2,000 Sold this Season.

Several Hundred Unfilled Orders.

2,000

WILL BE MADE FOR 1884.

WILL BE MADE FOR 1884.

2,000

The Massey Harvester never fails to give satisfaction.

It has double the sale of any Reaper in Canada.

FACT.

It is a fact that the machines made by the Massey Manufacturing Company are immensely popular.

It is a fact that our aim is, and always has been, to produce the very best Farm Machinery of the times.

It is a fact that we have the best facilities for the manufacture of Reapers, Mowers, Binders and Horse Rakes of any makers in Canada.

FANCY.

"Bridget, what makes your master's socks such an awful color?" inquired Mrs. Goldeye of her help the other morning. "Color, mum?" "Yes, color! They are all brown at the toes." "Ah, sure, that's the coffee stains, me lady." "The what?" "Where I was just after straining the coffee through 'em. Shure ye needn't be lookin' at a poor crayture like that—it was before I put them in the wash I used 'em, an' bad luck to 'em!"

FUN.

Down in Tama County, last week a cat was born with two heads. It is lively and healthy, and can yowl with one mouth and waul with the other. If this breed of cats becomes common it will just set the millenium back about four thousand years.

A housekeeper asks: "What is the simplest way to keep jelly from moulding on top?" Shut a small boy up in the pantry for a few minutes.

— THE —

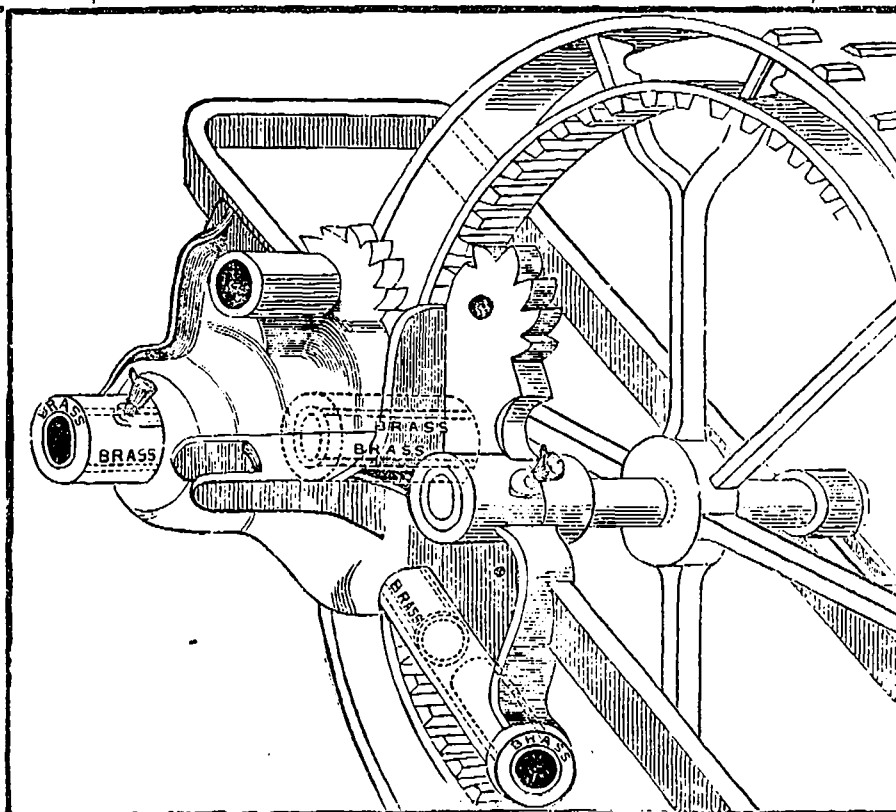

Massey Mfg. Co.

Business established 1847.

Incorporation of the Company 1870.

Removal to Toronto, 1879.

Purchase of Toronto Reaper and Mower Co.'s Business 1881.
