NOVEMBER.

If a man is warned of danger and does not heed, and suffers, for instance, a broken limb, that is no reason why he should be heedless still and not favor the healing process. Nor because a man is heedless, and from exposure suffer disease of the Throat, Lungs, Liver, Kidneys, or Digestive Organs, &c., is that a reason why he should not seek help. And for the real cure of any of those diseases, were we asked for an opinion, we would say by all means use the Great Shoshonees Ramedy.

Permanent and Wide-spread Success is the Best Evidence of the good-ness of Brandreth's Pills.

COUCHS AND COLDS.

Sudden changes of climate are sources of Pu monary, Bronchial and Asthmatic affections. Ex-perience having proved that simple remedies o perience having proved that simple remedies of-ten act speedily and certainly when taken in the early stages of the disease, recourse should be at once had to "Brown's Bronchial Troches," or Lo-zenges. Few are aware of the importance of checking a cough, or "common cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "Brown's Bronchial Tronches," or Cough Lozenges, allay irritation which induces cough-ing, having a direct influence on the affected
