Cardinal Franzoni was born at Genoa on not improbably be selected, and would in that case be only the second Englishman that has ever held the Papal dignity.

Great agitation continues to prevail in different parts of this country, especially in the Papal States, and it is to be feared that outbreaks will take place.

IBRAHIM PASHA .- This prince, eldest son of the reigning Pasha of Egypt, arrived in England on the 5th of June, and was received with the honours usually paid to royalty. A variety of arrangements were made to render his stay in England interesting and gratifying: military reviews, inspecting of vessels and dock-yards, presenting of addresses, &c. It is painful to mention that these attentions have not been unattended with profanation of the Lord's day. If the parties who violated their Christian duty to accommodate this Mohammedan had respected their own religious profession more. His Highness would carry with him a higher respect for them as professing Christians. The Pasha had been to Birmingham and Manchester, evincing great interest and intelligence in viewing the mechanical wonders there brought before his eyes.

THE GRAND DUKE CONSTANTINE OF RUSSIA. vice admiral in the Imperial navy, arrived at Portsmouth on the 9th of June, in the ship Ingermanland, and was received, like the Egyptian Prince, with the honours due to his rank.

BRAZIL -- A Rio Janeiro journal speaks of a proicct of establishing a transatlantic communication between Liverpool and Para, by means of steam ; from which latter place it is intended that poats of less steam power and dimensions shall ascend the river of the Amazons, as far as Bolivia; while a railway shall cross the country to Arica, on the Southem Sea.

REVOLUTION IN MEXICO. - From New Orleans we have the announcement that another revolution has occurred in this country, in the department of Jalisco, commencing in the City of Guahaxara; and that the insurgents have been completely successful. The Government troops being taken by surprise, proposed a parley and were allowed to retire to the city of Mexico. Don Jose Maria Tanez was at the head of the insurrection.

A formal Act was drawn up, proclaiming Santa Anna as their Chief, and that a new Congress should be elected by the people in conformity to the Electoral Laws of 1824, and a new constitution in which the monarchical principle is to be excluded. It also provides that Congress should meet four

months after the liberating army shall gain possession of the Capital. Don Juan Camplido is recognized as Provisional

Governor of the Department.

Conswall, C. W .- It is but a few weeks since we recorded that a schooner laden with flour, had heen wrecked near this place. Another, we are sorry to say, having on board 6,500 bushels of wheat was wrecked at the same place, three or four days ago. The wheat was sold for the benefit of the Insurance Company. The average selling price was 18 3d per bushel. The spot so fatal to craft is about 3 miles above this, and is designated "Crab Island." The "Island" does not now exist, but some of our octogenarians recollect the time that it did exist. The water now covers it, and the current foams over the rocky bottom with great strength. Rafts have frequently been detained there for days.

- Cornwall Observer. The same paper states that the British Queen, a new steamer built at Port Metcalfe, for the river route, in connection with the American Lake hoats has made a trip to Lachine, commanded by Capt. Chamberlain, formerly of the Chieftain.

MONTREAL, JUNE 26th .- Some American speculators are now engaged in transporting a steamer bodily over land from Lake Michigan to Lake Superior. The vessel is the Julia Palmer, and the cost of the undertaking is \$3,000, which has been advanced by the Mining Companies.

the Provincial Geologist, has gone up to Lake Su- million pounds sterling." perior to examine the mining region .- Courier.

LORD METCALTE. -- We are informed that letters were received last mail from a gentleman formerly in the suite of Lord Metcalfe, which state that his Lordship's maludy is daily increasing. We fear that the gloomy doubts concerning that respected nobleman, are about to be realized, and that within two or three mails, the papers will have the melan-choly duty of recording his death.— Times.

LAKE ST. PETER .- Montreal journals state that Government have determined not to proceed further this season with the deepening of the Lake, and that a requisition has been forwarded to the Home authorities, to the effect that Cant. Bayfield, R. N. should be directed to examine the old and new channel, and to report on their comparative merits.

LACHINE CANAL. - The Government is also about to effect a very important reform in the tolls of this Canal. The down tolls are to be reduced to such a rate as to make it the interest of all vessels to descend the canal, instead of shooting the rapids, by which so much life and property are at present endangered. It is calculated that a moderate accession of revenue, as well as a great convenience to com-

merce, will be the result. LACHINE .- Col. Wilgress and eighty of the residents of Lachine, have presented an address to Licut. Gray, of the Royal Canadian Rifles, on the occasion of the detachment being removed from that village to Isle Aux Noix. The Rifles have been

quartered at Lachine for nineteen months, and have gained golden opinions from the inhabitants for their great propriety of conduct.

