Growing from a small, part-time, enterprise, Cumberland County Knitters currently has over 100 home knitters supplying quality garments to stores from coast-to-coast in Canada, and throughout the United States.

Of particular interest to giftwares retailers will be our handicraft kits, which permit hobbyists to reproduce the outstanding finished products which have earned us wide recognition in the apparel market.

Amongst these products are handknit sweaters, hats, mittens, socks and legwarmers. Cumberland County Knitters can even show retailers' customers how to produce sweaters for their family dogs. For knitwear that is sure to please, turn to Cumberland for a head start.

Cutron Industries Inc. has become the leading Canadian manufacturer of plastic handled fashion flatware and accessory serving pieces for the tabletop market. Founded in the early 1970's, Cutron has an established reputation for quality and workmanship.

Only the finest materials are used in manufacturing this product line, including 18/8 stainless steel and polyester plastics. All items are dishwasher safe.

With modern buyers demanding superior quality and broader product and colour selections, Cutron's line is specifically tailored to meet these requirements. Our 65 standard colour options, combined with a custom colour program can satisfy all tastes.

Several new hostess serving items and fashion colours are added to the line each year. Inquire about our unique Plaza pattern featuring a contemporary style in numerous two-colour combinations. Cutron — with good taste in hand.

Contemporary consumers are certain to respond positively to quality fashion flatware and accessory serving items.
