### ATROPHIED INTELLIGENCE.

The Advocate smelleth a rat. Astounding discovery, made by the nasal organ of that so brilliant newspaper. Yes, and the bold, bad Telegram is at the bottom of it all. Fancy the audacity, the brazenness of this paper to be setting out bait for predatory members of the Government. "But they won't bite" advises our contemporary with characteristic ingenuousness. The jig is up, the game given away, and the Telegram is exposed, found out in all its duplicity and scheming. The glad hand is a myth. So much for the abounding wisdom of our Duckworth Street Government friend, who sees a plot to defeat the Administration, serve by it, in every word and move of the Opposition. It ceaselessly walls and shrieks and protests, and calls upon high heaven to bear witness to the virtues of the Government, notwithstanding the exposures that are being literally "dragged" into the light daily in the House of Assembly, making tasty reading for the public which has to pay the piper. The Advocate wots nothing of that, and it worries no more about it than the Telegram is worrying over the attitude of the Government members. They, poor chaps, have worries of their own, and it would be the refinement of cruelty to add to them in any way.

Western members, particularly, have considerable worry, and it is the position they must ultimately take, the attitude they must adopt on the Fish Regulations, the political Cord of Thuggee that is strangling their constituents financially, that is the cause of the diurnal oburgations of the Coaker press. No one knows better than the gentlemen representing districts west of Placentia the chaotic state in which their districts have been plunged by the operation of the Fish Regulations. Messrs. Foote and Cheeseman and Warren and Small are perfectly cognizant of conditions in Burin, Fortune Bay, Burgeo & LaPoile, and know too that the gaunt spectre of destitution is stalking through the once prosperous and thriving fishing settlements of their constituencies. What will they say when they go back? What explanation can they give? Have they been hypnotised politically by the mesmerising powers of the real Leader of the Government, and dare not act upon their own mentality, until he releases them from the trance into which it is obvious he has placed them? Their districts are demanding that they quit themselves like men. Their people are crying to them for deliverance from the thralldom of a ruinous, a catastrophic legislative Act. And yet they are supine, are heedless, are deaf to the clamor which is taking a deeper and more menacing note, as day succeeds day and these men sit quiescent.

Let them read the reports

brought in by passengers on the coastal boats: the telegrams sent from every section of their district: the letters that are being mailed from hundreds, all on the same thing: all devoted to condemnation of the policy thrust down the throats of supposedly independent representatives, elected by the people to maintain their sacred and inalienable rights against the abuse of power by autocracy gone mad. These men must know, do know the untenable-ness of the position they have chosen to take in defiance of the expressed wishes and desires of the fishermen who placed them in the House of Assembly. The outraged and deluded fishermen do not care a snap of the finger about the Government, or whether their chosen representatives support it or not. They do, however, care about the taking away of their prospects and opportunities of maintaining themselves and their families, and know whom to blame. The question of a sentimental loyalty to a Government, which so quickly cast overboard its pretence of loyalty to the people, will not be accepted as an excuse for dooming hundreds of families to partial starvation on the dole handed out by Relieving Officers. Honorable members could not possibly demean themselves to any greater extent than by holding fast to associates who do not care two straws about the West, whose only interests are in the North. What about the resolutions sent from Burin District to Hon. S. K. Bell, M.L.C., Messrs. Foote and Cheeseman, M.H.A.'s, received yesterday by s.s. Portia's mail from West? Let the contents of these resolutions be published, so that all may read the tale they tell. The present is not the time for concealment, nor will the people stand longer for the political and commercial secrecy which too often draws a veil over many a public matter. Publish these resolutions, without abridgement or deliberate editing, and then the whole island will have the story, but not told in a few whispers behind closed doors.

"What We Have We Hold."

Such is the defiance of the North—that portion of it. Coaker-fidden—the remainder of Newfoundland, as announced by the Coaker organ yesterday.

We saw expression more banditlike than that. What have they held? Well what do they intend to hold? Is it the Salt in store at Port Union belonging to the Government, charged to the current account of the Colony? Is it the extra price that has been alleged they received for fish last fall at the expense of others?

Your true brigand could not select a more appropriate motto than this "What we have we hold" of the Union North. Practically defies the whole island, and invites all and sundry who do not agree with them to come on and have it out.

The invitation has been accepted. The other people, who are non-union intend to have a look in. The Fish Regulations are going by the board. Mr. Coaker promises so. The Food Control Board also will walk the plank. Mr. Coaker says so. The War Measures Act will be repealed. Mr. Coaker determines so. What will the North hold onto when these people are knocked away? Let the North watch and wait! This "what we have we hold" policy may not mean so much after the inevitable crash comes, for there may be nothing left to which to hold.

