A LADY writes us she would not be without Minard's Liniment if it cost \$20 a bottle, for in cases of diphtheria, croup, and asthma, when the patient is almost dead for want of breath, and a remedy is required to act instantly; it can't be beat, and costs only 25 cents

Etherington's Adjustable Spring Bed.

The Spring Bed consists entirely of
STEEL SPIRAL SPRINGS,

which lock on the slats of a common bedstead; making a most **DESIRABLE BED WITH BUT A SINGLE MATTRESS,** thus a saving in the price of bedding. They are the best laying, the most easy, most comfortable, most elastic, the cleanest and the easiest cleaned, the best ventilated (therefore the most healthy), the most durable, the cheapest and the easiest repaired. Most adjustable, as it fits all bedsteads without regard to width or length, and is perfectly noiseless. It can be packed in a trunk 18 inches square, so the most portable; no hiding place for vermin, no sagging to the centre; no slats to become bent and remaining so, but can be adjusted to the unequal weights of the occupants, permitting them to lie on the same level. On all points of merit we solicit comparison with any other Bed in the market.

All orders by mail will receive prompt attention.
