

Now for the Outing Suit Season

WE have placed on sale for to-morrow several lines of two-piece outing suits, coats one-half lines of and full hip trousers, regularly priced at \$12.00, \$15.00, \$18.00, \$20.00 and \$22.00, to clear for \$8.50, \$11.00, \$12.00, \$15.00, \$16.00. These are all this spring's new fashions and are very smart, handsome suits. We find that our stock is much too heavy and must be reduced.

Combined with this sale we are clearing out one line of Men's Auto Dusters for \$2.79 that have been selling for \$4.50, splendid grass linen shade and strong material.

White Duck, Khaki and Outing Trousers of all kinds \$1.25 to \$6.50.
 Fancy Vests from 59c to \$6.50.
 Men's Silk Coats and thin clothing of the proper fabrics \$1.50 to \$10.00.

Be sure and see our splendid showing of Mohair Outing Suits, the finest of their kind in all Canada and the most comfortable summer suit you can possibly buy.

HAMILTON HAPPENINGS

WILL TRY TO EKE OUT CELEBRATION ON \$300

But if Anyone Wants To Contribute to Hamilton Coronation Fund It Will Not Be Spurned.

HAMILTON, June 8.—(Special.)—"I object to members of this committee being turned into professional mendicants," said A. T. Bratton to-night at a meeting of the coronation celebration committee in protesting against soliciting public subscriptions with which to buy prizes for the Coronation Day sports here. The suggestion to raise money in this way had been made when it was found that only \$300 was available for the sports program, and the sum was deemed insufficient. The members will be spared the stigma of mendicancy, as a finance and sports sub-committee was appointed, who were instructed to arrange a program on the \$300, unless voluntary subscriptions to the fund come in. It was decided, however, to let the public know that more money can be used than is now at the disposal of the committee. If any Hamilton or Toronto individuals or firms feel disposed to add to the fund, their contributions will not be spurned.

The resignation of John A. McKenry as secretary of the committee was received, with the explanation that Mr. McKenry was unable to properly fulfill the duties of the position on account of pressure of other work. The resignation was accepted and a vote of thanks tendered Mr. McKenry for his assistance. W. H. Childs was appointed secretary in his place.

Sympathy, But no Damages.
 Judge Snyder this afternoon non-suited the action of David Ritchie against Alex Stuart for \$200 for personal injuries. Ritchie was employed by Stuart in the construction of a building from which he fell and sustained injuries which rendered him unable to work for several weeks. Judge Snyder expressed commiseration with the plaintiff for his injuries, but decided that the defendant was not to blame.

Another conference over the question of moving the street railway and radial tracks along the inlet was held this morning before the board of control and the railway interests, represented by W. C. Hawkins and G. H. Levey. The city proposes to fill in the inlet one foot above water level, and asks the railway people to transfer their right tracks to the right of way to be filled in by the city. Mr. Hawkins agreed to submit the proposition to his company, but would make no promises as to what he would say in regard to it. The board of control this morning

heard the vigorous protest of George Lynch-Staunton, K.C., against the petition of residents of the southwestern part of the city to make that a purely residential section. Mr. Staunton represented a grocer who intends to build a store in the district. A by-law relating to the matter will be dealt with by the council on Monday night.

Damages for Malicious Prosecution.
 John C. Belback, who brought action against William and Joseph Strong for malicious prosecution, obtained judgment against the defendants in county court this afternoon for \$500 and costs. Belback was employed by the Stronges to grade some lots for them, and it was charged that he sold some surplus earth from the lots, which he had no right to do. He refused to pay for the earth, and at the instance of the defendants in this case, was arrested, but the action against him was dismissed.

For the alleged theft of money from W. Acres, Joseph Douglas, 31 Kings William-street, was arrested by Detective Sawyer this afternoon.

Ollie Hudson, Gibson-avenue, was arrested to-night, charged with aggravated assault.

UNIVERSITY GRADS LET LOOSE ON WORLD

President Falconer Intimates That Real Struggle is Only Just Beginning.

