

- 3) the implementation of joint projects related to the use of nuclear fuel in agriculture, industry, medicine and energy;
- 4) industrial co-operation between persons of the Parties;
- 5) the rendering of technical assistance;
- 6) the exploration for and development of uranium resources.

ARTICLE 3

1. The Parties shall encourage and facilitate co-operation between persons under their respective jurisdictions on matters within the scope of this Agreement.
2. Subject to the terms of this Agreement, persons under the jurisdiction of either Party may supply to or receive from persons under the jurisdiction of the other Party nuclear material, special non-nuclear material, equipment and technology, on commercial or other terms as may be agreed by the persons concerned.
3. Subject to the terms of this Agreement, persons under the jurisdiction of either Party may provide persons under the jurisdiction of the other Party with technical training in the application of nuclear energy for peaceful uses on commercial or other terms as may be agreed by the persons concerned.
4. The Parties shall make efforts to facilitate exchanges of experts, technical personnel and specialists in the course of activities under this Agreement.
5. The Parties shall take all precautions necessary to preserve the confidentiality of information, including commercial and industrial secrets, transferred between persons under their respective jurisdictions.
6. The Parties may collaborate on safety and regulatory aspects of the production of nuclear energy, subject to jointly determined terms and conditions.
7. The Parties shall not use the provisions of this Agreement to secure commercial advantage or to interfere with the commercial relations of the other Party.
8. Parties shall cooperate under this Agreement in accordance with the laws, regulations and policies of their respective jurisdictions.
