## Duncan, Flockhart & Co's Capsules

### Formate Comp. (No. 342)

**R** Sodium Formate, 3 Grs.

Potass	"	3	"
Calcium	"	3	"
Quinine	"	1	"
Strych.	"	1-60	"

**DOSE**—One or two Capsules three times a day, followed by a copious drink of water.

### A Powerful Muscular Tonic

In compact form and suitable for prescribing as a general and powerful Muscular Tonic, Capsules of the Formates are extremely convenient. These Capsules contain in addition to usual Salts of the Formates, 1 grain Quinine Formate and 1-60 grain Strychnine Formate. This form of administering the Formates is largely in vogue for increasing tone in those who go in for physical exertion, such as athletes and men actively engaged, who are severely run down; and not suffering from any illness, but require a sharp tonic. Also useful in the treatment of Chronic Rheumatism.

### Hypophosphites (No. 252)

This Capsule Strictly Represents  
*Syr. Hypophos (Duncan)*

**R** Calcium Hypophos. 1 Gr.

Sodium	"	1/2	Gr.
Potass	"	1/2	Gr.
Calcium	"	1/2	Gr.
Quin.	"	1/2	Gr.
Strych.	"	1-60	"

In each Dracm. (Each Capsule equivalent to 60 minims.)

**A PERFECT NERVE TONIC**, extremely useful in cases of debility and malnutrition, especially when associated with anemia.

Of great assistance in treatment of general exhaustion, especially that brought on by over strain, anxiety, etc., and an excellent reconstructive tonic in recovery from Typhoid, Enteric, Malarial and other fevers. It is also a valuable agent in treatment of Pulmonary and other types of Tuberculosis.

Samples on request.

May be ordered through all Retail Druggists.
