ROYAL PARTY STORM-BOUND.

Pert, West Australia, July 20.—The British steamer Ophir, with the Duke and Duchess of Cornwall and York on board, which sailed from Adelaide July 15, for Fremantle, was compelled by stress of weather to put into Albany. She reports all well.

A BURIED CITY OF VAST SIZE!

Magnificent Palaces of a Prehistoric Race Unearthed on Navajo Reservation in New Mexico.

Los Angeles, Cal., July 22.—A prehistoric city of immense proportions is said to have just been unearthed on the Navajo Indian reservation, between Durango, Colorado, and Farmington, N. M., the particulars of the find having been reported to the land department of the Santa Fe system in this city. A place has been found containing, it is said, about 1,000 separate apartments, some of them in an excellent state of preservation. Another stone castle contained 100 separate apartments. In some of the rooms inspected were found the finest of wood and other relics of a valuable character, specimens of which have been gathered and sent to the Smithsonian Institute.

GOLD-HUNTERS' TERRIBLE FATE!

Prospectors, Overtaken by Storm, Abandon Sick Comrade and Themselves Perish on the Trail.

Nome, July 10, via Seattle, Wash., July 22.—A tragic story comes from St. Michael. A party of men enroute to Nome recently found the bodies of six men at a point near Cape Romanoff. It is presumed that all froze to death during one of the terrible blizzards that prevailed last winter. The bodies were scattered at intervals—five of them about a quarter of a mile apart. Each had some camp equipment near him, but no food. One of the dead

THE HOT WAVE COMING NORTH!

Present Weather Is Not a Circumstance to What May Be Expected Very Soon.

Washington, July 22.—A hot wave of unusual and in many places record-breaking intensity is again prevalent over the central western part of the country, and is spreading eastward and northward. The central west reported extraordinarily high temperatures to the weather bureau yesterday. The maximum temperature line of 100 degrees yesterday included the states and territories of Nebraska, Kansas, Oklahoma, Iowa, Missouri, Ohio, Indiana and Illinois. Last night at Chicago, at 7 o'clock, the temperature was 100 degrees, exceeding by several degrees anything ever before recorded at that time of the day. Iowa, Missouri and Kansas have had temperatures of 90 degrees or more for a period of over a month. For eighteen days of this time the thermometer at Kansas City registered 100 degrees or more.

Weather bureau officials do not care to make any prediction as to the prospects of relief. They say that none is as yet in sight. The seriousness of the situation to the crops is increased by the lack of rain, none of importance having fallen in the corn belt for three days and there apparently being no prospects. The rain which gave a partial relief to the states of the corn belt during the past week was not by means general, but a succession of thunderstorms affording temporary relief to the over-parched ground and grain. The relative high barometer in the southeast section of the country shows a persistent continuation of warm southerly winds, and there appears to be no prospect of a change until the appearance of a high barometer in the northwest, where a low pressure now has full swing. Such relief of a local character as is held out in the meantime, it is stated, will be due to local thunder showers which always accompany periods of protracted heat. Some rains have fallen in the past twenty-four hours in the south Atlantic states, the gulf states and the extreme southwest, notably in Northern Arizona, where rain has fallen since yesterday morning.

Contrasted with the remainder of the country, the Pacific coast is enjoying a period of cool weather. San Francisco reporting a temperature tonight of 55 degrees as the result of cooling breezes from the ocean.

Some of the maximum temperatures officially reported to the weather bureau Sunday are the following, although they are in instances lower than those reported by the local thermometers: Atlanta, Ga., 80; Boston, 90; Chicago, 102; Cincinnati, 100; Dayton, 106; Denver, 94; Des Moines, Ia., 104; Helena, Mont., 94; Indianapolis, 100; Jacksonville, Fla., 83; Kansas City, Mo., 104; Little Rock, 90; Memphis, 88; New Orleans, 90; New York, 92; North Platte, Neb., 100; Omaha, 104; Pittsburg, 94; Salt Lake, 86; St. Louis, 106; St. Paul, 98; Springfield, Ill., 106; Vicksburg, Miss., 95; Washington, D. C., 90.

