Emma Abbott Opera Company.

The Emma Abbott English Opera com pany began a week's engagement at the Grand opera house last night, with Flotow's well-known opera of Martha. There was a fair and appreciative audience. but not nearly as large as the company

The story of the opera is well-known:
The two wealthy maidens, Lady Henrietta
(Emma Abbott) and Nancy (Lizzie Annandale), to relieve the monotony of their life, hire themselves as servants to two wealthy farmers, Plunkett (Mr Stoddard) and Leonel (Signor Fabrini), and find when too late that Abbott, in the took the house by storm, particularly in the well-known Last Rose of Summer. Miss Annandale left nothing to be desired, her great effort in the forest scene being most deservedly encored. Signor Fabrini proved himself a splendid tenor and did the fullest justice to all the fine numbers that fell to his lot. Mr Stoddard, an old Toronto favorite, maintained his reputers, and altoward and altoward for the strength of the strength self Toronto favorite, maintained his reputation throughout the whole opera. The chorus is extremely good and also the orchestra, and altogether the people of the processing the chorus is extremely good and the orchestra, and altogether the people of the processing the control of the processing the contro city will have during this week the pri-vilege of hearing as fine, if not the finest, company that has ever presented English

opera in Toronto.

This evening will be presented Adam's comic opera, King For a Day, which comes well recommended from all quarters.

The Clerical Association.

The Toronto Clerical association met at Shaftesbury hall yesterday morning. The Rev. Mr. Sweeny, lately appointed rector of St. Philip's, was welcomed as one of the clergy of the city and a member of the association. The following resolution was carried unanimously:

"We the members of the Clerical association, of the city of Toronto, having learned that our brother, the Rev. W 8 Rainsford, has accepted the rectory of 8t. George's church. New York, and that he is about to take his departure for that important field of labor, desire to put on record our deep sense of the loss which the diocese of Toronto will sustain in his remeval, and to assure 1 im that he carries with him the love and lasting esteem of all his brethren, and their prayers and best wishes for his future happiness and usefulness."

Uncle Tom at the Royal. This ever popular drama was presented

last night at the Royal opera house by the Boston double Uncle Tom's Cabin company with much success. The audience was very large, filling every part of the building, galleries, aisles, etc, in some parts of which there was hardly standing room. The rendition of the play was good. All the prominent characters were well represented, articularly the Marks the lawyers with particularly the Marks the lawyers with their endless comicalities, the Topsics and little Eva, whose sweetchildish voice moved many tears with its tender pathos. Herdeath scene, as well as the classific scene, were particularly touching. The company's ergagement in Uncle Tom continues all this week with Wednesday and Saturday matiness.

Found Dead Under the Ice. Yesterday morning Esplanade Constable

illiams found the lifeless body of little ammy Miles, 7 years of age, about a quarter of a mile from the Royal Canadian Yacht club house, under the ice not far from the surface. Sammy went skating with his brother Albert on Saturday afternoon, and was lost sight of on the ice. afterwards, unobserved by anyone, felt through the ice and was drowned. He was a son of Mr. John Miles of 91 Major street, and was a particularly bright little fellow.

CONSUMPTION

And all the various diseases of the respiratory or gans, including Cwarth Throat Diseases, Bronchitis, Asthma and Consumption, together with diseases of the eve, ear and heart, successfully treated at the ONTARIO PULMONARY INSTITUTE NO. 135 CHURCH STREET,
Opposite the Metropolitan Church,
Toronto, Ont.

M. HILTON WILLIAMS, M. D., M. C. P. S. O. Proprietor. All diseases of the respiratory organs treated by "Medicated Inhalations' combined with proper constitutional remedies for the blood, etc. Nearly 40,000 cases successfully treated during the past sixteen years.

The citizens of Toronto, as well as neighboring lake and inland cities, have observed the alarming prevalence and increase of that dangerous class of maladies known as throat and lung diseases. Year by year is adding to the army of victims, and new types and phases of these affections are also multiplying. The reports of the city undertakers will disclose to the inquirer a fearful bill of mortality from this came alone; nor is the gloomy record relieved by a comparison of results in the oft-repeated trial of the various prescriptions in common practice. The time-worn customs of byegone years, calomel, burning, leeching, morphine, iodine and digitalis, have in each new patient awakened fresh hopes of recovery, hopes, alas, to be blighted as weate the selint he hearts of patients who hoped and died while using the remedies.

More effectual remedies than those which generally prevail are called for, and it is to this end and the belief that scientific investigation in one class of complaints will be more certain to attain success in this direction, than by occasional research and observation, while the mind is divided by general practice, that led to the establishment of the Ontario Polmonary Institute in this city during the year 1831, an institution which does afford the best possible treatment of this class of diseases.

By the permanent establishment of such an institute, invalids can at all times consult the doctor personally—being an advantage that will readily be seen and appreciated by all.

Earnest and persevering investigation and fruitful experiments with different remedial agents have within a few years been made by meen of eminent scientific attainments, which have been attended with the most gratifying success. By careful research in the p M. HILTON WILLIAMS, M D, M C P S (

of very many persons rescued from disease and death.

The mode of administering remedies by the system of inhalation is acknowledged by all to be the most reasonable of any ever adopted, and most satisfactory in its re-ults.

Invalids who have failed to derive benefit from medical treatment, and who have made fruitless trials of no-trums of the day, will find in this practice abundant reason for hope, as numerons instances have been reported even of the entire restoration to health of parties in this city and vicinity who have made thorough trial of the remedies, although they had previously been pronounced in an advanced stage of consumption.

Its particular efficiency is especially noticeable in throat diseases, which, if ne, lected, end in consumption, nasal catarrh, bronchitis, asthma, and diseases of the heart. To this class of cases Dr. Williams gives his individual attention.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, may write for "List of Questions" and a capy of my "Medical Treaties," both of which will be sent fr. e.d charge. Address
