

7 Reasons why Papoid is superior to Pepsin.

1. DIGESTIVE POWER

"In other words, Papoid possesses the combined powers of the Salivary, Gastric, and Pancreatic ferments." (KILMER.—Paper read before New Jersey Pharmaceutical Association.)

2. ACTS THROUGHOUT ENTIRE ALIMENTARY CANAL

"An additional advantage of Papoid (in diphtheria) is that it helps Nature to digest what ever food there may be in the alimentary canal."

(Love, Prof. Clinical Medicine and Diseases of Children, Marion Sims College Medicine, St. Louis.)

3. STIMULATES NATURAL DIGESTION

"Pepsin often relieves a present difficulty; but Papoid, in addition, places the stomach in condition to digest the next meal. It is far better to make the stomach do its own work. Pepsin makes the stomach lazy; Papoid does not."

(LARRABEE.—Prof. Hospital College of Medicine, Louisville, Ky.)

4. ACTS IN ACID, ALKALINE OR NEUTRAL MEDIA

"But much more convenient than this will be found the dusting of a minute portion of Papoid beneath the protective strips. This succeeds well, because Papoid acts best in a concentrated medium of any reaction whatever, Pepsin only in a dilute acid solution."

(MORRIS, on Leg Ulcers, read before Philadelphia County Medical Society.)

5. ACTS ON ALL KINDS OF FOOD. CAN BE COMBINED WITH ANTISEPTICS

"The physiological actions of Papoid as a digestive agent have been thoroughly established. It acts upon albuminoids, hydrating them and converting them into peptones. Converts starch with great promptness, the ultimate product being maltose. Its emulsifies Fats. An important point is, it can be given in conjunction with true antiseptics, even corrosive sublimate in dilute solutions does not interfere with its digestive powers."

(WOODBURY, Prof. Clinical Medicine, Medico Chirurgical College, Philadelphia, Pa.)

6. ACTS IN THE INTESTINES

"I have accomplished more with Papoid than I was ever able to accomplish with the best Pepsin on the market. Papoid does especially well in gastro-intestinal catarrh and colitis."

(DIXON, Prest. Kentucky State Medical Society.)

7. COSTS LESS

AVERAGE DOSE OF PEPsin IS ABOUT 5 GRAINS.	1 DOSE OF PEPsin COSTS \$0.0143
" " PAPOID BEING 1 GRAIN.	1 " PAPOID " \$0.0125
