

TRADE PROSPECTS ARE VERY BRIGHT

Business Booming Through-
out the Dominion.

BIG DEMAND FOR SUMMER LINES

Increased Sales in Fruit and
Cereals—Eastern Outlook—Col-
lections Good.

Toronto, April 13.—Bradstreet's re-
port says:

At London the wholesales have been
quite busy with spring trade, which is
increasing. The markets are firm
and payments are fair for this sea-
son.

At Montreal the demand for spring
and summer goods is so great that the
mills and factories are taxed to their
utmost to meet the requirements of the
trade. The large increasing of the
demand of the west is causing a
good expansion in the demands of that
part of the country. The wholesale
trade takes on a hopeful view of the
outlook for business, and the general
view is that the prospects for trade
were never better than they are at
the present time. Fine spring weather
has increased the demand for season-
able goods. The opening of
navigation has increased the demand
for goods for shipment to Ontario
points.

The general trade in the country is
improving. Deliveries of cereals and
other farm products are increasing,
owing to the anticipated larger de-
mands for shipments by the Canadian
water route.

Trade at the Pacific coast is showing
fair advance and expansion for the
season. The demands of the north
are growing and sales for outlying
settlements show expansion. Pay-
ments are fair.

The feature of the week at Winni-
peg has been the steady stream of im-
migrants, British and American,
passing through the city on their
way to take up land in the Province
and Territories. The result has been
a large increase in the retail sales.
Wholesale trade is highly satisfactory,
merchants buying freely.

Ottawa wholesale trade is fairly ac-
tive. Failures are getting more nu-
merous, but altogether the general out-
look for trade is highly satisfactory.

The general business at Quebec dur-
ing the week has been active, and the
approach of spring has increased re-
tail sales. Shipping is increasing and
general business collections are fair.
The outlook for the spring and
summer trade is excellent.

KING AVOIDS GERMANY

Left Out of His Tour—Would Get
Cool Reception.

Berlin, April 13.—Although the failure
of King Edward to include Berlin in
his itinerary is interpreted as a slight,
there are no marked symptoms of re-
sentment. This is all the more strange
in view of the fact that according to
etiquette among the royal houses of
Europe, it is obligatory upon the King
to pay a visit to the Kaiser in return
for the latter's visit to St. James's
Park.

That there are other grounds aside
from time and convenience for the
seeming neglect of the King to visit
Berlin need not be disputed. The King's
appearance in Berlin would certainly
not call forth any demonstrative ovation
on the part of the cold-blooded
Berliner, who enjoys nothing so much
as to vent his sarcasms and feelings
against Englishmen, collectively and
individually, as the natural enemy of
the German race.

There is at present no superheated
sentiment against England because the
local elections on domestic issues afford
enough food for attention at home. But
there is no doubt in the minds of the
Government leaders here that King Ed-
ward would not meet with a very cordial
reception, and that this would con-
trast all the more forcibly with the
thunderous welcome promised in Paris.
Not many months ago Count von Buelow
boasted in the Reichstag that Ger-
many was strong enough to hold its
own and had no need of allies. But
today Germany is a sutor and regards
with keen suspicion the approaches be-
tween France and Italy, who appear to
have made common cause in the settle-
ment of Macedonian issues. Moreover,
recent events show conclusively that if
England seeks any support among the
continental powers it will be France,
instead of Germany.

Benzine Tank Explodes.

Philadelphia, April 13.—A boy,
Thomas Coughlin, was killed, and two
others badly hurt by the explosion of a
benzine tank Saturday near the At-
lantic Redline Company's work in the
southeastern section of the city. The
car was empty and the boys entered
the tank to play. It is believed one
of them lit a match and caused the
vapor to explode.

WEAK AND NERVOUS

Morning Tiredness makes
you wish it were night.
When night comes refresh-
ing sleep is hard to obtain.

You're run down. Your
blood is thin and watery.
The very thought of effort
wears you.