### Eyeglass Insurance.

Eyeglasses are a most fragile possession, yet the people of Newfoundland are wearing well over \$100,000 worth of lenses without protection against breakage. Why not insure yours to-day? You will feel glad instead of miserable when you break a lens. Try it. H. B. Thomson, Optician, 336 Duckworth Street, near Beck's Cove, City.

Don't forget the C. I. B. C. Annual "At Home" on Eve of St. George's Day in C. C. C. Hall. Come and enjoy yourselves without the thought of having to go to work in the morning. The Ladies' Auxiliary in charge of supper arrangements and the latest dance hits by Battalion Band.—april 20

### Grand Bank Protests.

The Resolutions, referred to in our leading article to-day, have been handed up for perusal, and if necessary, publication. Their contents are too significant to be withheld from general circulation, and considering the crisis confronting Newfoundland to be of far greater importance than a mere quibble over a technical breach of etiquette, we have no hesitation whatever in giving them space in our columns immediately.

#### RESOLUTIONS.

Whereas we the Grand Bank Board of Trade, comprising the citizens of Grand Bank, and open to all who comply with the rules of being admitted, have no other interest and object but to forward the welfare of Grand Bank, and therefore of our District and country and have no political leanings whatever; and

Whereas certain information has recently been published showing that the Government has voted an immense sum of money for the purchase of fish last year, and showing that the Government bought salt last year, and sold it on credit (not yet paid for) at a loss to the country; and

Whereas the Sugar monopoly by the Government has meant serious financial loss to the Government and the people; and

Whereas the Fish Regulations passed last year by the Government is, in our opinion a restraint of trade and has caused (and if not repealed will continue to cause) serious losses and hard times to the people generally on the West Coast, in which the District of Burin and the town of Grand Bank shares; and

Whereas it is common knowledge that the liquor monopoly of the Government (as evidenced from the importation by the Controller's Department of cases of whiskey and wines by the thousand) is a direct defiance of the people, who expressly demanded by their votes the Prohibition Act.

Be it Therefore Resolved, that in the interest of Grand Bank, Burin District, the West Coast, and the country generally, we protest against the Government using public funds for the buying of fish, and call upon the House of Assembly, the Legislative Council, and His Excellency the Governor to repudiate the action of the Government in this regard, which we consider unjustifiable.

Further, that we protest against using public funds to purchase salt for the benefit of private parties, and ask the House of Assembly, the Legislative Council, and His Excellency the Governor to collect at once the amount owing the Government.

Further, that we protest against any further continuation of Sugar control, and call upon the House of Assembly, the Legislative Council, and His Excellency the Governor to repeal the bill.

Further, that we approve of a system of cutting fish by sworn cullees appointed by a Board of Commission to be selected irrespective of party affiliation by the House of Assembly, the Legislative Council, and His Excellency the Governor; the cullees to be paid from public funds and to call all fish transferred from the producer to the buyer, and call upon the House of Assembly, the Legislative Council, and His Excellency the Governor to exact legislation to this effect.

Further, that we protest against the abuse of the Prohibition Law and call upon the House of Assembly, the Legislative Council, and His Excellency the Governor to abolish the Controller's Department, and to enact legislation, if necessary, for the carrying out of the Prohibition Law.

Further, that we in general protest against any utilizing of public monies for private purposes, against the investment of public funds in speculative business ventures, against the filling of the Departmental offices of the Government, by men who have other interests to care for, which conflict with the performance of their duties, that we call upon the House of Assembly, the Legislative Council, and His Excellency the Governor to see that these laws are carried out, which have been so flagrantly violated by the various Governments in the past.

Further, that we will give all of our moral support to any man or body of men who will make an honest endeavour to right the serious wrongs which the people of this Dominion are suffering from.

Further, that a copy of these resolutions be sent to His Excellency the Governor, the Hon. S. K. Bell, M.L.C., the Hon. S. J. Foote, M.H.A., John Cheeseman, Esq., M.H.A., with the request that they be presented to and read in the Legislative Council and the House of Assembly.

The C.I.B.C. "At Home" is being held at St. George's Eve in the C. C. C. Hall. For the benefit of clerks and others it is not starting until 10 p.m. Remember, two days to sleep in. Tickets to be had from Gray & Goodland's, members of the Mess and on the dole.—april 19

### Society Representatives Meet.

A meeting of the representatives of the C.I.B.C. N.B.S., L.O.A., S.D.F., L.O.F. and S.O.E. was held in the new S.U.F. rooms last night, when arrangements in connection with the big parade on St. George's Day were discussed.

