THAT "PRIZE FIGHT"
To the Editor of the Advocate,
Dear Sir,
I would like to ask was there anything either Christian, respectable, or elevating or even representative of true civilization in the fight between Dempsey and Firpo? If so, I hope some man or woman, possessed of human feeling and common sense will discover it.
The Telegraph-Journal is still furnishing its readers, with the sickening details, and even eulogizing the champion "savage" in the fray. Last Friday's paper, holds him up to admiration as, "the greatest fighter in the world." If all that paper said, in a previous issue is true; about the crowds in St. John, who thronged the streets and hung around its office to get the news, while the fight was going on, it only shows that some St. John people, are still wanting in the true characteristics of great manhood. The Telegraph says there are two sides to this question, and it deliberately chose to pander to the warped minds, who go crazy over such things, and even went so far as to send a representative or reporter to get all the details of the pounding and punching, of the "wild savagery" as it was exhibited. As one of the readers of that journal like many more, I had to put up with the insult.
It is a poor commentary on our twentieth century culture that about 85,000 people took the trouble of patronizing the "brutal" affair. "Brutal" and "savage" are only two of the words used to describe the scene, many others equally strong and condemnatory, from some of its very patrons and reporters, were furnished in the press. "Out of their own mouths, we condemn them" and in the face of that it cannot be very wrong for anyone claiming respectability to voice against such a travesty of true manliness.
It looks nice! About half a million dollars for the winning "brute" and over a hundred thousands for the losing one; and no doubt as tidy a sum, as the winner got, for the promoter. There is an old saying, "the devil is good to his own," but it is hardly fair to the printers who furnished the details "merely as a matter of news," that they should not have a share of the boodle too. Yes! Yes.
YOURS,
TRUE MANHOOD

The Fall Weather Hard On Little Ones
Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on cold, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive.
The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.
LABELS WILL TELL WHEN YOUR SUBSCRIPTION IS DUE
A large number of subscriptions to the Advocate are now due. That we may be saved the trouble and expense of mailing a notice of arrears, we wish to direct your attention to the label on your paper this week. It shows the month and year to which your subscription is paid. If you are one of those in arrears, you will confer a favor by attending to the matter within the coming few days.

President of The Bank Of Montreal Is Optimistic

London, Sept. 18.—Sir Vincent Meredith, President of the Bank of Montreal, has just arrived in London from France. He said he was making his annual visit to the Paris and London offices of the Bank of Montreal, and learning at first hand the conditions on this side of the Atlantic "in connection with the situation in Great Britain and on the continent."
Replying to questions Sir Vincent said: "One is liable to be drawn in to politics: I must be careful to eschew politics. I must say that I was rather surprised at the advance made by France after her experience in the war. I was pleased with the conditions there. The crops are good and what is more important the people are working hard and saving."
Sir Vincent Meredith described the conditions in Canada as satisfactory. "Trade in some lines," he said, "is spotty, but as a general rule the manufacturers are doing well. As there is a splendid crop throughout the Dominion, business should be more active this autumn. The prices for grain are regulated by the Liverpool market and they may not bring large profits to the producers but the Dominion as a whole should benefit by the size of the crop."
"Canada, like other countries is suffering from the unsettled state of Europe which is depriving her of markets. But after other great wars there have been similar conditions, we could hardly expect to escape them after the greatest of all wars. Canada's debt is a burdensome one. We shall find relief as the vast areas of fertile land now unproductive, are gradually filled. I am glad to see that increased facilities are to be given by the government for the admission of immigrants. In this connection the colonization association, backed by powerful interests, is actively and successfully promoting immigration."
"Our exports consist chiefly of foodstuffs. Until the world is able to take them in greater quantities, we must suffer as other parts of the Empire are suffering, also largely because of the depreciation of exchanges and the consequent lack of purchasing power."
"I am not pessimistic with regard to the situation in Europe, we must be patient."

PARLIAMENT HOUSE TO BE FINISHED
Following a conference between Hon. Dr. King, Minister of Public Works and John Pearson, architect for the parliament buildings, it has been arranged that work on the tower, which has been in a half finished condition for over a year, will be started early next spring and, it is expected, completed in the autumn of 1924. About 150 feet remain to be added to the tower, which will rear into the sky for some 300 feet when completed.
With completion of the tower and some interior stone carving and other interior work, the whole building will be finished. The building will have been under construction for a period covering eight years.
