The threatened trouble between the Orangemen and National Leaguers, on the occasion of their rival meetings at Roseles, did not occur. Two large processions, headed by bands, marched and counterms rehed through the town, but all attempts to brieg them together, which were evident on the part of the leaders of both factions, were frustrated by the activity and determin. ation of the military and police. A few small rows occurred, however, in one of which the son of the proprietor of the Monaghan People's Advocate, a National League journal, was terribly beaten, and will dis from the effects of his injuries. The Orangemen finding the military force too strong abandoned their intention of attacking the Nationalists and

### DYNAMITE SCARE IN HALIFAX. ARREST OF TWO SUPPOSED FESIANS WITH A LABOR

ANOUNT OF EXPLOSIVES. HALIFAX, N.S., Oct. 17.-There was considerable excitement in the city this evening over the arrest of two men with a large quantity of dynamite in their possession. In May last the authorities here were informed that an attempt would probably be made by Fenians to destroy public property, and precautions were taken by the appointment of extra Police and other means to irustrate any such work. Nothing occurred, and the matter was laughed over. About a menth ago Lieut, Governor Bickey get a warning from Ottaws, informing him of the departure from New York for Halifax of a suspicious character, supposed to be con-nected with the dynamite branch of the Fenian Brotherhood. The detectives here were informed of the expected arrival, but nothing occurred to arouse their suspicions until a few days ago. Two men, giving their

The lock of one was broken, and on examining its contents a parcel covered with canvas, and containing a quantity of dynamite cartidges was found. Nothing further was done until to-day, when the city marshal with the detective and policeman went to the hotel. A cartridge was taken from the value and sont to a hardware store, where it was pronounced dynamite of a powerful nature

The marshal then ordered the arrest of the two men. The detective soon found James Holmes, and charged him with having dan-gerous explosives in his possession, which Holmes denied, and also that he had any friend rooming with him. He was taken to his room, wh re Power asked him what the packages in the valises were. He replied that he did not know, that they did not belong to him. Creelman, proprietor of the hotel, said the room was occupied by Holmes and his friend, and the valises were brought there by them. Holmes was then taken in charge, and the detective proceeded to Lower Water street, where he found Bracken in a bar-room. On being arrested he denied having any room mate at the Parker House or any dynamite there. He was also taken to the station. Holmes, when searched, was found to have two revolvers, both loaded; Holmes also had nine dynamice cartridges

purchased in the city, and about twelve dollars in money. No weapon was found on Bracken, but after his arrest the keeper of the bar in which he was arrested gave the police a revolver that had been left with him. Bracken had in his prokets a key opening one of the valises and ten dynamite cartridges. With the key found on Bracken the other trunk was opened and still more of the dangerous explosives found. In both of the valises also was a small round clock, stamped

" AMERICAN CLOCK CO."

A city watchmaker says that connected with them was machinery for causing explosions. One of the wespons found on Holmes, on being discharged at one end of a they stated they had no money, but placed their baggage as security for their board. After boarding there some days they said they had received a draft for \$100, paid their board regularly and remained about five weeks. They shortly afterwards turned up in a hearding house in Spring Gardens, where they stayed until about three weeks ago, when they disappeared. Both deny the charge against them, and claim the

Holmes looks about thirty years of age, and Bracken two or three years younger. The latter is of fair complexion, five feet eight inches high. Holmes is six feet high, dark and black moustache. Among the articles found on Holmes was a baggage check, which was presented at the railway station to-day, and for it was returned a parcel covered with canvas, stamped inside "Gregg & Co, New York," with a Boynton rubber swimming suit. Both men remain in custody.

## FINANGIAL.

TRUE WITKESS OFFICE, TUREDAY, Oct. 23, 1883.

At New York at 1.20 p.m stocks were irregular, but generally firmer than at the close last night. Northern Pacific common opened at 27%, and advanced 1 per cent, the preferred stock advanced from 611 to 621; Oregon & Trans-Continental opened at 421 and rose to 44. Canada Pacific sold up to 511; Manitoba to 105; Central Pacific to 64g, and Union Pacific to 89. Canada Southern opened at 50, going to 52 and then vanced to 76% and then backed down to 75%. Money 2} per cent.

At this morning's Stock Board there was not much activity, but prices were steadily maintained. It was known that several of the banks were likely to declare their halfyearly dividends during the day, and before the afternoon session, and consequestly matters were in a suspensive condition, There was some anxiety as to whether the Bank of Montreal might not reduce its dividend and pay four per cent instead of five. The stock of the leading bank was steady at 189, and Merchants Bank stock was higher. Peoples sold at 63. A small block of Federal was placed at 1473. An effort was made to "break" Telagraph, which failed. Passenger and Gas

were both stronger. The following half yearly dividends were declared-to-day: Bank of Montreal, 5 per cent; Federal, 5 per cent, and Banque Ville Marie, 3} per cent.

#### BANK DIVIDENDS TO DAY. MONTENAL, PROBRAL AND VILLE MARIE.

The banks have commenced to declare their fall dividends, which is the proper thing for them to-do at this season of the year. All this morning financiers throughout Canada were awaiting the result of the deliberations of the directors of the Bank of Montreal at the head office in this city. They declared a half-yearly dividend of 5 per cent, which makes 10 per cent for the year. The declaration to-day means a disbursement to the stockholders of \$600,000 for the half year's business, or \$1,260,000 for the year. The Federal bank directors at the head office in Teronto declared the large dividend of five per cent; last half year it was only three and a half per cent. The capital of the head was the large dividend of the per cent. this bank paid up is \$2,800,000, so that the shareholders get \$140,000 this hali year. Ville Marie came next to-day with a dividend of three and a half per cent, or an increase of a half per cent, making alx and a half per cent for the year.

