Took \$1,000,000 of Bonds to Compel Trust Company to Come to Terms.

New York, May 13.—Details of a confession made by Wm. O. Douglas, former loan clerk of the Trust Company of America, made public today, are to the effect that acting on the advice of a lawyer he planned to steal \$1,000,000 of securities in order to compel the trust company to conceal his minor thefts.

Douglas has already pleaded guilty to larceny and is awaiting sentence. According to his confession, he first took small quantities of bonds, and, borrowing money on them, lost it in speculation. When it was evident that he could not retrieve his losses, a lawyer was consulted, who advised that the only way out of the dilemma was to steal \$1,000,000 worth of securities, and turn them over to the lawyer, who might negotiate with the officials of the trust company for their return. Douglas understood that the lawyer expected to get \$200,000 from the trust company for the restorat. of the securities, which have been sufficient to cover the amount Douglas has already borrowed and lost.