It's Ferrozone you need.
It makes blood—the strong
red kind.

An appetite? You'll eat
everything, and digest it,
too.

Strength? Plenty of di-
gested food and restful
sleep brings that.

Try Ferrozone and watch
results. It never fails to cure

FERROZONE

Price 50c. At Druggists, or by mail from
Ferrozone Company, Kingston, Ont.

Dog- matic People

Are often capable
of doing injury to
less positive people, by
their affirmation making up for lack
of argument and want of evidence.
And the worst of all dogmatists are
those doctors who, harking back to some
old dogma of the schools, insist that
certain patients are beyond all medical
help, because, forsooth, their diseases
are beyond the limited medical knowl-
edge of the dogmatist.

"When the physicians had given me
up I was cured by the use of Dr. Pierce's
Golden Medical Discovery." That state-
ment, varied sometimes in form but
identical in fact, is one of the common
expressions found in the letters of those
cured by "Golden Medical Discovery."
Sometimes the statement runs: "I was
given up by four doctors," showing a
desperate effort to find relief in local
practitioners. But however the story
begins, it almost invariably ends with
the statement "I am perfectly cured by
Dr. Pierce's Golden Medical Discovery."

Persons suffering from "weak" lungs,
hemorrhages, deep-seated cough, emaci-
ation and weakness, have been restored
to perfect health by the "Discovery."

The philosophy of the cure effected
by this marvelous medicine is not hard
to understand. Life is sustained by
food, digested and assimilated. The
basis of health is a good appetite and a
sound digestion. In almost all cases of
diseases of the lungs, the first step
toward recovery is the restoration of
the wasting of the flesh. For some cause
the food eaten is not being converted
into nutrition and the body and its or-
gans, being starved, must grow weak.

There is only one way to get strength
and that is by food. Dr. Pierce's Golden
Medical Discovery heals diseases of the
stomach and allied organs of digestion
and nutrition, so enabling the body to
assimilate the needed nourishment.
Thus various forms of "weakness," so-
called, are cured by the "Discovery."
"Weak" lungs, "weak" heart, "weak"
nerves, "weak" or sluggish liver, etc.,
because the organs are made strong by
food, which is perfectly digested and
assimilated after the "Discovery" has
healed the diseases of the stomach and
associated organs of digestion and nutri-
tion.

PAIN ALL GONE.

"I have taken your medicine with the great-
est satisfaction," writes Mrs. George Riehl, of Lock-
port Station, Westchester Co., Penna., and
can honestly say Dr. Pierce's Golden Medical
Discovery has cured me of a pain in my right
lateral side which has troubled me for years. My
appetite and digestion have improved so that I
can eat anything at all, and I feel better than I
have for years. Your Favorite Prescription
has cured me of womb trouble that I suffered
for fifteen years, and painful monthly
troubles. I can now walk and do my work
without pain. My pain is all gone and I feel like a
new person. I suffered with headache all the time
but have no headache now since taking your
medicine. Your "Golden Medical Discovery"
has cured me of all that troubles me, and more, too.
I have been cured of troubles that I suffered from for fifteen years,
and the best doctor in the State could not cure
me. "Golden Medical Discovery" cured me of
neuralgia that I suffered from for five years, and
if my wife or I have any other poor sufferer,
you can publish it."

"ALMOST A MIRACLE."
"I took a severe cold which settled in the
bronchial tubes," writes Rev. Frank Hay, of Nor-
folk, Mass., "and after trying various medi-
cines labeled 'Sure Cure' almost without
number, I was led to try Dr. Pierce's Golden
Medical Discovery. I took two bottles and was
cured, and have stayed cured."

"When I think of the great pain I had, it seems
almost a miracle that I was so soon relieved."
Dr. Pierce's Pleasant Pellets cure con-
stipation. They do not react upon the
system and become a necessity, as do
many other pills.

