

Presbyterian Review.

THURSDAY, NOVEMBER 7, 1889.

"The Presbyterian Review" has the largest circulation of any of the Presbyterian newspapers in Canada.

In ordering goods, or in making inquiry concerning anything advertised in this paper you will oblige the publishers, as well as the advertiser, by stating that you saw the advertisement in the PRESBYTERIAN REVIEW.

Copies of the "REVIEW" may be had at the Office of Publication or at the Presbyterian Book Room, corner of Adelaide and Toronto Sts., on Wednesday afternoon.

REV. J. MCD. DUNCAN, of Knox College, has been called by the congregations of Becton and Tottenham.

THE new church at Tamworth is now completed, and is a very handsome structure, built of stone and brick, with seating capacity for 700 persons.

"THE Use and Abuse of the Tongue" was the subject of a lecture recently delivered in Moosejow, N.W.T., by Rev. P. J. Perry, of Indian Head.

REV. H. NOKKIS, of Glenallen, is recovering from a protracted illness, and hopes to be able to resume his pulpit duties about the 1st prox.

THE re-opening services in connection with Rockwood church were conducted on Sabbath, October 27th, by Rev. Prof. MacLaren, of Knox College.

THE anniversary of the induction of Rev. Robt. Haddow, B.A., into the pastorate of Knox church, Milton, will be held on the 24th and 25th inst.

REV. DR. ROBERTSON, Superintendent of Missions, Manitoba and N.W., has been addressing meetings in Prince Edward Island, in connection with the Home Mission work.

MISS MOORE, who has for some years led the choir in Keen church, was, on the eve of her marriage presented with a gold watch and chain accompanied by an address.

ST. ANDREW'S Church Institute, Ottawa, which has done much valuable work for the young people of the congregation in the past, has been re-organized for the coming season.

PRIOR to his leaving this city for Campbellford, Rev. Mark Scott was presented by the congregation of St. Mark's Mission with an address, accompanied by a handsome piece of plate and a purse of \$100.

THE late Senator Turner, of Hamilton, was a member and trustee of McNab-street church from the date of its establishment. For some time before his death he was the only survivor of the original trustees board.

BURNS church, Erin, which has for some time been undergoing renovation, was reopened October 27th, Rev. Alex. Gilray, of Toronto, preaching morning and evening to large audiences; the pastor, Rev. R. Fowle, assisting in conducting the services.

MR. MAGNUS FLEIT, who died at his residence, South Dumfries, on Oct. 6th, was one of those who took an active part in the formation of Knox church, Ayr, and was one of the original body of elders in that congregation. Mr. Fleit was born in the parish of Evie, Orkney, Scotland.

ON the arrival of Rev. David and Mrs. Flemming from their wedding trip to Halifax, they were tendered a very warm welcome by the members and adherents of St. Andrew's, Ayr, by Rev. W. M. Scott, of the residence of Mr. W. M. Scott, where the house was thrown open for the occasion.

MR. ALEXANDER MCKINNON, for eighteen years a worthy elder of the Mount Pleasant congregation, in connection with Cheltenham, died on the 14th September, at the age of fifty-five. During thirteen of these years he filled the office of Sabbath school superintendent with much acceptance.

ON the eve of the departure of Mr. Malcolm C. MacLennan, student of Knox College, from Puce, where he had been labouring as a missionary during the summer, the Young People's Association of the congregation entertained him at a farewell social, and presented him with an address and a purse of money.

THE anniversary services in connection with the church, Brockville Presbyterian, were preached by Rev. Dr. Ross, of Queen's University, and Rev. W. A. McKenzie, Brockville. The social gathering was held on the following Monday, when the pastor, Rev. David Fleming, presided, and a most enjoyable time was spent.

THE following from the Lindsay Post deserves to be widely read: "Two weeks ago Rev. Robert Johnston, B.A., pastor of St. Andrew's church, Lindsay, at the close of a powerful sermon on the grace, honesty, privilege and blessing of giving for the support of missions, expressed the wish that the congregation would contribute one thousand dollars for the Schemes of the Church during the year commencing October 1st. An opportunity has been given to the people for a fortnight to say what they would do. The response has been so full and hearty that the reverend gentleman was able to announce last Sunday that more than the amount mentioned would be forthcoming. We understand the congregation have thus undertaken to more than double the contributions of preceding years for the same purposes. St. Andrew's has shown great liberality in various ways in recent years, but the most sanguine were scarcely prepared for such a stride so early in the ministry of their devoted and able pastor."