MILITARY DEPENCES OF THE PROVINCE .- From several newspapers which profess to have information on the subject, it is to be gathered that very extensive works are in contemplation, in addition to those already in progress, as at this citadel and at Kingston. The amount of ordnance and military stores which has been received by the Burnhopeside and the Hirundo seems to confirm the information given. Some of the heavy guns weigh 66 and 72 cwt. each i and shot corresponding with their size, besides smaller fire-arms down to cavalry carbines on an improved principle, with clothing and munition have been imported in large quantities. Works have been commenced on the island of St. Helen's,

"The prospects of war are happily now much more distant than they were when these were despatched, but the determination of the home government is most strongly evinced that no mere brute force shall subject us to the domination of the republic; and that, should the Province be invaded, its commerce shall be protected and its inhabitants spared the evils of an armed occupation, however temporary, of their territory as much as possible. In short, that, as long as we wish to remain faithful subjects of the Crown of England, its whole strength shall be put forth in our defence if need be."-Montreal Gazette.

CONFLAGRATION AT ST. John's, N. F .- Below will be found particulars of the very distressing calamity which the Providence of God has allowed to visit the city of St. John's; the confirmation of which we had just time to announce in our last number. The case of the sufferers calls for the active sympathy of all their fellow Christians; and we are sure that the inhabitants of Quebec, who know by their own experience the miseries to which the citizens of St. John's are now exposed, and who were so munificently relieved by the contributions of their friends at home and abroad, will not be backward in giving substantial proof of their sympathy with the sufferers on the present occasion. The handsome sum of £600 was received from the citizens of St. Johns as their contribution to the distress of Quebec: what ought Quebec to do?

"The fire commenced at half-past eight o'clock, on Tuesday morning, the 12th of June, in George'sstreet, off Queen's-street, in a room occupied as a dwelling, above the cabinet-maker's shop of Mr Hamlin, and raged till 7 o'clock in the evening, by which time the destruction was complete. It ex-tended rapidly into Queen's-street and Waterstreet, consuming everything in its progress, all the intermediate buildings, oil vats, wharves, &c., as far as Messrs. Newman's. Here its ravages to the westward were stopped. From Warren's premises it took all the buildings to the eastward, making a clear sweep of wharves, vats, &c. The house of E. N. Stabb was blown up in an attempt to stop the fire, in doing which one artilleryman was killed, and another severely wounded. Queen's-street and

Duckworth-street are destroyed.
"In the vats of J. & N. Kent, was the fat of 25,000 seals. The Catholic Church, and Episcopal residence in rear of Duckworth-street, were saved. St. John's Church, the Cathedral Church of England, burnt to the ground. The Court House, Jail, and all the buildings by which they were surrounded, are consumed-also the Commercial Rooms, Marine Insurance Office, Agricultural Society's Museum, Bank of British N. America. The Congregational Chapel saved-Ordnance Store burnt, but the rest of the Chairman of a public meeting held at Montreal the building saved. The Nunnery School House on the 4th instant, which passed resolutions for enand Nunnery burnt. Every Printing-office burnt, but part of the materials saved. Five or six thousand persons had to pass the night of that dreadful day, in the open air, in front of the Government House. A meeting of the citizens had been called, and measures taken to afford as much relief to the dependent population as the calamity had left in year, were intended to be appropriated to aid persons their power. Provisions were scarce. It was ascertained that there was four thousand bags of bread, and three thousand barrels of flour, in the merchants' hands-and His Excellency had issued a proclamation prohibiting the exportation of proisions, or the erection of buildings, until after the meeling of the Assembly. Fortunately for the portion of the balance on hand, to the relief of the merchants, though some of them have lost to a sufferers at St. John's, Newfoundland, would give very large amount, most of their outport importations had been made, for which they will receive returns in the Fall.

"The churches and public buildings which the fire had spared, were being hastily fitted up to shelter those who had been rendered houseless. The only mercantile establishment in St. John's, now standing, is that of Messrs. Newman & Co. All the rest are destroyed.

"A meeting of the Legislature was held on the fire at St. John's, N. F. The Lake Superior Mining Company, organized 16th, at 3 o'clock, P. RELIEF COMMITTEE .- At the stated Meeting held on Monday last, the Treasurer showed a balance in his hands of £45,164, 12. 5. of which sum £10,000 was deposited bearing interest at 3 per ct. A remittance of a barrel of flour and a box of clothing from Cornwall, C. W., announced.

The following resolution was passed: "That the proceedings of the Sub-Committee of Distribution, in regard to the passing and payment of certain cases ordered to be suspended, require investigation, and that a Special Committee be named to inquire into and report upon the same." Special Committee of five was named and appointed.

