The present aspect of financial affairs not only in this city, but throughout the country is more favorable than for a considerable time Notes maturing at the banks this past. month are being satisfactorily met, and there is an increased demand for accommodation. especially at the bank agencies throughout the country, and at slightly advanced rates ; 7 per cent is now about the lowest figure, at which good commercial paper is discounted, and for some lines 8 per cent is charged,

Money is loaned on call at 6 per cent, and nominal at \$4.82 for long-dated, and \$4.84 for short-dated bills.

For the suspended bank bills brokers seem inclined to ease off a little in the rates rewere worth 95 to 971, and occasionally 98c on solidated, 90c to 921c ; Ville Marie, 90c to 91c, and Mechanics' are seldom, if ever, taken now at over 25c. THE FARMERS' MARKETS.

Retail Prices at Bonsecours and St. Anns September 9.

Despite the wet weather of yesterday, which interfered considerably with the gathering of fruits and vegetables, there was a large supply of farm and garden produce on the various city markets this morning, some habitants from a distance having taken up the most advantageous positions as early as one and two o'clock in the morning. Market gardeners admit that never before have they had such abundant yields, and the only trouble is to find a demand for the supplies. Quebec, having a later season, has taken large quantites of stuff, but this state of things cannot be expected to last much longer. Montreal nutmeg and mush melons are in great favor with the citizens of the ancient capital, as the records of the Quebec steamer continue to show. The " Duchess of Aldenberg" is the title of a new apple, which growers are placing on the markets this season for the first time. It resembles the on time at 6 to 7 per cent. Sterling exchange striped St. Lawrence somewhat in appearance, in this market is quiet at 81 for round but is considered superior even to the cele-amounts of 60-day bills between banks, and brated Montreal peach apple, as it is better brated Montreal peach apple, as it is better 87 to customers. In New York the rates rule | flavored, and will bear more handling. For this reason it will probably grow in favor with shippers. Blueberries are not quite so plentiful, and shipments from the Saguenay will begin to fall off considerably by the middle of cently paid. To-day Exchauge bank bills the month. Between 700 and 800 boxes came up on this morning's boat and sold at the dollar for a large amount was paid Con- | from 50c to 70c per box. Plums, peaches and tomatoes are plentiful and cheap, and a large business is being done in these fruits. Vegetables of all kinds were rarely offered at such low rates, as our annexed list will show. Snipe, plover and partridge are now in season.

Meats, poultry, fish, &c., unchanged. The following are the prices, corrected up

on the first day of the week. The offerings were 200 head of small sized grass cattle, 600 sheep and good sized lambs and a few calves and hogs. One hundred of the cattle were from St. Gabriel market. The local butchers were present in force and bidding became quite brisk, so that by two o'clock every horn and hoof had disappeared, leaving dealers con-tented and happy, and at leisure to depart to their country homes. The prices of cattle ranged from 21c to 4c while lambs were sold at from \$1.75 to 2.75. The few fine fat sheep on the market were bought up for shipment at from 3]c to 4c per 1b, live weight. There was not much demand for store hogs, which were worth from \$3 to 6 each. The offerings to-day, (Tuesday) were 60 head of cattle, and between 200 and 300 sheep. The enquiry was not so good as yesterday but the same prices were asked and generally obtained. A few milch cows were on offer, but without exciting much demand. They ranged from \$20 to \$35 each. Calves from S2 to S6.

Montreal Fuel Market

WEDNESDAY, Sept. 3.

Since the date of our last weekly reference to the coal trade, a good steady business is reported to have been done in the different kinds of hard coal, chiefly for domestic use, in this market. Of course nearly all the largest orders usually given bave been filled, and very little, if any, change is expected in the course of trade here between this and next Christmas; still some of our largest dealers have reported a few fairly large orders, re-cently received. We heard of a sale of some 300 tons of Plymoth red ash, made yesterday at \$540 per gross ton. The receipts of anthracite coal from New York state have considerably increased, and it is estimated that over 3,000 tons have arrived at this port since last Monday. According to the official statement there were 503,791 tons of anthracite coal at the tide shipping points at the end of July, as against 432,167 tons on June 30th last. The retail prices for it at Boston are \$425 to 4.75 per ton. Scotch steam coal sells slowly in this market at \$3.40 to 3.50 for cargoes, without cartage charges. There is not a great deal of lower port steam coal coming forward just now, as the demand for it is very limited; what has arrived has been chiefly to supply contracts previously made. Cargo lots of lower port coal have been sold at prices about 15c to 25c per ton below those for Scotch steam. The total sales of Pictou coal to the 16th August last amounted to 164,231 tons. Prices for all kinds here are nominally unchanged.

Liverpool Provision Market.

[From Hodgson Bros.' Market Report, August

23rd.] BACON has met with a steady demand, and holders have been able to show a little firmer disposition. We quote Staffordshire, Stretford, and Birmingham cuts at 27s to 33s; Irish cut, 26s 6d to 27s 6d; Yorkshire, 27s to 30s; Cumberland, 26s to 30s; clear bellies, 27s to 31s; rib-in bellies, 27e to 29s 6d; short middles, rib-in, 27s to 29s; long middles, rib-in, has been well enquired after at 31s to 35s 6d; Wiltshire cut, singed, 33s to 35s; scalded, 30s to 33s. Shoulders, 21s 6d to 23s. Long and short clear has been in fair demand on the spot at 26s to 27s 6d for long, and 26s 6d to 27s 6d for short.

HAMS.-There is scarcely any demand, and holders are very anxions sellers. The usual summer demand, which comes usually with summer weather, not having as yet put in an appearance, arrivals are liberal, and stocks are accumulating rapidly. Quotations for all excepting the few fancy brands are quite nominal. Sellers would be willing to accept a reduction if buyers offered. We quote medium to average quality of long cut, 30s to 42s; finest parcels, 44s to 46s asked, but few selling. Staffordshire cut are not so plentiful, and are saleable at 40s to 48s, according to quality. Short cut dull and difficult to sell quoted at 35s to 40s per cwt. There has been too great a difference in value lately between bacon and hams, and this is now being rectified.

CHEESE .--- There has been a dull market this week-all holders are anxious sellers-but buyers hold off, and the few operating are looking for finest, rich, clean flavored, and good conditioned goods, at 28s to 30s, and this quality is not easy to find at this sea-

The state of Trade. TUESDAY, Sept. 9.

The city wholesale trade is now more active in every branch than for a consid-erable time past. The movement is not as yet extensive, but the demand for fall goods generally bids fair already to be greater than for several years past. Better prices will also be obtainable than during former seasons. It only remains for both merchants and manufacturers to avoid the excesses of the past and prevent a repetition of the disease which has so stubbornly resisted treatment, and whose cure has been a matter of time and only brought about by natural causes. Supply must be regulated by demand, and over-trading and rash speculation can only lead to subsequent ruin, while prudence in avoidance of undue risk, and shortened credits both by wholesale and retail firms will, we trust, before long place the trade of the Dominion on a satisfactory basis.

Mr. M Carty also bought 13 hogs from P Brady at \$4.50 per cwt. It will be observed that prices for hogs were a little easier to day, in sympathy with the Chicago market, which is quoted lower.
