

PART F

TITLE INDEX

This section is an alphabetically organized Title Index. Items listed in this section are the titles of the items examined in Parts A and B. Serial numbers corresponding to items listed in Parts A and B are listed after each title. United Nations Documents and other entries from Part A are indicated with "I" before the number (e.g., I-1). Scholarly articles are indicated by serial numbers between 601 and 809. Numbers in the 600 series refer to items published in 1996. Similarly, numbers in the 700 series indicate items published in 1997, and so on through the 800 series which represents items available in 1998. Thus, as with the Author and Keyword Indexes, the serial numbers allow the researcher to determine what type of item is listed, and in the case of scholarly items, the year the article/monograph appeared. For example, the following reference appears in the title index:
