TUESDAY MORNING, MARCH 15, 1910.

## THE ATTACK ON TORONTO.

Toronto's street railway franchise is being attacked at Toronto and Ottawa. It is attacked by the Toronto Railway and its agents.

They have in their service the whip of the government party at Ottawa and the whips of both parties in the legislature.

The Toronto Railway seeks to get legislation (for the general advantage of Canada) at Ottawa, to run tubes under the city from the east and from the west.

At Toronto they seek to stop the city building tubes.

As far as the city hall is concerned, it is in the hands of the railways. Neither mayor nor controller is seized of the information that ought to go with the situation.

The city's legal department has been kept in an inefficient condition for months. Toronto has no expert traction advisor.

And yet the city gets hundreds of thousands of dollars a year in the way of percentages from the earnings of the railway, but a chiselled commission will not vote high-class salaries to high-class legal and traction advisors out of this income. Everything is let drift.

The Toronto Railway has got hold of the party organizers, has chloroformed the city hall, has got hold of the press, and not a few of the members.

And yet there are forty thousand citizens without any city street railway service, and over 300,000 citizens with a most inadequate service.

Mayor Geary has not made good. He is not concerned with the welfare of the citizens. He has made no move to get up the city's case in fighting a most unscrupulous enemy.

## MR. McPHERSON AND THE TELEGRAM.

The Evening Telegram in its usual anxiety to make points at the expense of The World, does not even take the pains to make itself acquainted with the facts supplied by its own reporters. Just why The Telegram desires to whitewash Mr. W. D. McPherson will doubtless appear later. Mr. McPherson played the street railway and radial railway companies' game in the legislative committee last Friday, and The Telegram truthfully reported the fact on Friday afternoon. We commend to The Telegram the following extracts from its own report:

Excessive zeal on the part of Mr. McPherson, the member for West Toronto, is blameworthy for the fact that the clause was killed instead of being sent to a sub-committee.

Mr. McPherson spoke several times. "You'll kill it, Mac," advised Mr. Frapp.

"He's killed it already," said Mr. Fisher, successful mission, lasting two weeks, was concluded in St. Joseph's Church. Rev. Fathers O'Reilly and Doyle, of the Redemptorists, Toronto, conducted the mission.

Mr. McPherson spoke several times. "You'll kill it, Mac," advised Mr. Frapp.

"He's killed it already," said Mr. Fisher, successful mission, lasting two weeks, was concluded in St. Joseph's Church. Rev. Fathers O'Reilly and Doyle, of the Redemptorists, Toronto, conducted the mission.

the responsibility involved. At this rate Toronto ought to have a man worth \$40,000. The idea that we can get a man fit for the position under \$15,000 or \$20,000 is too large for a council such as the citizens are pleased to elect. Perhaps the citizens will learn by-and-by that it is possible to be nickel and dime foolish. More is wasted by incompetent service than would pay for first-class men, and the resultant first-class service.

The petty-minded view that no man should have a salary as big as is necessary to get a really good man is largely responsible for the trouble. Where this idea comes from it is impossible to say. The skilled workmen of the trades unions certainly do not encourage it. They know that a man who is up to the standard will save his salary in a year. Very much the same might be said of the other departments at the city hall.

The practical cities in the United States are adopting the city commission plan of government. It means big men in charge of affairs, competent service, and real economy. Toronto prefers the cheap slave policy.

## POPULAR GOVERNMENT IN U.S.

In December last the local traction trust of Kansas City, Mo., spent a sum estimated at from a quarter to half a million dollars in the attempt to get an extension of its franchise. Fortunately for the city the proposal had to be submitted to a popular vote and was handsomely defeated. But there is very little doubt that had it been exclusively in the hands of the city council the extension worth many millions of dollars would have gone thru and the people left without redress. The incident has been extensively commented upon throughout the United States, and will materially aid the movement for more democratic civic government and for final control of franchise grants by popular vote.

