Prices Are Easier, But Are Subject C. P. R. to Change on Evidence of Support.

World Office, Thursday Evening, April 25. The mining markets were apathetic today and largely in the hands of profes.i.n. al traders. Foster continued the active feature of the markets and traders sold the stock on the poor support which was accorded. The dealings in this issue overshadowed all the other transactions and the close was several points lower than the opening. The Count market has resolved litself into one of professional operations, and sales are conducted largely on the nervousness of present holders of the sectrities. The market for mining stocks was not strong to-day, in fact the reverse was not strong to-day, in fact the reverse was the case but the whole situation is so subject to change on sentiment that the current quorations are not representative of a stable position. Speculative traders are endeavoring to follow the trend of quotations, but these are liable to reverse their position at the first signs of strength. The markets on the whole closed easier, but this is liable to be reversed at the first sign of substantial purchases of the standard shares.

New Yeak Curbs day and largely in the hands of profes,i.n-

some two and three feet in width. These veins are carrying good values in copper suphides, as well as strong indications of gold and silver. The company have purchased from the Jenckes Machine Company a 85 horse-power boiler and steam holst, which will be installed immediately on arrival. It is also the intention of the company to install a steam or air drill as soon as possible. A meeting of the directors will be called shortly, when it is confidently expected that the stock will be advanced to \$1. Negotiations are being conducted with a firm of London trackers, with a view of selling a black of claims and stock. The president, T. H. Brooks, is at present in Toronto in the interests of the company.

SUMMER MINING CLASSES. Arrangements Made for Local School

Arrangements for the summer mining classes have been announced (subject to change) under the auspices of the Bureau of Mines. The instructors will be E. R. Ardagh of the local School of Practical Science, and Wyatt Malcolm, Hamitton. The subjects will be the elements of minecalogy, mineral "spotting," shaple geology and the usual practical work. The classes will be open to all and entirely free of charge.

The dates, as at present anticipated, are as follows: Bessemer (Farnum Iron Mine). May 13—18; Latchford, 21—25; Cobalt. May 27—June 1; Haileybury, June 3—8; New Liskeard, 10—15; Tomstown, 18—22; Larder Lake, 25—29; Giroux Lake, July 3—8; Kerr Lake, 9—13; Cobalt, 15—20; James Township, 23—27; Lady Evelyn Lake, 40—Aug. 3; Sturgeon Falls, Aug. 6—10. Arrangements for the summer mining

ORE TOO RICH.

Temiskaming. COBALT, Ont. April 25.—R. T. Sh'lington, president of the Temiskaming Mining Company, received a telegram to-day from the Copper Cliff Smelters, refising to treat their high grade ore on account of extraordinary high sliver values. They expressed a willingness to treat the second grade ore. Temiskaming Mining Company have a car ready for shipment which is expected to be the richest shipment made from the Cobalt camp. Experts express their opinion that the Temiskaming and Beaver Mines will be among the intrest producers

Beaver Consolidated—500 at 75. Donald, the mine superintendent of the Erie Cobalt Silver Mining Company, Inventor Claims That It Will Recover
All Minerals at Small Cost.

The smelter process discovered by a recent resident of Toronto is, according to runor, liable to revolutionize the whole smelter business. R. S. Market be a whole ment areas a single Cobalt Silver Mining Company, who arrived in the morning and proceeded to purchase some horses, machinery and other equipment for the property. Mr. McDonald was enthusiastic in his description of the progress being made in the camp, and declared that the active prosecution of develop-ment areas. that the active prosecution of development work had brought no unpleasan

of the operation is to be conducted at l'or reato on Friday. The invention is one of exceptional interest to Cobalt, as it is believed that all the low grade ores can be treated on the grounds at a small cost and that minerals for which po value has hither to been received will be recovered by this process. Exceptional interest was inken in this proposition around town last night and the outcome of the new process is awaited with interest.

Licenses for Copper Deposit. Greville & Co. in their market letter say:

The annual meeting of the White Pear Company is called for June 10, by which time the managing director stated to us vicibally that they will be able to show the shareholders the results of actual regular shipments of ore and the real profits thereon, and that as all floating liabilities will have been wined out the profits. will have been wiped out the profits on these shipments will belong to the share-holders. Meantime the board has acceded to the generally expressed wish of old shareholders to permit them to pay up their shares and make them all fully paid and non-assessable, and have therefore, called no the legal on the share for the share share and make the share sh

CAN INCREASE STOCK. Provincial Authorization to T. E. Le

asked for by the Toronto Electric Light Co. has been authorized by the provincial government. specting joint stock companies, which does not come into force until July 1. There will, therefore, be no conditions imposed on the stock issue of the Electric Light Co. beyond ordinary.

Following are the weekly shipments from Cobalt camp, and those from objections were withdrawn, as the issue will not affect civic intentions. 1,605,423

SCHEME IS IMPRACTICABLE. Fast Steamship Line May Not Go

MONTREAL, Que., April 25.—Sir Thomas Shaughnessy was asked if he had been invited to join the board of management of proposed fast steamship line between Blacksod Bay and Halifax, and replied that no such request had reached him, nor did he think it was likely to be made beause the promoters knew that he onsidered the scheme quite impracticable as a commercial steamship en-terprise. Neither he nor the Cana-dian Pacific Railway Co, would have R. A. Bonner, crown counsel in the grain exchange conspiracy cases, has withdrawn, and it was to-day neces-sary to adjourn the hearing until May 5. anything whatever to do with it.

CROWN COUNSEL WITHDRAWS.

VEIN INCREASES WITH DEPTH Favorable Developments Taking Place at Brooks-Hudson.

Work on the Brooks Hudson Silver Mining Company's properties is heing vizor-ously prosecuted, with favorable results as to promising indications of mineral. The veins, which on the surface only showed about 18 inches in width, have, at a depth of 28 and 32 feet respectively, enlarged to some two and three feet in width, These veins are corriging good values in comper

Of Interest to Miners and Investors

The North Ontario Reduction & Refining Company, Limited, who are installing a plant for the refining of Cobalt and other ores at Sturgeon Falls, have their buildings, including a laboratory and sampling plant, just about completed and have contracted for all their machinery, which will be installed as rapidly as possible. They expect to be ready to receive ore some time in June.

This is the first refining plant to be erected in the Province of Ontario, which should enable the Company to secure the bounty offered by the Ontario Government, which amounts to \$165,000 a year. This will pay thirty per cent. on the entire capital. In addition to the bounty, enormous profits made by refiners will enable the Company, with its low capitalization, to pay very large dividends.

We advise you to investigate this proposition. As a bona fide investment it has no equal. Prospectus and full information will be mailed on application to