B.Y.P.U. CONVENTION ENDS

Splendid Meetings Were Held on
Good Friday.

A. S. Woodburne, of London, Elected
Recording Secretary.

Toronto, April 13.—The convention of
the Baptist Young People's Union of
Ontario and Quebec concluded Friday
night with a rousing meeting at Col-
lege Street Baptist University. Every
seat in the large church was occupied,
and extra seating was required. Mayor
Urquhart briefly addressed the con-
vention on the invitation of President
W. E. Robertson.

Rev. Dr. J. W. A. Stewart, of Ro-
chester, delivered an interesting ad-
dress on "Culture for Service."

Rev. J. D. Freeman, of Toronto, ad-
dressed the convention on "The Cour-
ageous Life." He said that courage
was absolutely necessary in the Chris-
tian life. He who will do the work of
God must be strong and very courage-
ous.

The convention passed a resolution
expressing its hearty approval of the
action of the Dominion Parliament in
passing a resolution prohibiting the
manufacture and sale of cigarettes, and
expressing the hope that Parliament
would shortly pass a law to that effect.

The following are the new officers
elected: President, W. E. Robertson, of
Toronto (re-elected); vice-presidents, J.
H. Brown, of Dunnville; Rev. J. C.
Sycamore, of Brockville; and Rev.
H. Emerson, of Meaford; recording
secretary, A. S. Woodburne, of London;
corresponding secretary, R. S. Daddon,
of Toronto; treasurer, Rev. George T.
Webb, of Toronto.

The afternoon's session was opened
with a song service, led by Gideon
Grant, of Toronto. Rev. W. J.
Pady, of Toronto Junction, conducted
the devotional exercises. A Bible read-
ing, subject, "The Gospel and the
Spirit of Youth," was led by Prof.
Cross, of McMaster University. Rev.
J. W. Hoyt, of Hamilton, gave an ad-
dress on "Preparation for the Skillful
Handling of the Word," and A. T. Mc-
Neill, B.A., of Woodstock, spoke on
"Cultivation of the Evangelistic Spirit
in the Individual." The concluding
address of the afternoon was by R. D.
Warren, of Georgetown, whose subject
was "Wise Use of Methods."

Rev. J. L. Gilmour, of Montreal, pro-
nounced the benediction, closing the
convention. Next year's convention
will be held in Hamilton.

IF RATES ARE RIGHT REUNION WILL BE IMMENSE SUCCESS

International Executive Commit-
tee Discuss Old Boy Plans.

Much Now Depends Upon Generosity
of Railroads.

The executive committee of the In-
ternational Association of London Old
Boys met here on Saturday night to
fix the date of the biennial reunion and
consider other matters in connection
with the homecoming. The meeting
brought together Old Boys from Chi-
cago, Detroit, Toronto, Windsor and
other points, and while it presaged a
big gathering in August next, there was
an intimation of trouble ahead, and
the possibility of some of the
associations declining to participate—
not because of any dissatisfaction with
the way in which affairs have been
managed by the old folks at home,
but because of the attitude of the rail-
ways in the matter of rates. Chicago

is having difficulty along this line.
Although the reunion is still almost
four months distant, the Old Boys in
Chicago are on the move. "Billy"
Small, the secretary of the association
there, and one of the most enthusiastic
Old Boys abroad, has been in communi-
cation with the Central Passenger As-
sociation regarding a rate to London,
but the best he has so far been able
to secure is the promise of a rate which
the Chicago association will not ac-
cept. It may be that other Old Boys'

associations across the line will meet
with the same difficulty, for the roads
appear to be united. If they do, and
find it impossible to get a good rate,
the attendance at the reunion will be
seriously affected.

