VICTORIA'S police have been advised to be on the lookout for the robber or robbers who last Sunday evening systematically cleaned out the post office of the little village of Friday Harbor, San Juan island, securing upwards of \$600 in money and American postage stamps. It is all but certain that the operators were strangers to the islands, and that they headed for the Vancouver island shore in a sloop as soon, as the "ijob", was completed. It is accordingly possible that they may yet be apprehended in this city, but the chances of this being the case are decidedly vague.

All in one year Mrs. McConnan has been an orphan, a bride, a mother and a widow—an experience that will ensure for her the sympathy of the entire public. Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. JAMES LARMAN DEAD.

Old James Larman, who for many years was one of the "characters" of Victoria, died yesterday at the Old Men's Home. For thirty years or more he had lived in Victoria carrying on his trade of sympathy of the entire public. The funeral services yesterday were very affecting and were largely attended, a very large display of floral offerings testifying in no small degree the feelings of many friends on the occasion. Rev. W. Leslie Clay performed the services, which were held at the residence on Menzies street and also at St. Andrew's money and that there is a little store hidden somewhere in the ground over Special music was rendered by the choir, and it was nearly four o'clock before the mourners continued on their way to the cemetery.
