Secretary.

PAYMENTS RECEIVED .- Messrs. Geo. Hall, Montreal, No. 148 to 199; C. Poston, Jun., No. 183 to 208; Men's Library, R. B. No. 188 to 214.

To Correspondents .- Received J. D ;-W. M;--II. J. G. S. B. A. &c. will proceed to their destination this day.

Local and Political Entelligence.

THE CHOLERA .- This dreadful scourge is again making its appearance in different parts of Europe and Asia. Its approach is creating alarm with those who have watched its progress from the plains of Scinde towards Western Europe. About eighteen months since it ravaged the banks of the Indus with frightful severity, inflicting serious loss upon the British troops at Kurrachee and Hyderabad. About the same time it spread in Affghanistan from thence into Persia, which it traversed from east to west, spreading to the north-ward into Tartary, and southwardly into Turkish Kurdistan, and the pachalic of Bagdad. Early in the present year it made its ap-pearance to the west of the Caucasian mountains. and committed great ravages in the Russian army acting against the Circassians; and we just now its reappearance in Enrope, having broken out at Taganrog Marianopolis, and other ports on the westerly shore of the Sea of Azof, Kief, Smolensk, Riga, Tifflis, Karis Kontais, and Trebizond. Great alarm is felt at Warsaw, where the authorities were preparing hospitais. On board the Peninsular and Oriental Company's steamer Sultan, Captain Brooks, on his late voyage from Trehizond to Con-stantinople, several cases had broken out, in consequence of which she had been ordered by the health authorities at the latter port, to Prince's Island to ride out her quarantine of ten days. The Tiger will therefore be despatched to Multa in her stead, to carry home the India (bulky) mails and passengers. As in its former progress towards Europe, in the years 1830 and 1831, the general course of the pestilence has been nearly the north-west; and it seems, so far, to have travelled at about the same rate as on that accasion. In 1831, it made its appearance on the shores of the Baltie (at Riga. Dantand Memel) in the month of Way, at Vienna add Berlin in August, at Hamburg in October, and reached England in the beginning of November.
We regret to state that the accounts from Berlin

and Frankfort announce the rapid approach of the Cholera in Poland.

THE CRICKET steam ferry-boat, which used to ply at half-penny fares on the river Thames short distances along the metropolis, caused dreadful loss of life and injury by an explosion of her boiler in the month before last, which brought on a Coroner's inquest, terminating in a verdict of manslaughter against the Engineer who had the regulation of the boat, and who exposed the crowds of persons constantly availing themselves of this cheap mode of conveyance to the awful danger which he must have known his mode of working the boat to in-

New BRUSSWICK .- The last arrivals from the sister Province bring accounts of a deliberate murder committed at Madawaska by an old and infirm man of the name of Welch, by shooting Douglas Balloch, a young man who accompanied the Deputy Sheriff in the execution of a search-warrant obtained from a magistrate by the owner of some oxen which Welch was improperly detaining.

Woodstock.-The present peaceable state of Woodstock has led to the withdrawal of the troops from that village .- St John, N. B., Loyalist.

Post Orrice.-It appears from the following extract from a despatch addressed by the Governor General to the Lieutenant Governor of Nova Scotia, under date August 28, 1817, that we may hope measures will be matured for the early transfer of the British North American Post Office to the Colonial authorities: "You will observe, from the tenor of the document herewith enclosed, that Her Majesty's Ministers are prepared to surrender to the Provincial authorities the control of the Post-Office Department, as soon as, by concert between the several Legislatures, arrangements shall be matured for securing to British North America the advantages of an efficient and uniform Post-Office

wystem.
With a view to the more speedy attainment of an object to which the inhabitants of these Provinres attach much importance, it appears to me to be desirable that one or two Members of each of the Executive Councils of Canada, Nova Scotia, New Brunswick, and Prince Edward's Island, should meet at Montreal, where the subject may be fully discussed, and a plan matured for submission to the

"Should it be in the power of Your Excellency, and of the Lientenant Governors of New Brunswick and Prince Edward's Island, to act on this suggestion, I shall be prepared to appoint one or two Commissioners on behalf of the Council of Canada, to confer with those from the other Provinces on the arrival of the latter in this place."

