

THE HERALD

WEDNESDAY, NOVEMBER 6, 1890.

ALL matter for publication in the HERALD should be in the office by noon on Tuesday.

OUR NEIGHBORS AND RECIPROcity

The Western Farmers' Alliance of the United States, at a recent meeting adopted a resolution calling upon Congress to make such reciprocity treaties with those foreign nations to whom we ship our surplus farm products as will cause such foreign nations to remove the customs duties from our farm products shipped abroad, thereby causing us to receive a higher price for our foreign farm surplus, and thereby fixing a higher price upon all that we sell at home.

Of late the papers have contained an account of the decline of the woolen trade in New England, as well as the extraordinarily burdensome mortgage borne by the farmer in the Western States.

In the face of all this it would be interesting to ask what has become of the splendid market of sixty millions, which our Grit friends have so often told us.

SOMETHING ABOUT AUSTRALIA

Perhaps the most important thing just now happening in Anglo-Saxon countries, says a London despatch, is the movement toward New South Wales, for the formation of a Federal Union of the Australian colonies.

The movement in favor of Australasia, referred to above, has been in existence for some years, and the committee of Sir Henry Parkes and his ministry to the scheme is, no doubt, an augury of its early success.

It appears from the statement before us that the total increase in the population of the colonies during the year 1888 was 136,000, Victoria standing at the top of the list with a population of 1,090,000.

As reported by the census taker, the good deal of the increase in the population of the colonies is due to the fact that when the completion was made in the last year, the population was in a falling line.

CHIEF JUSTICE PALMER.

As our old school on Sunday last, the Hon. Edward Palmer, Chief Justice of the Province of Prince Edward Island, died at his residence, Upper Queen Street, in this city, after a severe illness of some months' duration.

He entered political life in 1838 and represented Charlottetown and Royalton in the House of Assembly continuing from that year till 1850, when he was appointed a member of the Legislative Council.

EDITORIAL NOTES.

The will of the late Senator J. G. Ross, of Quebec has at last been found. It bequeaths the whole estate, valued at from seven to ten millions, to his brother, Frank Ross.

Governor Smith, of Lower Canada, had a lengthy interview with Sir John Macdonald a few days ago in reference to reciprocal trade.

Forty-four elections for the Dominion House of Commons have taken place since 1867. Of these the Liberal Conservatives have carried thirty-four.

In Victoria, British Columbia, on the 26th of October, Thomas Earl, Conservative, was elected by acclamation to the seat in the House of Commons vacated by the resignation of Mr. Baker.

The Philadelphia Record points out that while over \$2,000,000 were subscribed for the relief of the sufferers by the flood at Johnston, on the 31st of May last, the greater portion of that amount was in the possession of the State Relief Commission, presided over by Gov. Beaver.

When the Canadian parliament proposed to enfranchise Indians by means of the necessary qualifications, we can all remember what a howl our Grit friends raised over it.

T. G. SHAUGHNESSY, assistant privy councillor of the Canadian Cabinet, arrived in Montreal from England a few days ago. He has contracted for three steel steamers for the Pacific service, the first to be ready in four months.

Let no one imagine that the vituperation of men who happen honestly to differ from their party is confined to any one section of the Opposition press. Independence of view is a crime in the eyes of the clergy and the laity.

An action of libel brought by Mrs. John W. Mackey against the Manchester, England, Examiner, came up for trial in the City of London on the 21st ult.

It does not appear as if the salting or pickling of meat has much effect in destroying the disease germs that are contained in it.

THE MISSION.

The Mission given in the Cathedral, by the Bishop, to the Rev. Father Struble, on the 26th ult., was a most interesting one. The Bishop, in his address, referred to the fact that the Cathedral had been consecrated on the 26th of July, 1867.

The Bishop, in his address, referred to the fact that the Cathedral had been consecrated on the 26th of July, 1867. He also mentioned the fact that the Cathedral had been damaged by fire on the 15th of August, 1878.

The Bishop, in his address, referred to the fact that the Cathedral had been damaged by fire on the 15th of August, 1878. He also mentioned the fact that the Cathedral had been repaired and reopened on the 15th of September, 1878.

The Bishop, in his address, referred to the fact that the Cathedral had been repaired and reopened on the 15th of September, 1878. He also mentioned the fact that the Cathedral had been consecrated on the 26th of July, 1867.

CATASTROPHE IN GLASGOW.

The public wall of a building being erected at Glasgow, Scotland, on the 26th ult., was blown down on the 26th, and the immense mass of debris on the roof of the structure fell into the street, crushing it and burying 50 girls and women employed in the building.

The girls were all taken to the hospital, and the bodies of those who were killed were buried on the 27th. The building was a school for the poor.

The girls were all taken to the hospital, and the bodies of those who were killed were buried on the 27th. The building was a school for the poor.