The philosophy of such a cloud will
be particularly regretted, not only by
the home guard, but the boys abroad.
For the absence of the reunion last
year has only intensified the interest
in the one now drawing near. Reports
received from every place bear out the
latter statement. There is a general
desire to make the event greater than
two years ago, but it is felt that this
cannot be done if the railways do not
deal more liberally with the associa-
tions. Even New York city is in line,
and a delegation of 75, 100, is pre-
pared from there. John N. W. Win-
nipeg and the Soo are among the
latest to organize, and a movement is
on foot to organize at many other
places. Guelph has a delegation of 1,000.
From Cleveland comes the word that
"We will be on hand with a large
crowd and the finest band in town."

CHICAGO IS INTERESTED.
Mr. Small said on Saturday night
that he never saw the Old Boys in
Chicago so much interested as they are
this year. "All we have to do," he
said, "is to announce a meeting, and
the crowd will be there, eager to hear
the latest from the old town and to
know what arrangements are made
with the railways. Why in the last
year or two, no less than 150 London
boys have landed in Chicago. Have
we been able to keep track of them?
We didn't need to. They came to us.
There is a wave of enthusiasm among
the entire membership, and I can
safely say that if we get what we want
from the railways we will come with
at least two special trains and from
1,000 to 1,500 people. There is no doubt
about it. I never saw the boys so keen
for the reunion before. If the railways
do not meet our needs, we will have
home, which other associations in the
States may also be compelled to do.
The agreement existing among the
railways is the stumbling block."

THE DATES FIXED.
Saturday night's meeting was pre-
sided over by the president of the
International Association, Dr. A. R. Leys,
and among those present were:
Thomas Jones, Col. Sullivan and
Arthur Lashbrook, of Detroit; Joseph
Davis, Harry McBride, Atwell Fleming,
Charles A. O'Brien, of Toronto,
and John Thompson, of Toronto; J.
H. Anderson, Strathroy; James H.

SMYTH, Ben Holman, Alex. Housen and
Caleb W. Wall, Windsor; H. L. Uher-
wood, Hespler; George Taylor, Chat-
ham; William A. Small and Charles
Small, Chicago; Charles Cowley, Sar-
nia, and Secretary Bell. The members
of the home guard and attendance were:
President McCann, ex-Ald. Carrothers,
E. J. MacRobert, James Herrick, J. R.
Minihnick, Hugh McLean, Ald. Gerry,
R. K. Cowan, Alf Talbot, Walter Bart-
lett, Dr. Ennis, Chief Roe, John S.
Dewar (representing Omaha Associa-
tion), and E. W. M. Flock.

The visitors were welcomed by Presi-
dent McCann and ex-Ald. Carrothers,
and after the reading of letters from a
number of outside places the com-
mittee considered the dates of the re-
union. It was a foregone conclusion
that the first Monday, Tuesday and
Wednesday of August, the 3rd, 4th and
5th, would be decided upon, as they
were the most acceptable to the as-
sociations elsewhere. The choice of the
dates was unanimous.

Where to spend the opening day was
another question which the committee
had to decide. Opposition was ex-
pressed to the idea of attending the
railway company could handle the
crowds better than it did two years
ago. Col. Sullivan said the Detroit
association had discussed the matter,
the opinion prevailing that the
railway company did not have the facili-
ties necessary to carry the thousands
who would want to go to the park.
Some were of the opinion that the
Travelers' Club, which has its annual
picnic at Port Stanley on the Satur-
day preceding the reunion, Mr. Harry
Buttrey, president of the Travelers' Club,
would accept the proposition before the
committee.

It was also decided to co-operate in
the matter of advertising with the
Travelers' Club, which has its annual
picnic at Port Stanley on the Satur-
day preceding the reunion. Mr. Harry
Buttrey, president of the Travelers' Club,
would accept the proposition before the
committee.

