**CAN WE CURE CONSUMPTION ?**

**READ THE EVIDENCE BELOW**

We have just such testimonials of similar cases cured from various sections embracing the whole civilized world

They are on fyle right here at our Main Office

**TUBERCULAR CONSUMPTION**

DE LA SALLE INSTITUTE, Corner George and Duke Streets,  
TORONTO, February 19, 1891.

RADAM'S MICROBE KILLER CO., TORONTO.

GENTLEMEN,—I have been using your Microbe Killer, with simply wonderful results, since last July. At that time I was very badly run down from consumption; I could hardly speak five words at a time without severe coughing spells, and so weak that it was with difficulty I walked about the house. Previous to commencing the use of Microbe Killer, I had exhausted all other means to obtain a cure, or even relief, and my doctor said I could not be cured. It was then that Radam's Microbe Killer was brought to my notice and being counselled to try its merits, I finally consented to do so, although but with little hope. It is now about six months since first taking the Microbe Killer, and the results have shown my lungs growing stronger continually, am troubled very little now with coughing, and then in the morning only; my appetite, which I had entirely lost, is and has been splendid for several months now; and whereas formerly I always had coughing spells continually at night, I now sleep very soundly and no coughing occurs to interrupt sleep. I have also gained so much in strength that I have been able to attend to my duties here at the Institute regularly of late; and can take long walks and other exercise without much fatigue whatever. I can safely recommend the Microbe Killer as a boon for consumptives if they will but exercise a little patience and give it time to work. I remain, yours truly,  
BRO. NEOPOLUS.

**N.B.—At the present time, July, '91, Brother Neopolus stands entirely cured, and able to attend to all his duties in connection with this Institute of learning, as a teacher. The above facts will be vouched for by all the Brothers residing there.**

A well-known Catholic clergyman, of Toronto, whose name can be furnished to anyone desiring it, has given us permission to refer sufferers from Bronchitis or other Lung Troubles to him, should they desire it, as Microbe Killer has done more for him than all else together.

**"Procrastination is the thief of time;" It is also the main cause for the loss of life from disease.** If your physician cannot produce living evidence of having cured just such cases as yours, previous, with his method of treatment, then do not allow experiments in your case at perhaps **the cost of your life.**

**There is no haphazard involved with the use of "Radam's Microbe Killer" if you will but give it half the chance you would to your physician.**
