WINNIPEG, Feb'y 24, 1887.

Messrs. The E. & C. Gurney Co., Winnipeg.

DEAR SIRS,—I have much pleasure in stating that the Hot Water Heating Apparatus put into my house by you last spring has been most satisfactory in every way. Its capabilities have been thoroughly tested during the last two months, which have been the coldest months of the winter, the thermometer ranging from 30° to 40° below zero, and the result has been the most perfect comfort in every part of the house. I have had some experience by the various modes of heating in use in this Province, and I have no hesitation in saying that your Apparatus is, in my opinion, far ahead of any of the others I have known. Its special merits are: 1. Equable distribution of heat. 2. Absence of draught, dust and noise. 3. Economy of fuel. 4. Economy of time in attending to it, owing to its simplicity. Yours truly, D. A. McARTHUR.