THE RAILWAY DIFFICULTY.
The difficulty being experienced by
the Chicago association in getting a
cheap rate was explained by Mr. Small,
who said he had written to the Central
Passenger Association, with which
45 railways were connected, asking for
a rate of \$9.25, with the privilege of
extending the time from 10 to
30 days on payment of an additional
fee to be fixed by the roads. This was
reused, although the association was
giving a special rate of \$1.00 to 1,500
people would patronize the excursion.
The best the roads would do
was to grant a rate of a fare and a
third the other way, which was decided upon
for the homecoming's festivals or re-
unions at Hamilton, Toronto and
Waukegan. The tickets would be is-
sued on the certificate plan, and would
allow only one week home. The argu-
ment of the Passenger Association was
that fully 90 per cent of the people
who would take advantage of the re-
duced fare would come anyway, and it
was held that the cheap rates would
cut into the tourist business at a time
when the roads had all they could do
to handle their passenger business.

We didn't need to. They came to us.
There is a wave of enthusiasm among
the entire membership, and I can
safely say that if we get what we want
from the railways we will come with
at least two special trains and from
1,000 to 1,500 people. There is no doubt
about it. I never saw the boys so keen
for the reunion before. If the railways
do not meet our needs, we will have
home, which other associations in the
States may also be compelled to do.
The agreement existing among the
railways is the stumbling block."

OUTRAGE AND MURDER
An Alabama Negro Kills Woman and
Her Daughter.

Shreveport, La., April 13.—Never has
this part of the South been more
wrought up over a dastardly crime
than Saturday. And never has out-
raged public indignation taken a more
terrible vengeance.

Mrs. Frank Maxey, the beautiful
wife of a civil engineer of the Seaboard
Air Line, and a social leader, was at-
tacked and brutally murdered by a
negro in her home near Anniston, Ala.
Her pretty 10-year-old daughter, Alina,
was so terribly beaten by the negro
that she died in a sanitarium.

A posse of leading citizens in a frenzy
of excitement took to the streets, and
led by bloodhounds, succeeded in
capturing the murderer near this city
today.

The negro was riddled into an un-
recognizable mass by a storm of bul-
lets, and not until his body had been
tied to a stake and burned to ashes
did the ire of the mob abate.

THOUGHT IT WAS ALL UP
Well-Known Lindsay Man Almost in Despair
Till He Tried Dodd's Kidney Pills.

Lindsay, Ont., April 13.—Charles Pod-
dore, one of the best known men in
Lindsay, consequently nearly every one
here has heard of his relief from the
torments of Rheumatism. For five
weeks he lay in bed suffering the
agony of the disease, and was ex-
perimented with so-called cures. Then
he proved yet once again that "When
Dodd's Kidney Pills come in at the
door, Rheumatism goes out at the
window."

"Yes," he says, "it certainly gives me
great pleasure to recommend Dodd's
Kidney Pills. I tried many other
cures, but none gave me relief. I
got to them that I began to think it
was all up. But three boxes of Dodd's
Kidney Pills cured me completely."

Mrs. Buggins—I know where you
can get a good cure. She's a deaf mute.
Mrs. Muggins—Then I'm afraid she
won't answer.

WHERE CAN I get some of Halloway's
Cure? "Cure" was the name of the
advertisers by this remedy, and I wish some
more of it for my friends. So writes Mr.
J. W. Brown, Chicago.

The "Drinking Song" should be sung
in liquid tones.
Vice generally wears a mask, but you
can tell virtue a mile off.

Lifebuoy Soap—disinfectant—is strongly
recommended by the medical profession as
a safeguard against infectious diseases.

International Executive Commit-
tee Discuss Old Boy Plans.

Much Now Depends Upon Generosity

more of it for my friends. So writes Mr.
J. W. Brown, Chicago.

The "Drinking Song" should be sung
in liquid tones.
Vice generally wears a mask, but you
can tell virtue a mile off.

Lifebuoy Soap—disinfectant—is strongly
recommended by the medical profession as
a safeguard against infectious diseases.

THE ADVERTISER, LONDON, ONT., MONDAY, APRIL 13.

THE WEATHER TODAY— air, showers or thunderstorms.
