LADIES' BACK COMBS Job Line. Friday 14cts each

Meeting Last Night.

Manufacturers' Association Will Hold Exhibition in the Fall.

Last night the Manufacturers' Association held a meeting at the Board of Trade Rooms and discussed the question of holding an exhibition of local industries the coming autumn. Mr. J. H. Monroe having made a brief address, Mr. Fearn, the Secretary of the Board of Trade, spoke at considerable length and showed the advantage of holding an exhibition. He advocated strongly an exhibition of specimens of the output of all our local factories. Mr. John Browning also spoke on the subject. He believed that the efforts of the Association should be concentrated on a local exhibition of our products in our own country. He did not think that much good would be done by sending specimens of our factories to London. The advertising should be done chiefly in our own country in order to remove a prejudice that many people had against the products of local factories. The owners of factories should all combine and show our own people what they are able to do and that they can make in most instances better goods than can be imported. Goods that have pure ingredients. Mr. W. A. Munn spoke too and favored a local exhibition. It would encourage home industry and give the people a chance to see the local made products. He did not agree with the idea of letting foreign manufacturers come in to exhibit their goods at the proposed exhibition. The Guy celebration would be held at Harbor Grace in August and he suggested that the local manufacturers take part by sending specimens of their goods there. Mr. Archibald of the Boot and Shoe Factory of Harbor Grace was in favor of the exhibition and believed that it was needed to build up the country. He spoke of the scheme they had gotten up at Harbor Grace for an exhibition the coming summer. Mr. J. W. N. Johnstone, General Passenger Agent for the Reid Nfld. Co., warmly advocated the proposal of having an industrial fair in the city next fall. He had considerable experience in such matters in Canada and could say without hesitation that they always brought good results. He suggested that a competent man be appointed to apportion the space for the fair at the Prince's Rink and to make out a plan for the same. He guaranteed that the company that he represented would do all in their power to forward the movement. Following the principles adopted by the I. C. R. in Canada, the Reid Nfld. Co. would give the public reduced passenger rates on all the steamers while the fair was being held. Mr. White of the Nfld. Clothing Factory made an excellent speech in which he favored the holding of an exhibition. He believed that it would help business in every direction. An opportunity would be afforded of exhibiting the best products in every line, but none, he hoped, better than we are prepared to sell. Foreign establishments spend large sums of money on such exhibitions with good financial results. Why should we not be able to do the same? Mr. C. Duder, manager of the Standard Manufacturing Co., also spoke on the question and gave his hearty support. The following resolution put by Mr. Duder and seconded by Hon. John Harris was carried unanimously:—

"That this meeting is strongly of the opinion that an Industrial Fair, would be of immense benefit to the Colony."

Mr. E. McLean, manager of McLean's tannery, endorsed Mr. Johnstone's views about holding the exhibition in the Prince's Rink while the agricultural fair was going on in the Curling Rink. A committee consisting of the following was then chosen to interview the Government: Messrs. J. Browning, C. Duder, J. H. Monroe and W. Barker.

THE KOHLER AND TONK Pianos are famous and their agencies are world-wide. Hundreds of users in Newfoundland can confirm their splendid points and should be better than one solitary opinion. Call and see them at the White Piano and Organ Store, CHESLEY WOODS.

A. D. Rankin & Co.

The well known and long established firm of A. D. Rankin has taken on a new lease of life under the style and title of "A. D. Rankin & Co." J. J. Mulcahey, manager, and will follow the lines of development going on in that modern and up to date grocery and wine store. Mr. Mulcahey having been for so many years at J. C. Baird's grocery wine store, is peculiarly well qualified by his experience to build up to even higher proportions the erstwhile remunerative trade carried on for so many years by Mr. Rankin. The store is being fitted up with a complete new stock in every line, and Mr. Mulcahey will keep none but the very best brands of groceries, provisions and liquors.

CARGO OF SALT.—The s.s. Othello will leave Cadiz Saturday with a cargo of salt for Bowring Bros.

Cause of King's Death.

Special to Evening Telegram.

LONDON, May 11.
That King Edward's death was partly due to worry over the political situation is officially declared in a statement regarding his illness which his physicians, Sir Francis Laking, Sir James Reid, and Sir Richard Douglas Powell are publishing over their signatures in the Lancet to-morrow. The statements say His Majesty has for some years suffered from Emphysema with attendant Bronchial Catarrh, signs of which were permanently present at the base of the lung. On several occasions digestive disturbances had caused his medical attendants to realize that His Majesty no longer had the reserve constitutional power which had stood him in such splendid stead after his serious operation in 1902. It must here be said that those around him speak of how earnestly concerned he was at the present strained position of political affairs, and this fact should not be lost sight of in considering his health. On May 6th, they add, the attacks became more frequent and distressing. With the King's permission the doctors issued the first bulletin on Thursday night, but not until it was seen by His Majesty, who somewhat modified it. From Friday morning his condition rapidly became worse. There were several dangerous attacks and His Majesty only rallied by the use of powerful remedies. At 3 o'clock in the afternoon consciousness failed. The end came at 11.45 o'clock after a prolonged period of perfect calm.

Parliamentary Tribute to the Peacemaker.

Special to Evening Telegram.

LONDON, May 11.
Parliament paid a tribute to the memory of King Edward to-day, adopting addresses of condolence and congratulations to the new King. Premier Asquith, in the House of Commons, and the Earl of Crewe, in the House of Lords, delivered eulogies on Edward the Seventh and both showed great emotion. The day was chiefly devoted to recording the Nation's official condolence to the Royal Family. King George and the Queen mother received at Marlborough House and Buckingham Palace deputations from the Lords and Commons bearing the resolutions. The announcement that ex-President Roosevelt will attend the funeral as the special representative of the United States has been received with great satisfaction by the British Public.

MARTIAL LAW PROCLAIMED.

Special to Evening Telegram.

SAN JOSE, May 11.
Congress has practically declared martial law in the Province of Cartage in order to prevent robbery and disturbances. Few people now remain in the city of Cartage. Several of the dead who were thought to be Americans proved to be Syrians. All injured are now receiving proper care.

World is a Paper Bag.

If we study closely the development of this world's history, we find that we are living in a world of paper. If we had no paper, we could not develop our taste for culture; if we had no paper we would have no books, no History, no Geography, no Biography, no laws, no constitution, no Daily Press, no business, in fact no civilization whatsoever. It is "Paper," however, that enables us to sell Clothing, Dry Goods and Furniture for Cash or Credit. B. FRIEDMAN, 301 Water Street, Water Side. P. O. Box, 5; phone, 546.

A Pleasing Function.

The employees of Harvey's Tub Factory, headed by Messrs. J. Power and Richard Groves, called at the residence of Mr. George Hynes last night and presented him with a valuable clock in honor of his recent wedding. Messrs. Power and Groves made suitable speeches to which Mr. Hynes responded in a happy manner. The recipient, who was taken by surprise, thanked them. He is very popular among his fellow workmen. After the presentation refreshments were served and a very pleasant hour spent. Mr. Thos. Hallett, manager of the factory, who was unavoidably absent, sent expressions of regret that he could not attend.