MR. WM. MORTIMER CLARK delivered a lecture on "Egypt" last Friday evening, under the auspices of the Young People's Association of Knox Church, city. Mr. W. B. McMurrich, the Honorary President, occupied the chair. The story of the trip to the land of the Pharaohs, which was told in a simple, eloquent style, was listened to with interest by young and old, and greatly appreciated by all. From the different points touched by the English steamer were drawn instructive and interesting facts. The principal points of interest to the traveller in Egypt were all presented in a delightfully graphic manner by the lecturer, and illustrated with a fine collection

tion of dissolving views, showing the magnificently solid architecture of ancient Egypt. The lecture was so vivid in the purchase of a new carpet for one of the parlours of the church, and it would be quite within the mark to say that such a lecture, properly appreciated, should easily be the means of carpeting all the churches in this city of churches. Mr. Clark has consented to give another lecture on the subject this season.—Globe.

REV. MR. LAIRD, missionary to the Cree Indians at Fort Pelly, has recently visited Ontario. While in this city he had an interview with the Executive of the W.F.M.S. respecting his work. He also visited London and received a hearty welcome from St. Andrew's congregation. The Free Press says of his visit: "Rev. Mr. Laird has organized a healthy little congregation, and every year shows a gratifying addition of names to the roll of communicants. Mr. Laird's salary of \$500 is paid by the St. Andrew's church congregation of this city, and his successful work is highly appreciated by them. Mr. and Mrs. Laird have been spending a couple of weeks of a holiday in this city, and being about to depart for their parlor home were tendered a parting social by the congregation in the school room last night. There was a splendid attendance, and the programme was in all respects an excellent and entertaining one. Rev. J. A. Murray presided. At the close, Rev. Mr. Laird spoke, expressing his warm appreciation of the entertainment, and hoped there would be an excursion up to Fort Pelly next summer, when he might have the pleasure of greeting a crowd of St. Andrew's people, and showing them what life on the prairie was like."

Minard's Liniment Cures Colds, etc.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. Royal Baking Powder Co., 108 Wall Street, New York.

WANTED.

An Instructor in Laundry Work and an Assistant Cook, for Victoria Industrial School. Salary of each, \$12.50 per month, increasing to \$15 after six months satisfactory service. Only a woman of superior intelligence, kind and patient, yet firm and possessed of the true missionary spirit, will suit. Ministers or other friends knowing of such will confer a favour by addressing immediately.

The Toronto Electric Light Co.

Introduction of a New and Perfect System of Incandescent Electric Lighting. Recognizing the prejudice that has arisen against systems of electric lighting which employ currents of extremely high tension (not that they are in themselves undesirable, but that the public mind is kept in a state of agitation against them by interested opponents of low-tension systems), the electricians of the Toronto Electric Light Co., set themselves to work to devise a system which should be less cumbersome and costly than the straight incandescent, and at the same time free from the objection which may be urged against the high tension, alternating or unalternating current systems. This they have succeeded admirably in doing, by combining the best features of the two. By employing a very low tension in the primary wires of an alternating system, so low as to be handled entirely without danger, and the use of compensating devices in the converters, we are enabled to supply to the consumer lamps requiring an electro-motive force of only forty five volts, or less than half that required by the Edison system. As the lamps require to be but half the resistance, they allow over double the current to pass through them, and consequently produce a whiter and steadier light. This system will be known hereafter as the "Low-Tension Alternating Compensator System of the Toronto Electric Light Co." Using an initial tension of between three and four hundred volts, which is not in the slightest degree dangerous to handle, but which, before reaching the premises of the consumer, is reduced to a pressure of forty five volts, a tension which could not be perceived by the most sensitive.

Apparatus now being constructed will be put in operation in a week or two. In the meantime, it would be wise for intending consumers to sign no contracts in advance, but wait until the lights they bargain for are to be seen. At any point in a district of a half mile radius from the junction of King and Yonge these lights will be supplied at a price which will compete with the price of gas, and a current as cheap as low tension cannot possibly be distributed over a much greater area than that mentioned. It is the intention of the Company to build supplementary stations, each with its half mile radius, to extend the system until it covers the entire city.

In the meantime, the beautiful series incandescent lights of this Company, such as are to be seen in operation on King and Yonge streets, will continue to be supplied, but may be replaced by the new light at the option of the consumer.

We are essentially a home Company. We do not send your money out of the city for the benefit of an American concern, but employ Toronto artisans and workmen in the building of our steam machinery and electric plant. Our force of machinists and electricians are working night and day to supply the demand for increased lighting facilities, both city and commercial, so that we ask the indulgence of our patrons if there is any delay in supplying their wants. We could purchase machinery abroad, but are unwilling that foreign capital should receive the benefit of work which by right our own citizens are entitled to.

We do not ask you to give us a contract to supply you with light before you see it. We want you to see for yourselves what it is. Therefore, we say, make no contracts for any kind of light until it is in operation, and you can see it and judge of its advantages. The Toronto Electric Light Co., Kingston, foot of Scott Street. J. J. WRIGHT, Manager.
