### VAPITAL AND LABOUR.

8

MATCHI DAUNALES CALIFICATI

Capital is simply the savings of previous labour and is useful in sustaining present and future 10 10 1 2 PCA labour.

Capital, therefore, is produced by labour. Labour is simply toilsome work, which is generally performed under the direction of bosses or task-masters, and is rewarded by drafts on the fruits of previous labour or Capital. Labour, therefore, is sustained by Capital. Capital and Labour are inter-dependants The custodians of Capital may abuse their posltion and grind the faces of labourers; and, labourers may form trades-unions and organize strikes; but, labour and capital will not quarrel any more than a man will quartel with his meals. Cheapeide be lieves in paying labour handsomely, as no country can be prosperous without well paid labourers.

Q. M. O. & O. BY.

Our manager who went to Otiawa last week, in connection with the new daily project, writes us from the Capital in sulogistic language concerning the above line : - " The trip up to Ottawa on the new line, the Quebec, Montreal, Ottawa and Occidental, was a most pleasant one. As an evidence of the popularity of the new route, I may montion that the Mile End Depot was thronged by passengers waiting for the train, and the greatest bustle and business stir reigned all round. Every one speaks of the great advantage the public derives from this line, whether regarded from a pleasure or a business standpoint, and the courteous demeanour of the officials connected with it, are the subject of general praise and commont. Messra. Kearney and Williams are indefatiguable in their endeavours to make the passengers comfortable. There is a great feeling of security to passengers travelling on the new road, at least so I experienced on my trip up, this may be owing to the substantial appearance of the cars, their easy and almost noiseless motion, and the considua-ness that they are running on steel rails. The motion of the care was so slight that I could read with facility, excepting on that part of the road between Papineauville and Ottawa, which I believe is not perfectly ballasted. In running over this part of the road however, speed is slackened to ensure safety. The bridges along the route are neat iron structures that do not obstruct the view of the rivers and rapids that are passed over There is no doubt but that this line will give a stimilus to the progress of commerce along its route. I was agreeably surprised to notice the lively appearance at all the stations, which by the way, are neat buildings, gotten up in the most approved style. There is not much news to send you from the Capital, Parliament is to meet on the 7th prox., the Hotels and boarding houses are accordingly making ready their accommodations The Rev'd. Fathers Dowd and Hearne of Montreal are in town and stopping at O'Meara's Hotel, they came up on the same train as I did. we passed some

portion of the time in pleasant conversation."

As it was generally understood that his successor would be an English speaking gentleman, the English speaking Ca-tholics of this part of the Province, who are not represented in the Canadian Lords, asked Mr. Mackenzie to name one of their creed to fill the vacancy. What think you did this Liberal Scotchman do but appoint one of his own Protestant kin to replace a French Canadian Catholic as the representative of a Senatorial division, ninc-tenths of which is Catholic, and about one-tenth Irish Catholics. Will you, Mr. Editor, as the ctampion of our rights, see that justice be done us, as several other vacancies