The Montreal Courier says : " We understand that three new offices have been recently created, and persons appointed to them by the Postmaster-General at home. The situations we allude to are Surveyors Clerks, whose emoluments, we are told, will amount to between £100 and £500 a year. Two of the offices are to be filled by gentlemen from England, the other by a son of the Deputy Postmaster-General here.?

GREAT WESTERN RAILBOAD.—The ceremony of "breaking ground" on entering upon this great and promising undertaking took place at the thriving Western Metropolis of London, on Saturday the 23d ulto. Shops and places of business generally were closed at noon, a procession was formed at the Court House and walked to the spot selected for the purpose, where a wide space had been cleared. and stands creeted for the accommodation of the guests and spectators. The number present has been estimated at from 3500 to 5000. The Hon. J. II. Goodius opened the proceedings by an address in which he contrasted the present state and prospects of the country with those of former days. Colonel Tarbor, the founder of the district, then took the spade and cut the first sods, amidst the cheers of the people and the thundering of artillery. | Hospitals in the Province.

After several other addresses, the procession was formed again and walked back to town, where it broke up. In the course of a speech made at a large public dinner given in the evening of the same day, Sir Allan McNah stated the encouraging fact that £250,000 stock were held in England by good constituents, and able to pay up the money, and who had actually paid five per cent. on their shares, that is the sum of £12,500. He expressed his conviction that no Government could stand which would not support this Railroad, and he had no hesitation in saying they must do it. Making reference to the time, twenty years ago, when he and a party forced their way through from Hamilton to London to open a court, on which occasion it was with difficulty they procured a shed, the property of the Hon. J. H. Goodhue, to make their headquarters, the speaker remarked upon the astonishing change apparent at this early day, to those who viewed the splendid edifices erected in the town of London.

INQUEST AT KINGSTON.—An inquest was held on Monday 25th ult. in the Penitentiary, upon the body of one of the convicts who, in a state of insanity, had committed spicide. The name of the deceased man was John Murphy. Towards the latter end of August] symptom of insanity were exhibited, an attempt having been made by him to stab his keeper with a shoemaker's knife. He was confined to his cell, and the case reported to the government, but strange to say, the Warden's representation was un-answered, and the man suffered to remain in that state! This is another instance to show the negleet by the Executive of this great and important public institution.

We do not know whether in the investigation the Coroner felt himself called upon to trace the cause of insanity, but this, it seems to us, is a matter of too much interest to be entirely overlooked. It is a question intimately connected with that of the operation of the positioniary system. The suitableness of the contrary of that system can only be traved in the aggregation of facts showing its effects, physically and morally, upon those subjected to its influence, and cases such as that now reported strike us as affording legitimate occasions or instituting inquiries which may in their result add to the general store of knowledge upon the interesting question of prison discipline .- Chron. &

COMMUTATION OF SENTENCE. - The Sheriff received this morning a commutation from the Seat of Government, informing him that his Excellency the Governor General had been pleased to commute the soutence of death passed upon Timethy Burke and Mary Burke at the last Assizes to imprisonment in the Penitentiary for life .- Chron. & News, 30th

THE LATE MURBER IN GREEFINTOWN.-The Coroner's Jury on the body of Roberts have returned a verdict of Wilful Marder against James Carroll, a brickmaker, who is stated to have made a confession of his having committed the crime, to Ablerman Tully, in private, but afterwards denied all knowledge of the murder.