Several members of the General Committee were added to the Sub-Committee of Distribution. In pursuance of a notice which had been given at the previous meeting the following resolutions

were proposed by Dr. Fisher, seconded by Mr. Bon-"That the Chairman of this committee be requested to address, without delay, to the Mayor of St. John's, N. F., a letter of sympathy and condolence with the great loss and distress sustained by the Inhabitants of that city in consequence of the disastrous fire which occurred on the 9th June last; and that the Chairman be authorised to remit, at the

subscribed by the Inhabitatits in aid of the sufferers by fire at Quebec in May and Jone 1845."

"That whereas this Committee in the exercise of its discretion has reserved the sum of £15000 to be distributed as a premium to certain Proprietors who have rebuilt their houses in brick and stone and also the sum of £10,000 for cases of special subscribed and voted in aid of the sufferers by fire at Quebec in May and June 1845, was predicated on the fact that all urgent cases of distress amongst the last mentioned sufferers have been relieved or greatly mitigated-and whereas news has been received of a most disastrous fire which occurred at St. John's N. F. the 9th instant :

"Resolved,-That the Chairman of the Committee be requested to communicate with His Excellency the Covernor General, by the next mail, with the London Committee, and any other Committee with which this Committee has been in corresponstence, requesting their consent that a portion of the Quebec Relief Fund, not exceeding £5000, may be remitted to the Mayor or authorities of St. John's, N. F., in aid of the distress and destitution of the sufferers by fire in that city-and that the Chairman do request an immediate answer to the application above."

An amendment, to the effect that the £600 re-ferred to in the above be invested in provisions, to be sent forthwith to St. John's, was negatived and the following, moved by Mr. D. Ross, and seconded by Mr. Chauveau, was carried by the

division subjoined: "That the Members of the General Committee for the Relief of the Sufferers by the two Fires at Quebec, in the months of May and June last, strongly sympathise with the inhabitants of the city of St. John, Newfoundland, upon the recent calamitous destruction of their city by fire; and that moreover the inhabitants of Quebec owe a deep debt of gratitude to the citizens of St. John for their prompt and munificent contribution in aid of the sufferers at Quebec in the time of their need. But that inasmuch as the monies entrusted to this Committee for distribution, including those from the now unfortunate inhabitants of St. John, have been placed in our hands for a specific purpose, and have become the property of the sufferers, this Committee regrets that it is not in their power to divert them from that purpose. But that the Committee strongly recommend that a public meeting of the inhabitants of this city be called without delay, in order to adopt measures for raising an immediate contribution for the relief of the citizens of St John's."

AYES .- His Lordship the Bishop of Sidyme; the Revs. J. H. Belleisle, A. Parant, J. Langevin Messrs. Chanveau, P. Gingras, jr., E. Glack emeyer, C. Gethings, J. B. Frechette, jr., D. Ross, J. Legaré, L. T. Baillarge, J. Tourangeau-13 Navs.-Dr. Fisher, Sheriff Sewell, Messrs. Le-

RELIEF TO THE SUFFERERS AT ST. JOHN'S N. F .- In the course of the proceedings of the Relief Committee just detailed, a letter was read from ergetic measures to obtain and forward relief to the sufferers at St. John's; one of which resolutions was officially transmitted to the Quebec Relief Committee, and read as follows:,-" That in the opinion of this meeting, the subscriptions raised in this city for the relief of the sufferers by the fires at Quebec last in actual distress and that object having been long since fulfilled, and a large balance still remaining in the hands of the Relief Committee, this meeting feel warranted in suggesting to the Committee a Quebec, on behalf of the Montreal subscribers to the relief fund, that the application of the whole or any general satisfaction to the community."

The Committee having decided against the course here suggested by adopting Mr. Ross's motion, it to be hoped that the citizens of Quebec will liberally respond to the call which is to be made ipon them through means of a MEETING called by the Mayor of Quebec, to be held this day at 2 o'clock P. M. at the City Hall, for the purpose of taking measures for the relief of the sufferers by the late

Capt. W. could not make out the name of the vessel but discovered the word "Quebec" on her stern, which was probably the port from whence she sailed .- Herald.

June 22 .- Suspicious VESSEL .- Capt. Kelly, of the schr Mazeppa, on her homeward voyage, in lat 28 long 66, 40, fell in with a vossel of suspicious appearance. She was a long black looking schooner of about 150 tons burthen, with tall raking masts, low hull and high rails. During the day, Capt K. saw her board two brigs, one bound south and, the other northeast. He lost sight of her at dark, about 6 miles to windward, lying alongside of one of the brigs; and to Capt. K's surprise, about an hour afterwards, she came within a few yards of the Mazeppa and kept under her stern upwards of two hours, and then sailed off in an easterly direction. in consequence of which no persons will be allowed same time, to the Mayor of St. John's, the sum of to person was seen on her decks, and Capt. K. is of to go upon it without an order from the Ordnance 2600, being an amount equal to that so promptly opinion that she was a pirate, and thinks he escaped
