prevent it in some way. In the early days they tried West India rum and brandied wines and distilled liquors. But some years ago they found that that remedy was worse than the disease. It was the universal drunkenness upon rum which called for the TEMPERANCE and lastly for the PROHIBITION movement. The last is the remedy of impatient ignorance, if it includes this wholesome and nutritious drink A better, a surer or more complete remedy, founded on science and sense, is BAVARIAN BEER.

It arrests at once the dryness of the climate and of the fluids. It gives tone to the nerves and digestion to the stomach, and strength to the muscles! Some foolish people say that BAVARIAN BEER CONTAINS NO NOURISHMENT, And thing that they make a great argument by saying it. Backstrom never said that BAVARIAN BEER Does not contain nourishment. He knows better. He drinks it himself, and sells it for others to drink, NOT TO EAT! It is not only Nourishing, but it is a Mild, Digestible and a medium of nutriment as well. Even a prohibitionist might know that Man could not live without nutritious drink. For this and other reasons the Medical Faculty recommend and use BAVARIAN BEER. Doctors advise Dyspeptic people to drink BAVARIAN BEER. N. B.—It will keep in bottles well corked, and in a cool place. FOR A YEAR! At the end of that time it is a fact that can be proved at the BREWERY, that Lindberg & Backstrom's BAVARIAN BEER Is better than the best Bass, Alcop's or Scotch Ale, which cost so much more money. Convalescent patients take BAVARIAN BEER From the hands of the Doctor. Mothers of Families, by the repeated directions of the Family Physician, make daily use of meals of BOTTLED BAVARIAN BEER, Sold by Dealers for family use. Lawyers, Judges, Clerks, Mechanics, Preachers, Lecturers, Editors, Printers, Writers of works, Literary men of every class in this literary and intellectual community, all use BAVARIAN BEER. Even the Legislators like it, and would undoubtedly have made it a beverage in their Refreshment Chamber in the House of Assembly, had not the late Anti-Confederate Government come to an untimely end. BAVARIAN BEER Will be made as usual for sale, and any Temperance Organization Or anyone else may have a stock of Lindberg & Backstrom's Bavarian Beer

We are sure that nine out of ten to whom BAVARIAN BEER Is offered for sale know nothing about it, except from hearsay. Many of them think it is SMALL BEER, but BAVARIAN BEER Is not SMALL BEER, by any means, and this should be understood. We think it no more than right that the sincere but ignorant men who talk against BAVARIAN BEER Without knowing anything about it should be enlightened. And we think that those who promote Temperance could not do better to further the good work than to recommend the BAVARIAN BEER As they now do water—a clear and sparkling beverage. And we think the Newfoundlanders deserve a better fate than to be the victims of Dyspepsia, Liver Complaint, Kidney Diseases, Marasmus and Consumption for want of a pure, wholesome, innocent and cheap drink like Lindberg & Backstrom's BAVARIAN BEER Which now can be had "in any quantity from our Dealers, viz: Mr. Moore, Mrs. Leo, Messrs Connolly Walsh, Lumergan, Tobin, Maher, Loughlan, Chambers, Foran (Atlantic Hotel), O'Riordan, Duggan, Sparahat, Shea, McCarthy, Leary, Whelan, Cox, Dandy, Farrell, Emslay, Baird, Wooses, Leamey, McCourt, Rankin, O'Donnell, Lash, Olson Power, McKay (Arcade Saloon), Cullen, Mrs. Farrell, Messrs Trelligan, P. The Proprietors only regret they did not introduce BAVARIAN BEER some years ago, as it would have saved the Colony the expense of adding a wing to the Lunatic Asylum, and the increased expense in the Pauper relief fund of which the Royal Commission so grievously complain.

