IMMIGRATION

The Subject Discussed in the House of Commons.

Difficulties in the Way of Work in Ireland -Mr. Preston's Appointment.

Ottawa, July 27.-After passing the Pacific cable bill through all its remaining stages, the loan companies bill, and several other government measures were advanced a stage, and the house went into supply, and the estimates for immigration were taken up. Late last night an energetic debate arose upon a motion by Mr. Ben-nett to reduce the item by the amount | proposed arbitration of any dispute, nett to reduce the item by the amount | England has invariably acceded. Why of the salary paid to Mr. W. T. R. Preston. The debate continued to a late hour.

The prime minister was not prepared to accept the wording of the preferential trade resolution suggested by Mr. McNeill, and promised to suggest a motion in the same direction, on which he would confer with Mr. McNeill. In the afternoon the item of immi-

gration was taken up, the expenses for traveling of immigration agents being explained by Mr. Sifton. Lieut.-Col. Hughes contended that Mr. T. O. Currie, who had been the Patron candidate in West Middlesex in 1896 and was now an immigration agent in the Western States, had sold his party and, therefore, should not have a government position.

Mr. Wilson complained that \$6,233 had been expended on the office in Dublin and \$2,388 on the office in Londonderry, while only nine immigrants were sent out from Ireland. Mr. Sifton admitted that the results had not been proportionate to the amount spent. The fact was that when Mr. Devlin was appointed and went over to Ireland he had met with strong opposition from the Nationalist press in that country. On different occasions the landlords had looked to immigration as the best outlet for the grievances of the people, but the Nationalists were

Drafting a Convention at The Hague-Score of People Poisoned by Canned Fruit-Serious Riot in a Poorhouse.

Madrid, July 27.-The discussion of the army bill in the senate yesterday led to an exciting scene. Gen. Weyler, arguing against any reduction in the strength of the army, warned the government that the present situation made a revolution highly probable, since it had never been so easy for the army and the people to make common cause. He himself, he said, had never formal adhesion to the arbitration thought of heading a rising, but it must convention on condition that Turkey's be confessed that a revolution sometimes cleared the political atmosphere and accomplished the work of regen-

Senor Dato, minister of the interior, replying, sharply censured Gen. Weyler, dectaring that a general who, with 300,000 men, had failed to suppress he Cuban rebellion, had no right to make such threats, and that any attempt at revolution, no matter by whom, would be proceeded against with the utmost rigor of the law. The senators warmly applauded Senor Dato's speech. The

army bill was adopted.

ANGLO-AMERICAN UNITY. London, July 27 .- United States Ambassador Choate, speaking at luncheon of the Staffordshire Agricultural Society show at Wolverhampton, said he believed that no question could ever arise between Great Britain and the United States to interrupt the constant peace which had held them together during the last 85 years. They would, he hoped, never leave each other in the lurch; and he expressed the belief that they would cultivate the same spirit of civilization, justice and freedom which is the real foundation of both governments.

CANNOT SACRIFICE CANADA. London, July 27 .- The Daily Mail, in rather strong editorial on the Alaskan boundary dispute, contends that the interpretation of the treaty is pre-eminently a matter for arbitration. "Yet," says the Daily Mail, "the United States declines to arbitrate, simply because the political pressure from the Pacific States is so strong that the president fears his re-election might be endan-gered if he took the just course. We would not be misunderstood. Canada asks no concession, but only for what she considers her own right, and she is so confident of her case that she is ready to go before any international Reciprocal concessions are tribunal. talked of, but why should Canada pay a high price for what seems to be her own? The United States have the reputation of being hard bargainers. That is all very well, and we have often made concessions to them, simply because we did not desire to quarrel over trifles, but here the vital inerests of Canada are concerned, and it must be clearly understood that we cannot sacrifice Canada. We want justice; and an open port or two is not justice."

UNSATISFACTORY. Pretoria, South Africa, July 26. -The new franchise law has been promulgated in the Gazette.*

Johannesburg, July 26.—A rumor is current here that the raad at first refused to accept President Kruger's resignation only by the chairman's casting vote. Anyway, the dynamite company appear to be alarmed at the apparent determination of the volksraad to cancel the monopoly, and have submitted to the government proposals for the reduction of the prices of dynamite gelatine. These are accom-panied, however, by certain stipulations, one being that the restrictions shall be dependent on the annual sale of \$250,000 cash. The volksraad adjourned today's session on the pro-posals. It is stated that the imperial ouncil at Pretoria has adopted the distribution proposal, giving the Witwatersand gold fields ten members in the volksraad, instead of four, and an additional six members for Klorekdorp, Heidelberg and Pettychison. An immense meeting of uitlanders gathered here, adopting resolutions denouncing the franchise law as wholly inadequate and demanding effective guarantees and a proper redistribution.

POISONED BY THE SCORE. London, July 27.-Much excitement has been caused here by the mysterious poisoning of a score of guests of the Inns of Court Hotel, which, it is alleged, was due to American canned fruit. A second victim, Mr. F. W. Bartlett, of Philadelphia, died during the night. The fruit was eaten a week ago, oposed to this, and tried to identify and all who partook of it were made Mr. Devlin with the landlords' move-ill, one of the number dying on July ment. An inquest will be held in the case of Mr. Bartlett. The Australian cricketers, who have been residing at the hotel, were happily absent when the fruit was served.

FORM OF CONVENTION. The Hague, July 27. - The drafting committee of the international peace conference has decided upon the form of a convention on the laws and customs of war and the adaptation of the Geneva convention to naval warfare, as well as a formula for accession to the arbitration scheme by nonsignatory powers. It is provided that the conventions will be fully signed by Saturday. Sir Julian Pauncefote, head of the British delegation, having demanded that the non-signatory powers be entitled to adhere to the arbitration convention only by the unanimous consent of the signatory powers, Count Nigra, head of the Italian delegation, proposed an amendment permitting such adhesion if no power opposed. It is expected that

the British foreign office will accept the amendment. In deference to Sir Julian Pauncefote, head of the British delegation, the Danish delegates consented that the reference to the landing of cables be struck out of the list contained in article 53 of the convention on the laws of war. Turkham Pasha, head of the Turkish delegation, made conformation thereto be purely opthe powers, including those forming gets \$30 a month, the dreibund, will sign the arbitration convention.

The police were summoned and were attacked by the rioters, and obliged to use their weapons in self-defense. Several of the rioters were seriously injured, but finally the ringleaders were arrested and

order was restored. WIRELESS TELEPHONE SYSTEM. London, July 27.-Dr. Peter Steins, a Russian, is in England introducing a system of wireless telephone, which, he says, he has invented. He says that it is as successful as the wire system, and that voices can be recognized at long distances. He proposes to experiment with his system between England and Belgium, and declares that it is feasible to use it between England and the United States.
