MIXED FARMING IN BEAR RIVER

R. M. K.

It is quite probable that no section of the province of Nova Scotia is so well situated and justified for successful mixed farming as the Bear River valley...

About four years ago Mr. Alfred Porter left St. John, N. B., and came to Bear River seeking health and retirement...

Mr. Porter has made quite a successful venture in poultry raising. Last year he kept in his poultry house and run, about seventy birds...

Mr. Porter came to Bear River a novice in every branch of the new enterprise, but he brought to his farm from commercial life, an intelligent system of bookkeeping...

In addition to the quite considerable weekly remittance of eggs and poultry to his St. John Club, Mr. Porter also sends supplies of Jersey butter and an occasional porker...

It would be well worth while for many of our enterprising young farmers to call upon Mr. Porter, who would willingly show them how poultry houses and runs can be kept sweet and tidy...

THE PROFIT OF GOD

Mr. Hyde, a well known business man of Wichita, Kansas, has given the following testimony in "The Missionary Review of the World."

One of the greatest mistakes that ministers make to day is in their ministry to the rich. Nine times out of ten a man of wealth, when well along in life, has learned that material investments are not satisfying...

Since I learned the lesson of stewardship I have made it my business to seek opportunities for doing God's work, and always try to have something on hand for emergencies. Many opportunities are offered to me

to make material investments, but I always have one answer to all: "My friends, I have a better investment than you can offer to me if you search the whole world over." They usually open their eyes and wonder what that is, so that I get an opportunity to preach the Gospel to them. I have had some wonderful experiences. It is a pleasure to help when men are on their knees praying that God will in some way further His work in which they are interested. I generally give away about thirty per cent of my net income. These are the only investments I have made that really make me happy.