THE NEXT IS EVERYBODY'S QUESTION, "What must we Drink?" We advocate Temperance to the reasonable extent it is advocated by the foremost temperance men in Europe, and without running the pleasurable temperance movement in the ground by exaggerated requirements. This is also the case with many fanatics in this country, who make no distinction between fermented and distilled beverages. They condemn wine, a beverage made of grape juice, in which Christ himself indulged not alone, but even commanded its use at the Communion Table; they condemn also the use of FERMENTED BEVERAGES, while statistics prove it to be a blessing to those nations for which it has become a national beverage, by their perfection in the art of preparing it. Any one who has ever visited Belgium or Bavaria, and witnessed the result of the national beverage, the BAVARIAN BEER and the LAGER, on these two peoples, must be converted from any prejudice against THOSE BEVERAGES, if ever he had any. It is not necessary to go to Europe to be convinced; we may visit the BEER-drinking German quarters in this country, notice the general health and in unobtrusive habits of that people, and compare it with those nationalities not blessed with the habit of being satisfied with BEER, but needing the unnatural stimulus of distilled spirits, whisky brandy, or even alcohol. It is indeed a common observation among physicians or medical students in our large charity hospitals that a Post-mortem reveals at once whether the drinking German, by the better health of the interior organs and the presence of a liberal supply of adipose (fatty) tissue, or whether he was a whisky drinker, as proved by the diseased condition of kidneys and liver, a general emaciation and a tendency to atrophy of the muscular system. All persons are opposed to the BAVARIAN BEER through prejudice; they will indulge in Ale and Porter at their dinner, but decry the use of BEER. Now, the fact is that the

BAVARIAN and LAGER BEER Contains less alcohol than either Ale or Porter, and that experience proves that an excess in its use carries less injurious consequences with it than excess in the use of any other kind of this class of beverages. It has even been proved that some constitutions can consume Four Free, or Six gallons in a single day—a feat perhaps impossible with any other beverage water perhaps excepted, and tending to prove that next to water BAVARIAN BEER Is the most harmless drink. Such a quantity of milk would surely produce severe indigestion, while the drinking of so much Ale, Porter, or wine would be out of the question. We cannot of course find fault with those who simply dislike BEER from a natural aversion of the bitter principle of the hops, with which it is more abundantly provided than other BEERS. This may be the reason that many people prefer Ale; but we ought to suggest that in order to have the full benefit of the moderately stimulating and nutritious qualities of any kind of BEER, it must not be drunk at improper hours, as then really good BEER may be quite unpalatable. The best time is at dinner during the use of Beef, Mutton, Pork, etc., to which it is a very desirable addition. It is a common observation that the desires in regard to food and drink are, in many individuals, undergoing a change in the course of years. This is simply caused by the modified wants of the system. A young, vigorous person does not need the stimulus of BEER or WINE at the table, which appears to become a necessity for others when they become older. The wisest plan is to follow simply the natural desires as they best indicate the wants of the system, provided these desires are not perverted by the unnatural habits of smoking or chewing tobacco, using an excess of condiments, especially pepper or the habit of distilled drinks, which nobody should use, except largely diluted, as is the case with wine, the strongest qualities of which contain alcohol in as high a proportion as it ever should be introduced in a human stomach. The inconsistency of temperance people in general is, among other things, shown in the fact that they allow the use of fermented Cider, which contains about as much alcohol as Rhine wine. The latter is often dispensed in New York under the name of German Cider, many of whom we have heard certify that the German Cider is much better than the American article. A curious observation has also been made by dealers in Soda Water; they find that the ginger Syrup, which is the most pungent and stimulating of all, and also contains some alcohol, of which the other syrups are free, is generally preferred by temperance people who invariably ask for the hot ginger Syrup, while the wine and Beer drinkers take the refreshing syrup of lemon, or some other fruit. As it thus appears that most people need some stimulus, it may be well to acknowledge this fact, and to allow them to indulge in one which is not only harmless but beneficial, instead of requiring a total abstinence and, in which many are unable to persist, who breaking their pledges, lose their self-respect in so far as to indulge in the most pernicious of all habits—the use of the intoxicating distilled liquors. It is for reason of the above consideration that we have recommended to all who have a chance to obtain this good Beverage in their neighborhood, to do so instead of keeping a "Brandy bottle in the house"—New York Paper.