#### COMMERCIAL. WEEKLY BEYIEW - WHOLESALE MARKETS.

Since our last, many dark clouds, which overspread the commercial horizon; have rotted away, and there is less uneasiness apparent. Business matters have not yet recovered their usual aspect, and it is clear enough that the winter will not pass over without trouble; however, for the time being, there is nothing serious to complain of. It is a pity that many mills will have to reduce their production and throw their skilled operatives out of work, but thus it must necessarily be, as we cannot, it is said, export our surplus goods to compete successfully in foreign markets with other countries. The crisis in the cotton trade is over with the arrangements entered into between the firm previously referred to, and its bank. ers. Good may spring out of the trouble, as the business will not be confined to one or wire will ignite a fuse at the other end, and thus explode any dynamits with which it would be connected. Holmes and Bracken were in this city early in July, and put up at Lower Water street hearding house where miles of Gande Davies the miles of Gande a Lower Water street boarding house, where mills of Canada. During the week there has been no market fluc-tuation in values that calls for special mention. More complaints over the manner of payments are heard, especially of the ap-parent difficulty with which some country of payments are heard, especially of the aptorishment difficulty with which some country lynx do, \$2 to 250; marten do, 750 to 900; storekeepers meet their obligations. Apart mink do, 750 to \$1; makerat do, 80 to 100; from this the commercial situation contains of the do, \$8 to 10; raccoon do, 400 to 500; no really unsatisfactory features. In dry goods the movement has been individually moderate, but, collectively, fair, but the property of trade in winter goods are satisfactory, and will doubtless take more definite shape as the weather becomes colder.

Boots and Shora .- The record of the boot and shoe trade shows a healthy development of business, and the fall output turns out much more satisfactory than was expected at its commencement. A feature of the trade this fall has been the development of the demand for felt boots, of which it is estimated some 300,000 pairs were sold this sesson, These have gone to replace the cowhide boot formerly used so extensively. This has diminished the demand for waxed upper in the leather market, which, in turn, may be held

Sugar.-The tone of the market for refined augar has cantinued strong, and buyers have to pay rather higher prices to secure their orders. Some large western buyers have been operating here and have cleaned out most of the supply available. Refiners are sold up very closely and have only a few hundred packages to offer. The local demand for all

ion, as prices have not yet been established. Among the first skins expected are beaver, bear, ofter, raccoon and skunk. Of course toe quality of the fors will depend a great deal upon the nature of the comics winter. Beaver is popular this season, and in brisk demand, which has resulted in a material advance in prices, the rise reported in our previous re-view being well sustained. We quote prices as follows, which, however, must be regarded more or less nominal for most kings:-Beaver per 1b, \$2 50 to 3 50; bear per skin, \$8 to 10; bear cub, \$4 to 5; fisher do \$4 to skunk do, 40c to 69c.

Hipes .- The hide market has been quiet during the week, although there has been more doing at the late decline, which was caused by the Quebec tauners maintaining a firm front in relusing to pay more than 80 per lb for No 1 inspected. The lower values of green butchers' bides have had a bad effect on foreign descriptions, Western States hides having been a dragging sale. We quote prices as follows: -Green butchers' hides, 70, 6: and 50 for Nos I, 2 and 3 respectively. Inspected hides are sold to tanners at 10 acvance upon the foregoing figures. Toronto hider, 820 to 90 No 1, and 80 to 840 No 2. Western green saited—No 1 buff, 90 to 940 No 2, 80 to 840. Dry saited, 1640 No 1, and 1440 No 2. Lambskins, 580 to 600; calf-

business, but it is sale to say that the high prices contracted last winter will not be repeated this year. Over 16,000 tons have been shipped from this port since the opening of navigation, and several shipments have yet to be made. Advices from Liver-pool are still anything but encouraging, and one of the best London firms cautions buyers here against paying high prices, as the agricultural outlook in England is for from being a bright one. We quote prices here at from \$14 50 to 16 50 per ton as to grade.

Oils. -The market has been quiet during the week, the only thing of importance being the advance in ood liver oil, previously mentioned prices being now up to \$1 60 to \$1 70. It is quoted at \$1 67 at point of shipment. We quote: — Linseed, bolled, per imperial gallon, 58 c to 60c, and raw 55c to 57c; clive, \$1 to \$1 05; cod, Newfoundland A, 60c to 62/c; Halifax, 5710 to 600; seal, refined steam, 700 to 7210; land, extra, 900 to \$1 00; do No 1, 750 to 800; cod liver, \$1 60 to \$1 70.

Hers.-There is a stand-off between buyers and growers, a dealer just returned from a tour through the Eastern Townships stating that farmers are all holding for 250, but 180 to 20c are the best figures bid. The Conadian crop this year, it is estimated, will be a good average as to quantity, owing to increased acreage, but the quality, judging from the samples already submitted, is below the average, and some of the most competent judges in the trade state that it will not be good enough for export.

Wood,-Considerable sales were made last week of Canadian wools to home manufacturers at within range of our quoted rates. In foreign wools very little has been done, the only sale we hear of being a lot of 3,000 lbs of scoured Cape at 48c. We quote: - Greasy Cape, 17c to 1910; Australian, 22c to 30c Canada pulled supers A, 300 to 320; do B, 240 to 26c; black, 24c; flesce, 22c.

Salt.—The market for coarse salt is firmer

and prices have an advancing tendency. We quote :- Coarse, 500 twelves, 550 elevens, and 600 tens; factory-filled is steady at \$1 30 to 1 50; Eureka, \$1 40, and Turks Island, 350 per bush. Pernousum.—The market rules steady at

the late advance, and quote prices as follows:
—Petroleum, refined; 70 to 171c in cars; in
broken lots, 171c to 171c, and in single barrels, 180 to 195.
