DEPARTMENT OF MINING ENGINEERING
MCGILL UNIVERSITY
MONTREAL

Feb. 19th. 1923

Sir Arthur Currie,
Principal McGill University.

Dear Sir Arthur:

I hand you with this a belated letter which arrived on Saturday from Professor Joshi. He asks me to see you and I shall be very glad to do so if you want me to come up, but I imagine it will suffice for me to say that Joshi impressed me as being well informed and very much in earnest and I think his lectures would benefit not only University students but also students of the affiliated Theological Colleges.

If it comes to a question of taking up a subscription to meet the expense of Joshi's lectures I should be very glad to do something, but my gift would of course be a mere drop in the bucket.

Very truly yours,

John Bonsall Porter