Commenting recently on the Kansas Traction Company's action a Missouri newspaper says that "never perhaps in this country was there such an open, public, brazen attempt to corrupt the franchise of a whole city. The Metropolitan Street Railway Company with a franchise, and a liberal one, which has sixteen years yet to run, got a proposition thru a friendly city administration, submitted to a vote of the people, extending their franchise for 42 years, and then opened pay stations in downtown districts and hired men by the hundreds to 'work for the franchise.' Just the same old story repeated all over the United States and reproduced in the cities of Canada year after year. But in many places, and their number is always increasing, the people are now able to withhold their valuable franchises from exploitation.

In view of the failure of city councils in the United States to protect public interests and the remarkable success that has attended civic government by commission, that method continues steadily to grow in favor. Since Galveston established the precedent about ten years ago nearly all the large cities of Texas have adopted the plan. Among the number are Houston, Dallas, El Paso, San Antonio, Sherman, Palestine, Waco, Fort Worth, Austin, Denison, Greenville and Beaumont. The movement is also making rapid headway in Kansas, Tennessee, Iowa, Massachusetts, Oklahoma, California and the Dakotas.

## LOBBYING AGAINST THE CITY.

Mr. John Shaw's amendment to the city bill has the advantage of placing upon the traction companies the onus of proving the alleged rights which they make such a fuss about. If these rights are as patent as they seem to expect people to think, there will be no difficulty in proving them, and no hardship in asking that they be proved. We have considerable doubt about the existence of any such sweeping rights as the companies profess to own.

West Toronto came into the city on the express understanding that the residents of that district would be looked after in the matter of fast transit to and from the city centre. The annexation movement was followed by the movement for tubes. Mr. J. P. Watson, president of the board of directors last year, went into the question very fully, and had a report drawn up. That report was the basis of the scheme submitted to the people and accepted by the people. The principle of that report, as adopted by the people, is what should be embodied in legislation.

So far as anyone can discover, the companies have no insurmountable rights. If they had there would be much stronger protestations than have yet been heard from them. The weakness of their case they undertook to remedy by means of the usual corporate

trickery. The companies have no insurmountable rights. If they had there would be much stronger protestations than have yet been heard from them. The weakness of their case they undertook to remedy by means of the usual corporate

tion expedient. The lobby was given full play, was in full working order and at a high degree of efficiency. The two whips, Messrs. Preston and Bowman, were not working in the interest of the city. Perhaps The Telegram will permit us to say that they were very busy men the last night.

The Telegram would have us believe that the ruleless and incompetent member for the west riding of Toronto, seat "B," was guinea of the damage he was doing to the city's cause. We do not believe Mr. McPherson is a fool, but we do believe The Telegram report, which testifies to Mr. McPherson's activity, thru which he succeeded in having the city's clause rejected. If The Telegram prefers to think that Mr. McPherson was too simple to know what would be the result of his action, we will let it go at that, and pray heaven for wiser representatives.

Rev. W. E. Pescot says the pulpit should take its part in politics. Yet, but not partisan politics—there is a vital difference which the pastor-politician would do well to remember.

Either the city should provide more playgrounds or the bylaw prohibiting games on the streets should be modified by the exclusion of a sufficient number of side streets. Children must play, and it is foolish to make criminals by refusing free scope to a natural and healthy instinct.

Toronto offers a splendid opportunity to-day for men of capacity and business experience. A citizen with initiative courage and enthusiasm could become as much incorporated in its history as Joseph Chamberlain is in the annals of Birmingham. The hour is here, but where is the man?

Out of 1,975,548 immigrants that found their way to western Canada, more than one-third could not speak English. Yet, by the perpetuation of the chaotic spelling that so handicaps the acquisition of the English language, Canada is seriously hampering their assimilation and their acquisition of Canadian ideals of citizenship. All thru a stubborn prejudice that has no justification in reason or common sense.

The Times is the latest British newspaper to urge the immediate necessity of an imperial preference. In view of Canada's tariff negotiations with foreign countries. But one of the arguments for reversion to a protective system is that it will be a lever to secure reductions from other nations imposing high tariffs. Britain no more than Canada will consent to limit the freedom of action in this respect.