Mr. G. B. Lloyd was appointed Chairman and W. Lever Secretary, of the parade Committee, and it was decided that all the societies would attend divine service in the C. of E. Cathedral at 11 a.m., after which the parade, accompanied by the S.A. and M.G.B. as well as C.I.B.C. bands would march through the city paying the usual courtesies. There was great enthusiasm evidenced at last night's meeting and the parade promises to be the largest seen in the city for many years. A further meeting will be held on Wednesday night when matters will be finalized.

### Police Court.

The two men charged with stealing cloth to the value of some thousands of dollars from the premises of the Furness, Withy Co. came up before Judge Morris to-day and through their counsel, Mr. W. J. Higgins, pleaded guilty. The man Whelan was sentenced to 12 months hard labor whilst the other accused was fined \$100 or 6 months imprisonment.

Acting Mayor Mullaly informed the meeting that during the afternoon he and the Prime Minister and the Manager of the Royal Bank of Canada had been in conference as to the raising of \$150,000 loan. Of the amount \$100,000.00 was for extending, removing and relaying of pipes, and \$50,000.00 for widening streets, etc. The Acting Mayor informed the meeting that the conference had been very satisfactory, that the city's and Government's propositions had been fully laid before him. The Bank Manager intimated that he would lay the matter in detail before the head office and when the answer came he would reply to the Council and Government officer. The Council will further discuss the matter at the regular meeting on Thursday.

Canadian Pioneer, as the ship was unloading a cargo of Red Rose Tea for Easterbrook at St. John, N.B., which she docked on March 23rd after a three months' voyage from the Indian Ocean. The Canadian Pioneer left Montreal for Ceylon on September 11th, 1920, making the round trip in little over 6 months. She is one of the best of the Canadian Steamship boats, having a cargo space of 8,155 tons, or 335,500 cubic feet.

### I. O. O. F. Notes.

The regular meeting of Atlantic Lodge, No. 1, I.O.O.F., held last night was one of the biggest and best meetings for the season. The principal business was the conferring of the Degree of Friendship on two candidates. The dramatic work by Atlantic Degree Team was exceptionally good, and the exemplification of the very droll Biblical story of friendship made a deep impression on all present.

Bro. Rev. I. W. Williamson, of Fairview Lodge 61, Vancouver, B.C., who is in this city in the interests of the International Brotherhood movement, was present, and gave an inspiring address on Odd Fellowship in general, and the lesson of the First Degree in particular. Bro. Williamson is a very keen Odd Fellow and his words had a marked effect on all present. He is travelling the world preaching the Gospel of Brotherhood—and Brotherhood and Odd Fellowship are synonymous terms.

The Independent Order of Odd Fellows will be represented in St. George's Day demonstrations by Premier Encampment, No. 1, Atlantic Lodge No. 1, and Colonial Lodge, No. 135. All members of the Order in the city and any visiting brethren are invited to be present and follow the Triple Link in the parade.

On Sunday next, 24th inst., the anniversary church parade to Cochrane St. Methodist Church takes place. The M.G.B. Band will make its appearance with the parade, and a large attendance is looked for. Rev. Dr. Bond will be the preacher.

Monday evening will provide the culminating event of the anniversary festivities when a social and concert will be held in the Odd Fellows' Hall. A splendid programme has been prepared and a good time is looked for. All Odd Fellows are heartily invited to attend both events.

To the friends, supporters and all dancers: The C.I.B.C. W. & N. C. O.'s Mess are holding their first Annual "At Home" since 1915 in the C. C. C. Hall on St. George's Eve. The supper is being served by the new Ladies' Auxiliary. 'Nuf sed.—april 22

## Mayflower Has Yacht Lines.

MAY BE ELIMINATED FROM CONTEST.

Halifax, N.S., April 11.—A special despatch from Gloucester, Mass., says that the American international race committee, made up principally of Gloucester men, are practically a unit in declaring that the Mayflower, now building at Essex, Mass., as a possible contestant in the races next fall should not be permitted to compete in the elimination trials until she has proved her ability to pay her way for a full year on the Banks. Their contention is that, owing to her yacht-like lines, the Mayflower will not be able to stock upwards of 250,000 pounds of fish, and they hold that a fisherman to be successful must be able to stock at least 500,000 pounds. W. J. Rouse and H. G. Lawrence, members of the Halifax committee proceeded to Boston last week for the purpose of inspecting the Mayflower.