FREE TRADE IN BREAD. -Old things seem to be becoming new. The judgment of the Court of Queen's Bench, confirming the decision of a Justice of the Peace referred to in an extract from the Mercury, it appears, is to be published. The Ordinance of 1777, in so far at least as regards the assize of bread, we believe was repealed by act of the Provincial Parliament more than twenty years ago; at least it was so understood by the Magistrates, who discontinued the assize; since which time, the Bakers have been left to the said other tree trade, in common with Butchers and other tradesment turnishing necessary and indispensable articles, fully as difficult to be furnished in families as bread. To London the assize, from an experience of its abuses, had been abolished before it was done away with in Quebec and Montreal.

There is a natural contest between the buyer and the seller, to which even Magistrates may not always be indifferent. When the public authority Law, in force in this country.

The freedom of buying and selling was one of the greatest advantages brought to this country by Under the French the British Government. Government they had gone the length of fixing the price of agricultural produce, sending into the country to take it, and there was a regulation prohibiting any body from buying or selling in the mar-kets till certain parties could be conveniently provided for.

The absolute freedom of buying and selling is indispensable for the enjoyment, by every one, of the fruit of his labour. Deception and swindling are provided against, by law; and in countries where the laws are just, and well and judiciously executed, they are respected .- Quebec Gazette.

The November Term of the Court of Appeal opened yesterday (Tuesday). The Judges presents were—the Hon. Sir James Stuart, Chief Justice, the Hon. Messrs. Panet, Bowen and Bedard. The Montreal Judges did not arrive till yesterday afternoon, the steamer having been detained by fog. Mr. Justice Gairdner, from the district of St. Francis, has been in town since last week .- Morn.

RESISTANCE AGAINST THE LAW. The party which went out last week to St. Joseph La Beauce, supported by a military detachment, to apprehend the persons who had violently resisted the Sheriff and officers in the execution of their duty, returned to town without having effected their object; being unable to find the offenders, who are said to have taken refuge in the woods.

DISSOLUTION OF THE PROVINCIAL PARLIAMENT is spoken of in the papers—to take place in a month

or two. THE CONVICTIONS at the late Court of Quarter Sessions were eleven, mostly larceny, sentenced to different periods of imprisonment; one assault; one for resisting a Justice of the Peace in the execution of his duty; one for uttering counterfeit coin-3 years Penitentiary.

THE WEATHER has become wet, and the streets and roads are in a very bad state for crossing and travelling. The arrival of the mail-steamers has been much delayed; the Western mail, due yesterday, has not arrived at the Post Office at the time we are writing.

HIS ENCELLENCY SIR BENJAMIN D'URBAN, Commander of the Forces, arrived in town with his Aides-de-Camp on Tuesday, to inspect the troops in garrison.

APPOINTMENT.-Ilis Excellency the Governor General has been pleased to appoint Joseph Cary, Esq., Deputy Inspector General of Public Accounts, to receive all Monies and Effects of Emigrants who are sick, or who have died at the different Emigrant

The Lord Ashburton, from Liverpool, arrived at Grosse Isle on Saturday, bringing a general cargo, and a number of passengers, which was 477 when she sailed from her port. She lost upwards of a hundred of the emigrants, and several of her crew on the passage, and had more than fifty sick when she arrived. The steamer Alliance went down for the passengers, to take them up to Montreal : several deaths took place on board of her before she had passed this port.

When the period is taken into consideration at which these unfortunate beings embarked at Liverpool, it is unaccountable how such a transaction could take place: what notion of human life have those who were parties to their embarkation-after all the accounts which have been sent home of the disastrous results of the earlier shipments this year to arrive here just at the setting in of winter, even if the lives of the whole had been spared, of which there could hardly be entertained a reasonable expectation, by those acquainted with the description of emigrants that they were. It must be hoped that the extravagance of the transaction will be brought to bear upon the minds of the home authorities, to induce them to adopt measures which shall prevent the recurrence of cases, which seem to be equalled only by those heart-rending details of the nature of " the middle-passage" which bore so strongly upon the minds of Britons as to allow of no further delay to the abolition of the slave-trade.

Two more passenger-vessels are to arrive.

Surpring News .- Arrived among others. Schr. Ste Croix, Bernier, Halifax, sugar and rum 5 passengers.