## CALLED TO ST. THOMAS.

Stratford Baptists May Lose Their Pastor—New Power Bylaw.

STRATFORD, March 14.—(Special.)—Rev. O. C. Elliott, pastor of the Baptist Church here, to-day received a call to the St. Thomas Baptist Church. Since the beginning of his pastorate here the church has made rapid strides. The light and heat commission gave the final touches to a bylaw for \$5,000 to provide a plant for distribution of Niagara power, to be obtained from the hydro-electric power commission. A similar bylaw for \$105,800 was voted down in January.

A very successful mission, lasting two weeks, was concluded in St. Joseph's Church. Rev. Fathers O'Reilly and Doyle, of the Redemptorists, Toronto, conducted the mission.

Mr. McPherson spoke several times. "You'll kill it, Mac," advised Mr. Frapp.

"He's killed it already," said Mr. Fisher, successful mission, lasting two weeks, was concluded in St. Joseph's Church. Rev. Fathers O'Reilly and Doyle, of the Redemptorists, Toronto, conducted the mission.

Mr. McPherson spoke several times. "You'll kill it, Mac," advised Mr. Frapp.

"He's killed it already," said Mr. Fisher, successful mission, lasting two weeks, was concluded in St. Joseph's Church. Rev. Fathers O'Reilly and Doyle, of the Redemptorists, Toronto, conducted the mission.

## CONTENTIOUS MEASURES WILL BE DECIDED TO-DAY

Legislature Cleared Up Many Bills Yesterday and Hopes to Be Ready for Prorogation by Wednesday.

Much work with little of general public interest was done yesterday's session of the legislature. A wide swath was cut in the order paper, especially in third readings. Twenty-three bills passed the final stage and await the assent of the lieutenant-governor.

The bills which were passed on the second reading were: one on the order paper left over being the Toronto bill, which the premier announced was not completed in the house.

A large number of bills were also passed thru the committee stage. T. Herbert Lennox, the Adams of North York, was the hero of a pleasing diversion which almost broke the British constitution and caused cold heads of perspiration to break out on the members of the mental custodian of the parliamentary proprieties, when he realized the imminent danger in which the empire stood.

The house was about to go into committee of the whole, and the speaker summoned Mr. Lennox to act as chairman.

## Constitutional Crisis.

With firm and unabashed step and a mind evidently engaged in far more pleasing meditations than those called forth by the contemplation of the routine of amendments to acts, public and private, the honorable member ascended the steps of the throne and seated himself upon the sacred cushion reserved for the representative of the crown or the presiding officer of the assembly.

But before the sergeant-at-arms could draw his sword in defence of the constitution, the unquenchable laughter which shook the parliamentary Olympus warned the iconoclastic intruder to withdraw to the safe seclusion of his proper place at the end of the long table and the empire was saved.

The premier announced that he had no objection to the amendment of the house to-day all the contentious bills of the session. These include, besides the Toronto bill, Mr. Charney's telephone bill, and the two bills introduced by the premier dealing with the street railway and the traction companies.

As the government seems determined to finish the business of the house to-day and to prorogue on Wednesday, it is probable that the session will probably close on Wednesday.

Not the "Globe Robin." Allan Studholme arose in his place to draw the attention of the house to a rumor which was going the rounds respecting a certain "round robin," and to the statement in the press that he had seen a "round robin," and certainly had not signed it.

Mr. James Whitney expressed his regret that the attention of the house to a rumor which was going the rounds respecting a certain "round robin," and to the statement in the press that he had seen a "round robin," and certainly had not signed it.

It is true that robins do appear at this season of the year, and, indeed, I have never seen a round robin or a square one either," he added.

This interesting natural history incident, the attention of the house to a rumor which was going the rounds respecting a certain "round robin," and to the statement in the press that he had seen a "round robin," and certainly had not signed it.
