## LADIES!

What about the replacement  
of lost hair?

When the hair has fallen out  
the follicle is not necessarily de-  
stroyed, and prompt, unremit-  
ting attention, such as described  
below, will tone the hair, mak-  
ing machinery—and stimulate the  
vessels and tissues to action.

Hair health depends upon a  
clean, sound scalp, the pores  
of which are open, the glands  
active and the blood circulation  
in correct condition. It stands  
in reason that if the scalp  
(which contains the hair-pro-  
ducing machinery) is in perfect  
order, the hair will be good.

## SPECTACLE and EYEGLASS

fitting is not perfect unless the frames or mountings are properly ad-  
justed, and that requires the expert hand. The beneficial effect of a  
correct glass may be upset by an ill fitting frame. It has been my  
special work for over twenty years to correct troubles emanating from  
eyestrain, and placing the proper lenses in the most suitable and be-  
coming frame or mountings. All my work is guaranteed.