Backed with palms and evergreens and with Union Jacks entwined above the platform, convocation hall was an attractive spot last night. The graduating classes, many in academic regalia, occupied the rostrum, while the balconies were comfortably filled with members of the faculty, alumni and the general public.

Addresses were given by President Falconer and Dr. R. L. Gould of New York City. The latter also a number of violin selections given. But the most interesting event of the program of the evening was the address of the president, which had nearly all the earmarks of a banquet. The reception was given by the faculty, who were showered with complimentary remarks when the sandwiches and ice cream appeared on the scene.

President Falconer's address was one of encouragement and showed the world as university man and women among those who were just starting out from college halls into the real world. He urged every man and woman to set the standard of ideals in whatever community they might locate.

Dr. Gould of New York gave an interesting talk on life in general, and demonstrated the fact that he has a good fund of humor. He eulogized the efforts of the leading nations towards universal peace, and urged everybody present to interest themselves in public affairs.

Who has spent eight years of his life in Europe and thirty odd years in Canada, Dr. Gould's address was a Canadian parentage and birthplace, and regards Canada as the most thoroughly governed country in the world.

SLOCUM CO. ASSIGNS

HURTS TEACHER'S PURSES

Controller Hocken Forced Hand of Levee's Company—Levee Says He Has Been Persecuted.

As a result of the winding-up order filed in court by the Controller, Hocken, creditor, the Dr. T. A. Slocum Co., manufacturers of pronouncements, has assigned its business to the Slocum Co. The trials of this unhappy party medicine company, augmented by the publicity sense some responsibility that the affair had hurt Chairman Levee's business, were large sales of that damage to such an extent, had been done. Mr. Levee claims that he has been persecuted, and that he is ruined financially, although still maintaining his proud seat as chairman of the board.

The Trusts & Guarantee Co. have the affairs of the business in hand, and report that the business was sold at a stock right up to the day they took things in hand. They have not yet prepared a definite statement of assets and liabilities, however.

Many school teachers who had bought shares in the company will probably be bad losers. Chief Inspector Hughes will be especially hard hit, being the second largest shareholder.

Dr. Martell's Female Pills

Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

FEWER PASTORS OR BETTER REWARD

Continued From Page 1.

Mr. Allan said he would far rather see fewer ministers in the field receiving living salaries, and for them to cover smaller territories, than for the districts to be wide and scope and the living of the pastor also be spread out. He strongly advocated thoroughness in preference to scattering a few words here and there.

Must Clean Up Down Town.
 Rev. S. W. Falls delivered an address on "The Downtown Problem," and stated emphatically that before another great revival takes place the city streets have to be cleaned, the slums tidied up and preparations made for all citizens to enjoy fresh air. The he had never been in the dark spots of Toronto, and he was thoroughly convinced that odors arising from nearly every locality in this city is not a suburb of heaven. Conversion of the city, he said, was not the only mission of Christ. He came to teach men morals and how to live under sanitary conditions, not how to endure filth and sleep in hovels too small to turn around in, and that factories should be built in districts where fresh air is plentiful. He said that all residences should be detached and built with the idea of proper ventilation.

Stand by Wesley.
 At the morning session Rev. Dr. Carman, general superintendent, delivered a forceful address, advocating holding fast the Christian doctrines as proclaimed by John Wesley. He voiced his own standing in emphatic language and left an unmistakable impression of his time-proven convictions. He stated that at the time of his or-

Illegal Vegetables.

In France at the present time it is illegal to raise certain vegetables, such as celery, lettuce and other things which grow near the ground, upon sewage disposal lands, because of the supposition that poisonous germs being carried and introduced into the human system. Some experiments have been performed recently which have demonstrated the needlessness of this alarm. Microbes do not enter the body of the vegetable under any circumstances, although it is possible for them to be entrained along the stem and leaves, but this location does not seem to be very favorable to their lives. No evidences of typhoid or cholera were found, although a special search was made for such indications. Generally speaking, only the hardest germs, such as tetanus, were found, and there is no danger whatever in taking these into the system thru the stomach.

WEST—

The West is the book of the future. The West is the factory of the world. The West is the source of the world's supply of raw materials. The West is the land of opportunity. The West is the land of the future.