The yacht Maroussa, on which he keeps a veritable court. The crew is armed and the officers wear swords and uniforms similar to those in the French navy. The officers and men wear medals bearing the arms of the royal house, which are also all about the yacht and the fittings. But most remarkable of all, the yacht carries breech-loading guns and machine guns.

Possibly it is the knowledge of this apex of sovereignty that has caused the uneasiness of the French Government. Those who know the character of the Duke of Orleans say the government ought to be aware that there is nothing to fear from him, and that the public's only formidable enemy is Prince Victor Napoleon, who, by the way, recently dropped "Victor," and is now addressed simply as Prince Napoleon.

The Pall Mall Gazette on Friday had a ridiculous story about a great Bonapartist plot against the republic in the interest of Louis Napoleon. The story was a pure fake. Victor is the head of the family, and Louis is devotedly attached to him.

SWINDLED IMMIGRANTS. Edmonton, N. W. T., July 22.—Saturday morning Philip Wagner, Dominion government interpreter at Fort Saskatchewan, was convicted a second time of swindling Galician immigrants. He was

CANADIANS ARE PROUD OF IT!

Pride Rises Within Them at Sight of Pan-Am. Building.

Toronto Correspondent Praises the Creation of Architect H. C. McBride—A "Delightful Contrast."

We felt very proud of our Canadian headquarters at the exposition when we saw it for the first time on the day of our arrival in Buffalo, writes E. C. in the Toronto Globe. My hearty exclamation of "I'm thankful!" was not quite understood by my companion until I explained to her that my special cause for rejoicing arose from the fact that this building is such a delightful contrast to the building and its uninviting contents of which so many Canadians were ashamed at the World's Fair, as they contrasted it with the buildings of Australia and other states and nations. This time we have reason to be proud of it, and are therefore all the more sorry that its position on the grounds is not better, for it is only owing to the fact that the decision of Canada to exhibit here was made so late that all the sites in the proper quarter among the other state and foreign buildings had been already taken, so that we are now off in a distant corner, as it were, and in consequence many people fail to pay us a visit. The outward appearance of the building is most attractive, and reminds one of the timbered houses one sees in England of the Elizabethan period. The wide verandah and balcony, filled with easy chairs and rockers, have a hospitable look, and the gay bed of bright flowers in front is most effective.

FAMILY BURNED IN A TENEMENT.

Terrible Fatality in Pittsburg—Stove and Coal Oil Can the Cause.

Pittsburg, Pa., July 22.—A whole family was burned in a Penn avenue tenement fire this morning. The mother and three children are dead and the husband is badly burned. The explosion of an oil can was the cause of the fire. The dead are: Mrs. Sophia Raiza, aged 30 years, mother of the children; Viola, aged 8 years; Kashner, a boy aged 6 years, and Wabock, a boy aged 2 years. The injured: Francis Raiza, husband and father of the family, was badly burned and removed to the hospital. It is said he will recover. From what can be learned, Mrs. Raiza was preparing breakfast, and the fire in the kitchen stove not burning as quickly as she wanted it to, she poured some oil on the fire. In a moment a blaze from the grate of the stove ignited the oil in the can and an explosion followed.

MANITOBA'S CROPS.

Winnipeg, Man., July 22.—Manager Thompson, of the Ogilvie Milling Company, speaking of the crop outlook, said on Saturday: "Nothing short of a calamity will prevent us from having this fall the largest crop of wheat that Manitoba has ever had. Our reports during the week have been nothing but the same tale—magnificent. I dare not predict what the yield will be for fear of underestimating it."

Western Australia was last of the sister colonies to receive the privilege of responsible government.

Artistic Engraving.

We make a specialty of engraving initials, inscriptions, crests, wax seals, pierced monograms and letters for ebony brushes, mirrors, etc., leather bags and purses. Our careful work and original designs bring us many words of praise. We feel that a trial will convince you of the excellence of our work in this line.
