

Leishman Clothes

Your Appearance Tells a Story

A man's appearance tells a story to the world at large. Correctly and smartly dressed he creates an impression of success. His clothes show taste and refinement. He stands out from the throng and commands respect.

Every wearer of Leishman garments has an air of distinction and good taste that no other clothing gives. The fine fabrics themselves bespeak quality! The faultless tailoring, style and fit are only what you would expect to find in the finest clothes in Canada.

Made to Measure or Ready for Service

Make sure your next suit is a Leishman. You'll be amazed at how much longer it will keep its fine shape and appearance than other fine clothes.

is received and paid for by J. E. Armstrong, the Conser- in East Lambton federal elections.]

Who is Mr. Fansher Travelling Under?
Who is Mr. Sturrett Travelling Under?

Every man or woman has a vote is enlisted under the banner of the other.

Protection of Free Trade
is no neutral ground, if for Mr. Fansher, you vote Trade. Mr. Sturrett's platform, MacKenzie King's platform which is lowering of Tariffs all the line.

Mr. Armstrong stands for stability of Tariff, and reasonable and sane protection for our Industries, and especially the farming industry. Mr. Sturrett's leader the Right Hon. Mr. Meighen, said in the House of Commons: "I plead interest for any class in the West for the cost of building these lines. Millions of dollars are being spent to build Scribe Hotel, Skyscraper on Yonge street, Toronto; Golf Courses at Jasper Park, Radio systems here, there and everywhere. \$5,000,000 to build wharf at Quebec not needed; \$10,000,000 for bridge over St. Lawrence near Montreal, not needed; needless elevators at Prince Rupert, and millions willfully wasted in the Eastern Provinces, like the Bootleggers' wharf at Belle River, near Windsor.

Mr. Fansher has helped to close 2,200 Industries and drive 700,000 people to the U.S.A.

He cannot name one piece of Legislation he has advocated in Parliament that has had for its object the general development of Canada. What can Mr. Sturrett hope to do. He is the representative of a Government who is directly responsible for four years of drift and mismanagement caused largely by the Club held over this party by the Progressive. The consequences of those four years are with us. They are seen in an emigration that exceeds Immigration. In Industries forced to close their doors. In Public money wasted. In incapacity drift, and incompetence at Ottawa.

Men and Women Voters Under Which Banner Are You Travelling?
Mr. Meighen at Petrolia lauds Mr. Armstrong a few days before Polling Day, 1921. "It is a pleasure to me," he said, "to come to Petrolia and advance the candidature, if I can, of a man who is not only a personal friend, but one of the outstanding and one of the best informed, if not the best informed, member of the House of Commons. (Applause). "I feel more earnestly on his behalf than I do on my own in this campaign. In East Lambton you are confronted with a choice between Mr. Armstrong and Mr. Fansher, who is contesting the riding on behalf of the party headed by Mr. Crerar. In point of personality, whoever Mr. Fansher may be, he cannot be superior to Mr. Armstrong. (Applause) and you must consider therefore what these candidates represent. I find that candidates of Mr. Crerar in Ontario do not bother much with the platform, but argue that farmers should stick together."

7 p.m.—"The Unknown God."

You are invited to the Pastor's Bible Class at 10 a.m.

NO COLLECTION BEN WILSON, Pastor.

To The Lib
of East Lambton

As one who has always given the Liberal Party in East Lambton consistent support; who has taken part in many political campaigns, and who is now upholding the principles of Liberalism, I would respectfully ask all Liberals to use their vote and influence to elect B. W. Fansher, to represent East Lambton in the next parliament.

I make this appeal in the interests of agriculture—the foundation of all permanent prosperity in Canada.

D. WHYTE.
Forest, Oct. 17th, 1925.

PRINCIPLE NOT PARTY
The Montreal Witness, a non-political journal, had an editorial last week reading as follows:—
"If those of liberal mind in Canada are sincere in their desire to keep protection from winning the day they will follow the example of Durham and North Simcoe. In the former the Progressives, after interviewing Mr. Massey, decided to support the new Liberal cabinet Minister. In the latter the Liberals, after interviewing Mr. Drury, decided to support the former Ontario premier, the Progressive candidate. This is as it should be. The chief hope of the protectionists is that their opponents may neutralize one another's efforts. The clearheaded voter has therefore the responsibility not only of voting for a candidate who upholds the principles in which he believes but of doing his best not to have to use his vote in defeating those principles."

An association for the propagation of English pheasants throughout that district has been formed at Milton. It was explained that these birds were not liberated solely for the sake of sportsmen, but for the benefit of gardeners and farmers, as the birds are great foragers.

Dahlia sugar, of one and a half times the sweetness of ordinary beet or cane sugar, is being manufactured from dahlia bulbs. It is estimated that from twenty to twenty-five tons of dahlia bulbs can be grown to the acre in California, whereas sugar beets average about fifteen tons.
